Columbus, Ohio, Division of Fire
Systems Manual

Foreword

This manual contains the Rules and Regulations of the Division of Fire as approved by the Director of Public Safety and the Fire Chief. The manual also contains the Policies of the City Administration and the Division of Fire, and Procedures to be followed in carrying out the routine and non-emergency business of the Division.

All members of the Division shall be thoroughly familiar with, and shall be governed by these Rules, Regulations, Policies, and Procedures. Any member who deviates from the provisions of Division Rules, Regulations, or Policies, or who is held to be in violation of any City, State, or Federal law, or who commits any act which would tend to bring discredit to the Division of Fire or City of Columbus, shall notify the Chief of the Division of such deviation or violation as soon as possible.

Members shall, regularly review the Rules, Regulations, Policies and Procedures as set forth in this manual. Any Officer or other Division member, before performing an act or making a decision where any doubt exists, shall review the applicable portion of this manual or other Division publication to determine the correct action. Occasions justifying any variance from the Rules or Regulations, or from any Division Policies, should be rare.

The PROCEDURES set forth in this manual, together with any other written or unwritten Division Procedures are intended as GUIDELINES for good operating practices and are not designed nor intended to limit any Division member in the reasonable use of judgment or initiative in given or unusual circumstances. Members are allowed a great deal of latitude in following Division Procedures in order to ensure that whatever action is taken is adequate and proper for the specific needs of a particular situation. However, any variance or deviation from established Division Procedures is expected to be of a temporary, rather than permanent, nature. Further, members who find it necessary to deviate from established procedures have an obligation to make this information known to those who may be affected by such action.

Columbus, Ohio, Division of Fire
Systems Manual

Foreword

The officers of the Division of Fire, i.e., Lieutenants, Captains, Battalion Chiefs, Deputy Chiefs, Assistant Chiefs, and the Chief, are required to perform supervisory and managerial duties, and as such as considered to be a part of the City Administration. All Officers should recognize this fact and make every effort to follow, support, and promulgate these Rules, Regulations, Policies, and Procedures, and should strive to motivate their subordinates toward comparable levels of acceptance and compliance.

Division members who observe or are aware of variances from any of the Rules, Regulations, Policies, or Procedures, shall bring such variance to the attention of the member or members involved at once, or at the earliest opportunity, so that the efficient operation of the Division will not be impaired.

Division members who observe or are aware of consistent or repeated variances from established Rules, Regulations, Policies, or Procedures shall report all pertinent information regarding such variances, in writing and through proper channels, to be Chief of the Division. Members failing to comply with these provisions may be held to be in a state of accountability equal to that of the offender.

Kevin O'Connor
Fire Chief

George Speaks
Public Safety Director

Division of Fire

Mission Statement

The mission of the Columbus Division of Fire is to serve our community by:

- Preventing emergencies through education and inspection
- Minimizing injury, death, and property destruction due to fire, natural disaster and other emergencies
- Minimizing injury, death and suffering by providing timely and effective emergency medical service.

This mission is accomplished through the efforts of dedicated professional fire fighters.

Values Statement

In order to accomplish our Mission, we the members of the Columbus Division of Fire use the following values to guide our actions:

- Preservation of life and property
- Safety
- Personal integrity
- Professionalism
- Respect for others

Mission Statement

Administration Bureau

The mission of the Administration Bureau is to administer the Division's personnel services and payroll, coordinate Information Services, act as liaison between the Fire Chief and the Department of Finance, and to develop and monitor accounting practices, financial measures, and administrative procedures which promote the achievement of the Division's Mission through the efficient use of funds.

Emergency Services Bureau

The mission of the Emergency Services Bureau is to minimize injuries, deaths, and property loss related to fires, medical emergencies, and other disasters through the efficient delivery of effective fire suppression, pre-hospital treatment and patient transport.

Training Bureau

The mission of the Training Bureau is to assure that all Division members have the knowledge and skills necessary to safely and efficiently fulfill the Mission of the Division.

Fire Prevention Bureau

The mission of the Fire Prevention Bureau is to minimize injuries, death, and property loss through public education, enforcement of fire codes, and the investigation of fire causes.

Support Services Bureau

The mission of the Support Services Bureau is to provide and maintain the facilities, apparatus, and supplies, and to receive emergency and non-emergency call and dispatch necessary alarms as well as to provide infectious disease prevention/intervention for firefighters.

A Firefighter's Code of Ethics

As of a professional firefighter and a member of the Columbus, Ohio, Division of Fire, my fundamental duty is that of service to mankind. I accept the responsibility of striving to safeguard and preserve life and property, and of maintaining proficiency in my chosen profession. I will uphold the standards of my profession, constantly search for new and improved methods, and disseminate and share my knowledge and skills with my contemporaries and descendants.

I will never allow personal feelings nor danger to self to deter me from the faithful performance of my duties as a firefighter. I will at all times, respect the property and rights of all people, the laws of my community and my country, and the chosen way of life of my fellow citizens.

I recognize the badge of my office to be a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the fire service.

I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession and to the pursuit of the noble goals it projects.

AUTHORITY

200.00 The following sections from the Charter of the City of Columbus, Ohio, adopted Tuesday, May 5, 1914, (with Amendments to January 1, 1996) and sections of the Columbus City Codes list the operating authority for the Columbus, Ohio, Division of Fire. (Sections 200.02 through 200.06 are reproductions of indicated portions of said documents.)

PREAMBLE TO THE CHARTER OF THE CITY OF COLUMBUS, OHIO

200.02 We, the people of the City of Columbus, in order to secure and exercise the powers of local self-government under the constitution of the State of Ohio do enact and ordain this charter.

Charter of the City of Columbus, Ohio, Sec. 1. POWERS OF CITY. The inhabitants of the City of Columbus, as its limits now are, or may hereafter be, shall continue to be a body politic and corporate by name the City of Columbus, and as such shall have perpetual succession. It shall have all powers that now are, or hereafter may be granted to municipalities by the constitution or laws of Ohio; and all such powers whether expressed or implied, shall be exercised and enforced in the manner prescribed by this charter, or when not prescribed herein, in such manner as shall be provided by ordinance or resolution of the council. In the absence of such provision as to any power, such power shall be exercised in the manner now hereafter prescribed by the general laws of the state applicable to municipalities.

Charter of the City of Columbus, Ohio, Section 2. The enumeration of particular powers by this charter shall not be held or deemed to be exclusive, but in addition to the powers enumerated herein, implied thereby or appropriate to the exercise thereof the City shall have and may exercise all other powers which, under the constitution and laws of Ohio, it would be competent for this charter specifically to enumerate.

DEPARTMENT AND DIVISIONS

200.04 Charter of the City of Columbus, Ohio, Sec. 97. DEPARTMENT AND DIVISIONS ESTABLISHED. The following administrative departments and Divisions thereof are hereby established by this charter:

1. DEPARTMENT OF PUBLIC SAFETY
 - (A) Division of Police
 - (B) Division of Fire

Charter of the City of Columbus, Ohio, Sec. 98. ADMINISTRATIVE CODE. The Council by ordinance may adopt an administrative code providing for such administrative procedures as it may determine and for the administrative organization of city government. Said administrative code shall be adopted or amended by a vote of not less than two-thirds of the members of council. Provisions of the administrative code shall take precedence over any ordinance or resolution, except that council by two-thirds vote may exempt such from the effects of the supremacy of the administrative code where the subject matter of such ordinance or resolution deals with procedural rather than organizational matters. Such ordinance or resolution shall specifically state that it is exempt from the administrative code.

Charter of the City of Columbus, Ohio, Sec. 99. GENERAL POWERS AND DUTIES OF ADMINISTRATIVE DEPARTMENTS. Under the direction of the Mayor, a department director shall have all powers and duties connected with, and incident to the appointment, regulation, and government of his department, except as otherwise provided by charter or ordinance.

Charter of the City of Columbus, Ohio, Sec. 100. APPOINTMENTS. Subject to the Civil Service Provisions of this charter, the directors and other principal administrative officers and boards shall have power to appoint and remove all officers, clerks and employees in their respective departments.

DEPARTMENT OF PUBLIC SAFETY

200.06 Charter of the City of Columbus, Ohio, Section 101. GENERAL POWERS AND DUTIES OF DIRECTOR. Under the direction of the Mayor, the Director of Public Safety shall be the Executive Head of the Division of Police and Fire. He shall have all powers and duties connected with and incident to the appointment, regulation, and government of his department, except as otherwise provided by this charter. He shall keep a record of his proceedings.

Charter of the City of Columbus, Ohio, Section 105. DIVISION OF FIRE. The Division of Fire shall be composed of a Chief of the Division and such other officers, firemen and employees as may be provided by ordinance or resolution of the council. In case of riot, conflagration, or like emergency, the Mayor may appoint additional firemen and officers for temporary service who need not be in the classified service.

Charter of the City of Columbus, Ohio, Sec. 106. CONTROL BY FIRE CHIEF. Under the direction of the Director of Public Safety, the Chief of the Division of Fire shall have control of the stationing and transfer of all firemen and other officers and employees constituting the Division of Fire.

Columbus City Codes, Chapter 1921.01. The Chief of the Division of Fire shall have general care and supervision over the Division. He shall devote his entire time to the interests of the Division. He shall see that all of the provisions of the Columbus City Codes and other ordinances for the government thereof be strictly enforced and obeyed and that all the companies are properly regulated and disciplined.

Columbus City Codes, Chapter 1921.03. It shall be the duty of the firemen and other persons connected with the Fire Department to obey at once all orders and instructions of the Chief or Assistant Chiefs of the Division of Fire under penalty of immediate dismissal.

Chapter II
General Code of Personal Conduct

Charter of the City of Columbus, Ohio, Sec. 108. **SUSPENSION IN FIRE AND POLICE DIVISION.** The Chiefs of the Division of Police and Fire shall have the exclusive right to suspend any of the officers or employees in their respective Divisions for incompetence, gross neglect of duty, gross immorality, habitual drunkenness, failure to obey orders given by the proper authority, or for any other just and reasonable cause. If any officer or employee be suspended, as herein provided, the Chief of the Division concerned shall forthwith in writing certify the fact together with the cause for suspension, to the Director of Public Safety, who, within five days from the receipt thereof shall proceed to acquire into the cause of such suspension and render judgment thereof, which judgment, if the charge be sustained may be suspension, reduction in rank or dismissal, and such judgment in the matter shall be final, except as otherwise hereinafter provided. The Director of Public Safety, in any such investigation, shall have the same power to administer oaths and secure the attendance of witnesses and the production of books and papers, as is conferred upon the council.

Charter of the City of Columbus, Ohio, Sec. 109. **APPEAL TO CIVIL SERVICE COMMISSION.** Any person in the Division of Police or Fire under the exclusive control of the Chief thereof, who is suspended, reduced in rank or dismissed from the Department by the Director of Public Safety may appeal from the decision of such officer to the Civil Service Commission within ten days from and after the date of such suspension, reduction or dismissal. In such event said director shall, upon notice from the commission of such appeal, forthwith transmit to the commission a copy of the charges and proceedings thereunder. The commission shall hear such appear within ten days from and after the filing of the same with commission and may affirm, disaffirm, or modify the judgment of the Director of Public Safety, and its judgment in the matter shall be final.

Chapter II
General Code of Personal Conduct

Charter of the City of Columbus, Ohio, Sec. 110. CLASSIFICATION OF EMPLOYEES IN DIVISION OF POLICE AND FIRE. The Director of Public Safety shall classify the service in the Division of Police and Fire in conformity with the ordinance of the council declaring the number of persons to be employed therein, and shall make rules for the regulation and discipline of such Division consistent with the provisions of this charter.

OFFICERS

- 202.00 Officers of the Division of Fire shall be responsible for the guidance, training, counseling and discipline of their subordinates and shall inspire and motivate the members under their command so as to promote and maintain morale and efficiency while accomplishing Division goals.
- 202.02 Officers shall be just, dignified, and firm in their dealings with subordinates, and others. They shall not use violent, abusive or immoderate language.
- 202.04 Officers shall make certain that all rules, regulations, and orders are strictly carried out and obeyed, and shall set an example to their subordinates in showing due regard for such regulations and orders. In all cases, obedience must be prompt, implicit, unquestioned, and unequivocal.
- 202.06 Officers shall promptly report to the proper authorities any transgressions of the Division's rules, regulations, or general code of personal conduct. Such reports shall include well sustained and documented charges submitted in writing.
- 202.08 Officers in disagreement with an order or directive shall first obey the order and then may express themselves to their superior officer. Their opinions will be received with respect and shall be given due consideration. However, they shall refrain from expressing dissatisfaction with Division orders or directives to, or in the presence of their subordinates.

Chapter II
General Code of Personal Conduct

- 202.10 Officers shall promptly obtain the information necessary to answer any questions on the part of their subordinates relative to the interpretation of regulations or orders, and in emergencies shall prescribe the immediate action to be taken.
- 202.12 Officers shall promptly relay all written communications through proper channels. No officer or other Division member shall suppress, disregard or unduly delay any such communication.
- 202.13 The use of electronic communications does not circumvent the need to properly notify the Chain-of-Command. Communications submitted by email through the chain of command shall be sent to the next level only. Members shall not cc/bcc all levels of the chain of command when submitting electronic communications.
(Revised 04/13/16)
- 202.13.1 Officers shall promptly approve, acknowledge, and/or comment on communications received by email before submitting to the next level of the chain of command. No officer or Division member shall suppress, disregard, or unduly delay any such communication. *(Revised 04/13/16)*
- 202.14 Officers of the Division shall be included in the definition of the general term "Division Members" and shall be governed by all rules and regulations pertaining to such members.

GENERAL

- 204.00 All members of the Division of Fire shall be governed by the customary rules of good behavior observed by law-abiding and self-respecting citizens.
- 204.01 *(Replaced by 204.80 – 204.84, 05/01/16)*
- 204.02 Members of the Division of Fire shall not destructively criticize the Division or its policies, programs, actions, or officers. They shall not perform any acts or make any written or oral statements which tend to bring them into disrepute or ridicule.

Chapter II
General Code of Personal Conduct

- 204.04 Members shall not use indecent profane, harsh or abusive language while on duty or when in uniform.
- 204.06 Members shall not drink any intoxicating beverage while on duty or when in uniform and shall not report for duty in an intoxicated or hungover condition.
- 204.08 Members shall not possess, use, or be under the influence of any opiate narcotic, hallucinatory drug, or other compound of an unlawful nature, whether on duty or off.
- 204.10 Members shall not engage in altercations or fights while on duty or when in uniform, except in a life-threatening situation.
- 204.11 Members shall not display disregard for accepted community standards.
- A. Division members shall not possess obscene literature, photographs, or other such material in Division facilities.
 - B. Members shall bring the presence of obscene material to the attention of their Company Commander or Bureau Head.
 - C. Members shall not view obscene films or videos on Division premises.
- 204.12 Members shall not incur liabilities which they are unable or unwilling to pay, nor shall they refuse to pay all legal debts.
- 204.14 Members shall not smoke in designated NO SMOKING areas, other potentially hazardous areas, or any area or situation that would create an unfavorable impression on the general public.
- 204.16 Members shall not threaten, intimidate, coerce, or interfere with their superiors, other members, or the public.
- 204.18 Members shall be courteous, respectful, and considerate in their dealings with other Division members and the public.

- 204.20 Members shall not display unfriendliness or indifference in contacts with other Division members. They shall maintain a spirit of cooperativeness and good will toward all Division members and shall exchange proper greetings and acknowledgments as conditions warrant.
- 204.22 Members shall accord all officers of the Division the proper respect due their rank, and it is mandatory that they address and refer to all officers by their proper titles.
- 204.24 Members shall maintain a valid State of Ohio driver's license, and shall immediately notify ES-2 and submit a written report to the Chief, if such license is suspended or revoked, or their driving rights are limited in any manner. The Chief will evaluate the underlying facts and determine if the member is to be assigned to administrative duties or relieved from duty in any assignment. Annually, supervisors shall verify that members under their supervision have a valid Ohio Driver's License. *(Revised 12/31/15)*
- 204.26 Members are subject to being contacted in case of necessity during their off-duty time. They shall at all times maintain a telephone where they can normally be contacted, and shall be sure that the number of such telephone is known to their immediate superiors.
- 204.28 Members shall not join or be a member of any organization or society the object or purpose of which shall either directly or indirectly seek to interfere with the discipline or conduct of the members of the Division, or the exclusive control of the Division by the Director of Public Safety.
- 204.30 Members shall not directly or indirectly send to or present before City Council, the State Legislature, or any other legislative body, any legislation within their scope of duties with the Division of Fire without the expressed written permission of the Fire Chief and Director of Public Safety. *(Revised 04/13/16)*

Chapter II
General Code of Personal Conduct

- 204.31 Members shall not directly or indirectly (including cc/bcc on email communications) send to the Director of Public Safety Office, City Council, and/or Mayor's Office any Division related information without the expressed written permission of the Fire Chief. This policy applies to the ranks of Deputy Chief, Battalion Chief, Captain, Lieutenant, and Firefighter. *(Added 04/13/16)*
- 204.31.1 Assistant Chiefs and the Public Information Officer shall notify the Fire Chief of any communications sent to the Director of Public Safety Office, City Council, and/or Mayor's Office. *(Added 04/13/16)*
- 204.32 Members shall not be absent for five consecutive working days without properly notifying their superior, as such action implies voluntary termination of employment.
- 204.34 Members shall not be delegates, representatives, or members of any political convention whose purpose is the nomination of a candidate for any political office. They shall not engage in partisan electioneering nor actually participate in political campaigns or conventions of any political party, but shall retain the inviolate right to vote at any election as they may decide.
- 204.36 Members while in uniform or while functioning as an employee of the Division of Fire or representing themselves to be an employee of the Division of Fire shall not, directly or indirectly, in any manner solicit, suggest, or request contributions, subscriptions, or donations, or engage or take part in any scheme or enterprise intended or likely to induce or influence any person to purchase tickets for fairs, concerns, lectures, exhibitions, theatrical performances, picnics, or entertainment of any kind, or to make presents or gifts in money or goods of any description without the sanction of the Fire Chief in writing.
- 204.38 Members shall not use official Division of Fire channels of communication to send out to other members of the Division any communication, whether written, verbal, or of a general nature, without having the sanction of the Chief.

Chapter II
General Code of Personal Conduct

- 204.40 Members shall not make false reports or gossip concerning the character or conduct of any other member, or of the business of the Division, to the discredit or detriment thereof. Nor shall they publicly express opinions on any case in which the Division is involved or the circumstances surrounding same.
- 204.42 Members shall, in the performance of their duties at fire or emergency scene, prevent the removal or unnecessary disturbance or articles of a suspicious nature, and shall act quietly and carefully with a view of obtaining proper and reliable evidence in all cases.
- 204.44 Members shall endeavor to detect, and obtain evidence to convict, persons reporting false alarms of fire.
- 204.46 Members shall give courteous attention to citizens calling in to make complaints, and shall give all possible assistance in referring them to the proper authority.
- 204.48 Members shall not knowingly falsify or alter any personnel records, pay records, or other records or reports.
- 204.50 Members shall not report late for work or be absent without leave from quarters, emergency scenes, or other assigned duty locations.
- 204.52 Members shall discharge their duties with the greatest degree of silence compatible with efficient performance and existing conditions so as not to create or add to confusion.
- 204.54 Members shall not possess unauthorized weapons or explosives while on duty or when in uniform.
- 204.56 Members shall not willfully, or continually, violate any of the rules or regulations of the Division, nor shall they be guilty of neglectful inefficiency or indifference in the following of orders or performance of duty.

Chapter II
General Code of Personal Conduct

204.58 Members shall not be guilty of careless or unauthorized operation, sabotage, theft, or misappropriation of vehicles, tools, equipment, or other property used by them or entrusted to their care.

204.60 Members shall not be guilty of the unauthorized posting or removal of notices or signs, or of unauthorized writing in any form, on any of the Division bulletin boards. Station Captains shall be responsible for the proper posting and removal determinations, except as stated in (1.) below.

1. Any official division communication distributed to division fire stations is authorized to be posted. This includes, but is not limited to, bulletins, vacancy lists, transfer lists, and newsletters. The Station Captain shall determine whether or not these communications shall be posted, except in the case of a directive from a supervisor to post the same.
2. Station Captains are authorized to post any information pertaining to the operation of the station. This includes, but is not limited to, house fund information; house cleaning and maintenance schedules, work schedules, street schools, and training.
3. Local #67, IAFF, in accordance with past practice, shall be allotted space on the station bulletin board or shall be provided a bulletin board. Official union communications, as approved by the Union President or designee, are authorized to be posted. This includes, but is not limited to, union bulletins, flyers, retirement dinner notices, and voting information.
4. Any other communication must be stamped or noted "Approved for posting by the Fire Chief" before it is considered to be authorized for posting. Posting will not be authorized for any items for sale or for the promotion of any "for profit" business or activity.

204.62 Members shall not misuse any Division of Fire forms, records, lists, or confidential information of any nature.

Chapter II
General Code of Personal Conduct

- 204.64 Members shall maintain a clean personal appearance and shall keep themselves in the proper physical condition necessary to perform the duties of their position; they shall participate in Division physical fitness program unless excused by the Chief.
- 204.66 Members shall not litter or otherwise contribute to poor housekeeping, unsanitary, or unsafe conditions on any Division premises.
- 204.68 Members shall abide by safety rules and common safety practices.
- 204.70 Members shall not loaf or otherwise waste time during prescribed working hours and shall not stop work or prepare to leave work before the specified quitting time except as authorized by the Chief.
- 204.72 Members are expressly prohibited from using Division vehicles or apparatus for the purpose of running personal errands or attending to other business that is not Division-related. Specific examples of such unauthorized use would include, but not be limited to, using fire apparatus or vehicles for shopping, banking, etc. Members required to use their Division vehicles while on stand-by status shall use good judgment in order to prevent criticism of the Division.
- 204.74 The attention of every member of the Division is hereby directed to the Rules and Regulations of the Columbus Municipal Civil Service Commission, and the City of Columbus Central Work Rules. Each and every such rule and regulation is hereby adopted and made a part hereof and is in force and effect the same as though fully written and contained herein.

Chapter II
General Code of Personal Conduct

REPORTING ARRESTS OR COURT ACTIONS *(Replaces 204.01)*

- 204.80 If arrested and unable to report for their regularly scheduled assignment, Division personnel shall immediately notify the Fire Alarm Office. *(Added 05/01/16)*
- 204.82 Division personnel may only use previously scheduled annual vacation, monthly vacation or request LWOP in accordance with 712.15*. *(Added 05/01/16)*
- 204.84 In any of the following circumstances, prior to or immediately upon reporting for the first tour of duty after being notified of the court action, Division personnel shall notify the Fire Chief in writing through the chain of command. *(Added 05/01/16)*
1. Division personnel who are subject to arrest, court action, or court appearance, except divorce and/or child custody proceedings. However, notification shall be made when there is an arrest or court action resulting from nonpayment of child support. *(Added 05/01/16)*
 2. Division personnel who initiate lawsuits relating to their employment with the Division of Fire. *(Added 05/01/16)*
 3. Sworn personnel who are served with criminal temporary protection orders or any court orders related to domestic violence. Forward copies of the orders along with the written notifications. *(Added 05/01/16)*
 4. All sworn and any other Division personnel who operate motor vehicles on duty and who are subject to the loss, suspension, or revocation of their driving privileges. In addition, involved personnel shall provide documentation of conditional driving privileges, if applicable, along with the written notifications. *(Added 05/01/16)*
 5. Division personnel who receive a subpoena from, or otherwise assist or intend to assist, a party in any civil or criminal matter that is adverse to the interests of the Division of Fire or the City of Columbus. *(Added 05/01/16)*
 6. Division personnel who receive a subpoena from, or otherwise assist or intend to assist, the defense in a criminal case. *(Added 05/01/16)*

PERFORMANCE OF DUTIES

206.00 Members of the Division of Fire shall devote their full time and attention to the business of the Division while on duty. They are expressly prohibited from following any calling or engaging in any activity that is either directly or indirectly associated with an off-duty business, occupation or employment during any on-duty hours.

206.01 Members shall not neglect their duties. The use of any personal electronic devices shall be limited to times when the goals of the Division have been met and it does not lend itself to criticism from the public.

Personal items, including but not limited to cellular phones, pagers, laptop computers, cameras, radios, television sets, recording devices or players, or any other item not work related, shall not be used when dealing with the public, on an incident scene, in Division vehicles, or in the workplace, except as authorized by supervision.

All cellular phones, pagers and other like items, that are carried while on duty, shall be set to vibrate rather than produce an audible alert. *(Revised 05/01/16)*

206.02 Any members engaging or planning to engage in off-duty employment or business activities which might possibly conflict with the performance of their duties or the interests of the City of Columbus are required to notify the Fire Chief of such activities at the earliest possible convenience.

206.04 Members of the Division shall be considered as being available for active duty at all times, whether officially classified as being on-duty or off-duty. They shall be prepared to act immediately upon determining that their services are required. Also, members shall, at all times and in all places, conduct themselves in a manner creditable to the Division of Fire.

206.06 Members shall conform to and readily obey, and shall not question or be guilty of deception or evasion of, any rule, resolution, regulation, or other directive, whether general, special, or verbal, which relates to the government of the Division or its members.

Chapter II
General Code of Personal Conduct

- 206.08 Members shall normally receive orders and directives from their immediate superiors. However, all members shall comply with all orders issued by any superior officer of the Division.
- 206.10 Members flouting the authority of any superior officer by obvious disrespect or by disputing or ignoring such officer's orders shall be guilty of insubordination.
- 206.12 Members shall carry out the last order given pursuant to the following: Members given an order while already under previous orders shall first respectfully advise the officer issuing the most recent order of their original orders and by whom such orders were issued. They shall then be guided by the instructions of the officer issuing the most recent order.
- 206.14 Members shall refrain from exceeding their authority in giving orders. Wrongful or injurious exercise of authority is strictly prohibited. Any member acting in obedience to an improper order shall be protected against penalty.
- 206.16 Members shall exert their greatest effort to perform to the best of their ability under all circumstances. They shall not display cowardice or lack of energy or such character as to amount to incompetence or gross neglect of duty.
- 206.18 Members who, by continued lack of judgment, knowledge, neglect, or habitual carelessness, cause or contribute to loss of life or excessive damage to property shall be held responsible for their actions.
- 206.20 Members who neglect to acquire the necessary knowledge to adequately perform their various duties shall be deemed inefficient. Ignorance of regulations or orders will not be accepted as an excuse for any violation thereof.
- 206.22 Members shall report to their company commander, or the person authorized to receive such reports, any information they may have regarding obstruction of streets, dangerous buildings, leaky hydrants, or any other information pertinent to the City of Columbus or the Division of Fire.

Chapter II
General Code of Personal Conduct

- 206.24 Members shall, when exposed to a contagious disease while on duty, report this fact to their immediate superior as soon as possible and complete all required forms and reports as detailed elsewhere in this manual.
- 206.26 All Division members, including officers, shall be guided by all orders and directions received by them from the Fire Alarm Office. No member shall ignore or disregard such orders or directions or attempt to issue orders to the Fire Alarm Office.
- 206.28 Members receiving orders or directions from other members, when the name of the directing officer is given, shall regard such orders as coming directly from the designated officer, and shall promptly carry out said orders.
- 206.30 Members of the Division shall perform such other duties as are required of them by their superior officers and by the rules and regulations and other orders of the Division of Fire.
- 206.32 **TAKING COMPLAINTS:** The Division of Fire Complaint Form PI-12 will be available in the Safety Director's Office, the Administrative Office, and the Professional Standards Unit. *(Revised 12/31/15)*

Complaints shall be immediately referred to the Administrative Office or the Professional Standards Unit. In the event a citizen comes to a fire station or any other Division facility to lodge a complaint, that citizen is to be assisted in calling the Administrative Office or the Professional Standards Unit. In cases occurring after business hours, the citizen should be advised that a recorded message can be left at 645-4046 and someone will contact them to confirm the information left on the recorder. *(Revised 12/31/15)*

Notation will be made in the station or bureau log denoting that a citizen was assisted in lodging a complaint. The Administration Office or designee shall assign the investigation of the complaint to either the Professional Standards Unit or a supervisor in the Chain of Command. A file copy of all complaints received will be retained by the Professional Standards Unit. *(Revised 12/31/15)*

MEDIA RELATIONS

208.00 When news media or other commercial entities wish to take pictures and/or video inside Division facilities the request must be referred to the Public Information Office for approval. If no staff member in that office can be reached, after reasonable attempts have been made to contact them, the on-duty Deputy Chief may approve the request, if the Deputy Chief decides it is in the best interest of the Division. The Fire Chief and Administration Office may also grant approval.
(Revised 12/31/15)

All other requests to take pictures or videos inside fire facilities may be granted at the discretion of the Division member in charge of the facility at the time.

208.02 Members of the Division shall use discretion when providing Division information. Any questions or concerns regarding the release of information shall be directed to the Public Information Officer. This does not prohibit members from explaining basic Division routine to fire station visitors.

208.04 No Fire Division member, acting as a Fire Division member, may participate in any news conference or interview without the prior approval of the Fire Chief, the Administration Office, or the Public Information Officer except emergency scene operations as described below and subsequent follow-up interviews with the Incident Commander relative to a recent incident. *(Revised 12/31/15)*

All contacts with the news media require the prior approval of the Fire Chief, the Administration Office, or the Division PIO except emergency scene operations as described below and subsequent follow-up interviews with the Incident Commander relative to a recent incident. *(Revised 12/31/15)*

208.06 Any contact from the news media to a Fire Division member - whether in person, by telephone, electronic means, or in writing - must be reported to the Public Information Officer as soon as possible.

Chapter II
General Code of Personal Conduct

- 208.08 No news media event may take place in any Fire facility or on any property under the control of the Fire Division unless coordinated by the Public Information Officer.
- 208.10 Although it will not be standard practice to make fire division employees available to the media occasional contact may be necessary. Employees retain their first amendment right of free speech. This does not in any way circumvent the need to properly notify individuals as stated in section 208.04 of this manual. Employees must understand that if they choose to exercise this right they are doing so at their own free will. Shedding a negative light on the Division of Fire or the City of Columbus may violate other policies and procedures of the division and or the City of Columbus. Keeping in mind, these interviews will be done ONLY on their own time, off duty, out of uniform. The employee must clearly state that they are not speaking on behalf of the Columbus Division of Fire or representing the division in anyway. *(Added 12/31/15)*
- 208.12 An employee's First Amendment Right to free speech is limited once they become a public employee. An employee can freely speak about concerns they have that an average citizen may have. An employee may not freely discuss employee relations, generally employer operations or discipline without prior approval. *(Added 12/31/15)*

EMERGENCY SCENE MEDIA

- 210.00 The standard operating procedures for working with the media and handling the MEDIA SECTOR on an emergency scene are:
1. All media representatives shall be referred to the Media Sector.
 2. If the Division Public Information Officer (PIO) is on the scene, all responsibilities of the Media Sector will be delegated to the Division PIO.
 3. If both the Division PIO and the Public Information Assistant (PIA) are on the scene, the PIA will assist in the Media Sector, as directed by the Division PIO.
 4. If the PIA alone is on the scene, the Incident Commander will retain full responsibility for the Media Sector, or delegate it as appropriate. The PIA will assist with media related tasks, as directed by the person in charge of the Media Sector.
- 210.02 The Division PIO will serve as the Division spokesperson in any situations where the Division PIO is on the scene and determines that it is appropriate to act in this capacity. The Division PIO's decision to retain the role of spokesperson will carry the authority of the Fire Chief.
- 210.03 The Public Information Office will be notified by the FAO of any major incident that occurs. *(Revised 12/31/15)*

SCOPE OF EMPLOYMENT

- 212.00 Off duty firefighters performing duties pursuant to the legal orders of the Fire Chief are considered acting within the course and scope of employment of the City of Columbus for the purpose of granting injury or death benefits. This applies to off duty firefighters fulfilling Special Duty assignments or similar duties approved and directed by the Fire Chief.
- 212.02 An off duty firefighter coming to the aid of a person or property will be considered acting within the course and scope of employment of the City of Columbus when:
- a. Refraining from such would have a severe and immediate detrimental effect on the person or property, AND
 - b. When the aid is the same and/or similar to that which would be provided by the individual as a member of the Columbus Division of Fire, AND
 - c. The firefighter is not acting within the course and scope of employment of another employer, or as an independent contractor, or while self-employed.
- 212.04 A firefighter acting within the course and scope of employment of another employer, whether compensated or not, as an independent contractor, or as a self-employed person will not be deemed to be in the course and scope of employment for the City of Columbus. This includes paid or volunteer Fire or EMS service performed for another jurisdiction or employer except as provided in 212.00.
- 212.06 Firefighters serving as a volunteer or paid member in other communities or organizations are advised to seek information regarding health and death benefits available to them for performing services on behalf of the other agency and/or make arrangements to meet their needs from personal sources.
- 212.08 Participating in an organized activity such as supporting a charity, special cause, union function, sports activity, etc. is not considered to be in the course and scope of employment for the City of Columbus if the activity is not a Division sanctioned Special Duty assignment.

Chapter II
General Code of Personal Conduct

212.10 Special Duty assignments are restricted to activities that pertain to the business of the Division or special programs sanctioned by the Division. The Chief of the Division will exercise his discretion in approving Special Duty for either the specific activity or for the member submitting a request.

SUBPOENA PROCEDURES *(from Section 730.00 - Revised 12/31/15)*

230.00 Members will not be compensated, or relieved of duty with pay, for subpoenas which are not a result of their duties and/or position with the Division of Fire, or for instances in which the member is either a plaintiff or complaintant in a civil action or administrative proceeding, or a defendant in a criminal action.

(from Section 730.00 - Revised 12/31/15)

230.10 Division members are expected to honor any subpoena they receive, but they will be eligible for overtime compensation only if they follow the appropriate procedures as listed in current Division S.O.P.'s. *(from Section 730.00 - Revised 12/31/15)*

DIVISION TRAINING POLICY

300.00 It is the policy of the Division of Fire to provide a comprehensive training program for all employees of the Division, under the direction of the Bureau of Training. This Division-wide training program shall be progressive, well-developed, effective, and continuous in nature. It will include the following (5) general categories:

1. Recruit Training
2. Apprenticeship Training
3. In-Service Training
4. Officer Training
5. Specialized Training

RECRUIT TRAINING

300.02 Recruit training is the initial phase of basic training received by newly appointed Division members. It consists primarily of fundamental instruction and training sessions conducted at the Division Training Academy. Recruit instructors include those Division members designated as permanently assigned Training Academy personnel, other Division members selected from the Emergency Services Bureau, and various other fire Division or civilian personnel, according to need.

300.04 Recruit training sessions cover a wide range of subjects including basic firefighting evolutions, ventilation practices, ropes and knots, tools and equipment, building construction, apparatus driving and tilling, hose lays and engine operations, self-contained breathing apparatus practices, chemistry of fire, search and rescue, first aid procedure and numerous other subjects. The length of the recruit training period is subject to change, depending upon existing conditions and needs.

300.06 Members of the Division who have attained Journeyman Firefighter Status may apply for temporary recruit instructor positions by completing the Division of Fire Instructor's Profile (Form TA-514) and filling out an Application for Temporary Instructors. These forms can be obtained from member's Battalion Chiefs, and must be submitted through normal Division channels to the Chief of Training.

APPRENTICESHIP TRAINING:

- 300.08 It is the policy of the Division of fire to hire and train recruit firefighters under the auspices of the Joint Apprenticeship and Training Committee (JATC) program, monitored locally by members of the fire Division with equal representation from the Local IAFF union. The JATC carries out this function by reviewing programs and reports and by making recommendations for change or improvement to the Fire Chief.
- 300.10 Apprentice training involves a thirty-six (36) month program for all firefighters hired after November 1993, consisting of national training standards developed specifically for firefighters.
- 300.12 Each Division member employed and trained under the Apprenticeship Program shall be covered by a written agreement, acknowledging the terms of the Apprenticeship Standards. All apprentice firefighters shall be subject to a 12 month probationary period, beginning with the effective date of their appointment. In addition, an apprentice firefighter may be terminated for failure to successfully complete the requirements of the apprenticeship program.
- 300.14 The apprenticeship program will be implemented in accordance with procedures approved by the Fire Chief and on file in the Bureau of Training.
- 300.16 Any recruit firefighter who fails to successfully complete all necessary requirements of recruit training will be recommended for dismissal.
- 300.18 Any probationary firefighter who fails to obtain Fire Safety Inspector Certification before the end of their probationary period will be recommended for dismissal.
- Any probationary firefighter who fails to obtain EMT-B certification before the end of their probationary period will be recommended for dismissal.

Chapter III
General Policies And Procedures

Any probationary firefighter who fails to obtain all required Division of Fire qualifications before the end of their probationary period will be recommended for dismissal.

- 300.19 Recruit company commanders shall actively guide and assist their company members in initiating self-study programs, and will assure that they participate in regular in-service training sessions and company level school activities.
- 300.20 All Journeyman Firefighters shall receive official certification acknowledging this status.
- 300.21 Instructors may remove from the classroom or training site, any individual, of any rank, if in the instructor's judgment that individual is preventing the other participants from receiving the full value of the training. In so doing, the instructor has this authority granted to him/her by the Fire Chief. This authority is also extended to guest instructors from outside the Division.

If an individual is ordered to leave a training session, that individual will leave immediately and without discussion, and both the individual and the instructor will submit to the Fire Chief a written report of the incident.

IN-SERVICE TRAINING

300.22 The Division of Fire In-Service Training program shall consist of three (3) general phases. All Division members shall participate in this program to the extent that their rank and individual duty assignments allow. The three (3) general phases are:

- 1: Division-wide standardized training.
- 2: Personal training needs.
- 3: Physical Training.

In each of the three phases, specific training activities should be continued until the desired levels of proficiency are achieved. The Training Bureau will conduct training and continued education for all Division personnel, in order to ensure that all Division personnel are receiving and/or engaging in the training necessary to maintain desirable levels of knowledge and skill. *(Revised 12/31/15)*

300.32 Personal Training Needs: Company commanders shall continuously evaluate the personal training needs of their respective companies and individual company members. They shall also be guided by the directions of their Battalion Chiefs with regard to these needs. Examples of personal training needs include: apprentice firefighter program requirements, the study of street and hydrant locations, pre-fire planning of target hazards, incident command and fire ground procedures, driving and tilling practice, fire station procedures, and any number of various other related and necessary skills that may not be adequately covered under the Division-wide standardized training program.

300.34 Physical Training: All company commanders and Division members assigned to their companies or under their supervision are encouraged to participate in some form of physical training each day. Ordinarily, such training will involve a recognized form of physical activity such as calisthenics, volleyball, weight-lifting, table tennis, jogging, basketball, etc. In most cases, these physical training activities will take place after the completion of the Division daily routine (i.e. after 1800 hrs. on weekdays and after 1200 hrs. on weekends and holidays. Note: See Section 408.00 "DIVISION DAILY ROUTINE"). *(Revised 12/31/15)*

300.36 *(Deleted 09/15/15)*

OFFICER TRAINING

300.38 Programs involving instruction and training in the various aspects of leadership, management, supervision, employee counseling, instructor training, and other subjects associated with successful performance as a fire officer will be offered at various times throughout the year. Very often Division members who will be asked to participate in these officer training programs will be those whose standing on the current promotional eligibility list indicates probable advancement in the ranks. Instructors for officer training sessions may be members of the Fire Division, or civilian personnel having special knowledge and training in the particular fields of study involved.

SPECIALIZED TRAINING

300.40 The Division Training Academy will conduct educational programs as necessary when training concerning specialized procedures or equipment is required. Before being presented to Division members, outlines and lesson plans covering the proposed training sessions will be submitted to the Training Academy for review, and shall be subject to the approval of the Fire Chief. Examples of such specialized training would include such things as hazardous materials training; heavy rescue training; specialized first aid and medic training; air crash firefighting; training concerning new apparatus, tools, or equipment; fire prevention and arson investigation training; bomb squad training; and various other subjects or areas of concern. Also included in this category will be programs concerning the training and instruction of the Auxiliary Firefighting force, the extent and subject matter of which shall be determined by the Fire Chief.

STAFF DISTRIBUTION POLICY

- 302.00 It is the policy of the Division of Fire to maintain a desirable balance of staff among the battalions of the Emergency Services Bureau on each unit. This balance shall be maintained among units and among battalions.
- 302.02 Each Deputy Chief shall attempt to keep all battalions balanced in staff. He/she shall balance these battalions a duty day in advance, and shall try to provide at least two members per battalion above the Division minimum standards.
- 302.04 *(Deleted 09/15/15)*
- 302.06 If a Battalion Chief has an insufficient number of firefighters on any given tour of duty, he/she shall immediately notify the Deputy Chief, stating the specific needs. If the Deputy Chief is not available, the Administration Officer or the Chief should be contacted. *(Revised 12/31/15)*
- 302.08 Company Commanders who at roll call cannot meet Division Minimum Staffing Standards shall immediately notify their Battalion Chief. If necessary, they shall hold a member of the off-going unit until such time they receive clear directions from their Battalion Chief.

MINIMUM STAFFING STANDARDS

- 302.10 ENGINE COMPANIES: Four (4) members assigned per unit. This may be accomplished with either: one officer and three (3) firefighters or with four (4) firefighters. Engine companies are permitted to run with a crew of three (3) between the hours of 0800 to 2000 when necessary to accomplish the business of the Division.
- Engine companies are not to run with less than one officer and three (3) firefighters after 2000 hours unless the third firefighter is on Division business and is in constant communication with the alarm office and capable of immediate response to the scene of an emergency to which his/her apparatus has responded.

Chapter III
General Policies And Procedures

302.12 LADDER COMPANIES: Four (4) members assigned per unit. This may be accomplished with either one officer or three (3) firefighters or with four (4) firefighters. Ladder companies are permitted to run with a crew of three (3) between the hours of 0800 and 2000 when necessary to accomplish the business of the Division. There shall be an officer in charge of ladder companies whenever possible in keeping with the guidelines listed in Section 404.88 of this manual.

Ladder companies are not to run with less than one officer and three (3) firefighters after 2000 hours unless the third is on Division business and is in constant communication with the alarm office and capable of immediate response to the scene of an emergency to which his apparatus has responded.

302.14 RESCUE COMPANIES: Three (3) members assigned per unit

ACTING OFFICERS

306.00 An officer or firefighter of the Division designated to act in a capacity higher than that to which such member has been duly appointed shall be known as an Acting Officer.

306.02 Acting Officers shall have all of the authority and be allowed all of the privileges of the position in which they are acting. They shall be obeyed and treated with due respect.

306.04 Acting Officers shall maintain a level of competence commensurate with the requirements and responsibilities of the position involved.

306.06 Acting Officers shall properly execute those duties required of the position in which they are acting.

306.08 Acting Officers shall adhere to the policies of the Officer in whose position they are acting, within the framework of Division guidelines. They shall refrain from making any changes in standing procedures affecting such policies.

GUIDELINES FOR SELECTING ACTING OFFICERS

- 306.10 See the current agreement between the City of Columbus and Local #67 IAFF for requirements and guidelines for selecting acting officers.
- 306.12 Firefighters who are designated as Acting Officers and are acting in the capacity of a Captain or Lieutenant shall be considered as "Acting Lieutenants".
(Revised 12/31/15)
- 306.14 An officer designated to act in the capacity of a Battalion Chief shall wear a white helmet with orange reflective markings at times when such protective headgear is needed. Acting Battalion Chief helmets are assigned to each Battalion chief vehicle.
(Revised 12/31/15)
- 306.16 If a member refuses to willingly accept the responsibility of the position of Acting Officer, the immediate superior of such member may order temporary compliance until a qualified replacement is available.
- 306.18 An Acting Lieutenant, or an Officer acting in a higher capacity, shall be superseded upon the arrival of a duly appointed officer.
- 306.20 When a Station Captain is off duty for whatever reason, the member authorized to work as acting Station Captain will be one assigned to the same unit as the Station Captain. This will be the case regardless of the length of the Station Captain's absence.
- 306.22 An Acting Station Captain will assume all duties and responsibilities of the normally assigned Station Captain.
- 306.24 A Lieutenant acting as Station Captain will function as a Captain on the fireground.
(Revised 12/31/15)

Chapter III
General Policies And Procedures

DELEGATION OF AUTHORITY

- 308.00 Supervisors cannot efficiently perform all of the duties for which they are responsible. To be effective they must delegate authority and responsibility to others.
- 308.02 The process of delegation consists of giving subordinates the authority and responsibility to act on behalf of those delegating such duties. The authority and responsibility being delegated must be clearly defined.
- 308.04 Over-supervision defeats the purpose of delegation. Once a job is delegated, the subordinate should be left on their own to carry out the assignment, and should be held accountable for the results.
- 308.06 When delegating authority, remain within the chain of command; delegate to immediate subordinates only.
- 308.08 Ordinarily, supervisors should not delegate in any of the following:
1. Situations requiring their own knowledge or skills.
 2. Situations involving extremely important matters that may have serious consequences.
 3. Situations involving appraisals of their subordinates.
 4. Situations requiring the rewarding or punishing of subordinates.
 5. Situations requiring the status and position of the supervisor.

DOCTRINE OF COMPLETED STAFF WORK

- 310.00 Completed staff work is the study of a problem and the presentation of a solution in such form that all that remains to be done on the part of the supervising officer is to indicate approval or disapproval. The subordinate should work out the details and provide a finished product that the supervisor can adopt by simply signing their name.
- 310.02 Writing a memorandum to a superior officer does not constitute completed staff work. Writing a memorandum for a supervisor to send to someone else does.

Chapter III
General Policies And Procedures

- 310.04 The theory of completed staff work does not preclude a rough draft, but such presentation must not be a half-thought-out idea. It must be complete in every respect except that it may be lacking the required number of copies and need not be immaculate. A rough draft must not be used as an excuse for shifting the burden of formulating the action to the superior officer.
- 310.06 The final test of completed staff work is this: If the person submitting the final draft were the Chief, would they be willing to sign the paper, risking their professional reputation on its being complete and well written. If the answer is negative or even doubtful, it is not yet completed staff work.

DIVISION TRANSFER POLICY

- 312.00 See the current agreement between the City of Columbus and Local #67, IAFF for the Transfer Policy."

TEMPORARY TRANSFER POLICY

- 314.00 All employees of the Division of Fire are subject to temporary transfer from their normal duty assignments at any time. These temporary transfers will usually involve officers and firefighters working the three platoon system. These will usually be limited to filling vacancies on the employees assigned work shift (unit).
- 314.02 Employees temporarily transferred for the purpose of filling vacancies or maintaining balance among the battalions shall be chosen on the basis of existing needs. The following guidelines shall apply:

The Deputy Chiefs shall attempt to staff the battalions so that at least one Chief Officer responds to all large fire assignments. *(Revised 12/31/15)*

Battalion Chiefs requiring personnel with specialized skills or certifications such as EMS personnel shall choose any similarly qualified members from their own battalions before requesting such personnel from other battalions.

Chapter III
General Policies And Procedures

- 314.06 Battalion Chiefs may request particular members from the companies in their respective battalions when they deem such action necessary.
- 314.08 Currently certified Emergency Medical and Rescue personnel temporarily transferred to another battalion to reach or exceed minimum manning standards, shall be utilized as EMS personnel whenever possible.
- 314.10 Division members reporting for temporary assignments, including call-in and/or overtime duty shall seek out and report to the officer in charge of the company to which they have been assigned. Whenever possible this shall be done prior to the official reporting time. These members shall report their name, rank, and normal duty assignment to the officer at this time. *(Revised 12/31/15)*
- 314.12 Members temporarily transferred (tt'd) to other fire stations or duty assignments, shall obtain all information necessary to assure timely arrival. This is especially important when a member is tt'd to another station or duty assignment for the first time.
- 314.16 If it becomes necessary to temporarily transfer firefighters to fill in for absent officers, the procedures governing the selection of acting officers shall be followed. (NOTE: See Section 306.10)
- 314.18 *(Deleted 12/31/15)*

TEMPORARY TRANSFERS FOR PERSONAL REASONS

- 314.20 Any Division employee who, for personal reasons, feels the need to temporarily change duty assignments, shall notify their battalion chief of this need and submit a PR-2 requesting such assignment. The request should state the reason and approximate length of time needed.
- 314.22 The member's battalion chief should attempt to make the necessary arrangements within his own battalion whenever possible. Temporary transfers for personal reasons involving assignment to other battalions shall be coordinated by the Deputy Chief.
- 314.23 Temporary transfers for personal reasons shall be for a minimum of one 24-hour work shift, and for no more than ninety consecutive calendar days. The Emergency Services Assistant Chief reserves the option of deciding specific work assignments, based on existing personnel needs.
- 314.26 Personnel permanently assigned to EMS positions who request temporary transfer out of the EMS field, will receive no EMS pay differential for the duration of their temporary transfer.

DIVISION GROOMING AND HAIR STANDARDS CODE

- 316.00 All employees of the Division of Fire shall be guided by those standards of good grooming as may be established and set forth by the Chief of the Division.
- 316.02 All members of the Uniformed Division shall conform to the specifications of the Division Grooming and Hair Standards Code as outlined in this section. Additional information, including photographs illustrating acceptable styles and current specifications shall be kept on file in the various stations and bureaus of the Division.
- 316.04 All members of the Uniformed Division, including those members temporarily transferred or who trade work shifts shall be held strictly accountable for compliance with the Division Grooming and Hair Standards Code. The member's regularly

Chapter III
General Policies And Procedures

assigned supervisor and the member's current supervisor shall also be held accountable for such compliance.

- 316.06 Members shall be clean shaven when standing roll call and at all other times during their normal tour of duty. This is especially important during inspections and other day to day contacts with the public. This shall apply to any off-duty ceremonies or other occasions where members are acting as representative of the Division of Fire, whether in or out of uniform. (NOTE: Temporary deviations from this policy for certified medical reasons may be allowed upon approval of the Fire Chief as explained in Section 316.14.)
- 316.08 Members of the uniformed Division shall comb or style their hair in a manner consistent with the provisions of this section. The length of their hair or hairpiece shall not exceed the maximum limits of grooming set forth in this section.
- 316.10 If the style, length or other feature of any member's hair is determined to be a health or safety hazard, or in any way hampers, interferes with, or restricts firefighting duties, it shall be in non-conformance with the Division Grooming and Hair Standards Code.
- 316.12 Wigs, hairpieces and similar contrivance shall not be worn to cover hair styles or lengths not conforming to this code. However, hairpieces and/or wigs conforming to this standard may be worn for reasons of baldness and/or physical disfigurement upon approval of the Fire Chief.
- 316.14 Male fire personnel shall not wear goatees, beards, braids, pony-tails, or hair tails of any description or length while on duty or representing the Division of Fire. Beards may be worn on a temporary basis when deemed necessary due to a certified medical condition. The approval of the Fire Chief is required in all cases. Such members will not serve on fire suppression companies. Individuals who receive this approval and have the required certified medical condition will wear a full beard no longer than one-eighth (1/8") of an inch in length.

Chapter III
General Policies And Procedures

- 316.16 Male Fire Personnel may wear a mustache, providing no portion of the mustache extends over the upper lip line further than half of the upper lip. Handlebar mustaches, Fu Manchu, and styles of similar shape are approved providing no portion of the mustache is allowed to grow to a length that may come within one-quarter inch of the member's SCBA mask seal. Mustaches shall be kept neatly trimmed and aligned as symmetrically as possible.
- 316.17 Facial hair that passes between the sealing surface of the face piece and the face of the wearer is not permitted. Members who have a beard or facial hair at any point where the face piece is designed to seal with the face (see 316.14) or whose hair could interfere with the operation of the unit shall not be permitted to use respiratory protection at emergency incidents, or in hazardous or potentially hazardous atmospheres.

MALE PERSONNEL HAIR STANDARDS

- 316.18 FOREHEAD - when combed, hair shall be at least one (1") inch above the top of the eyebrow.
- 316.20 SIDE OF THE HEAD - when combed, hair shall be cut, shaved or trimmed so as to follow half the ear. No hair shall overlap the ear so as to obscure the lower one-half (1/2) of the ear from sight in any manner. Hair shall be no thicker than one and one-half (1 1/2") inches from the sides of the head. Sideburns shall be no wider than one and one-half (1 1/2") inches at any point, and shall be no thicker than one-half (1/2") inch from the temple or cheek.
- 316.22 BACK OF THE HEAD - Hair shall be no thicker than one and one-half (1 1/2") inches from the back of the head and shall not extend below the middle of the shirt collar or dress blouse when head is held erect.
- 316.24 TOP OF THE HEAD - Hair shall be no thicker than two (2") inches from the contour of the head.

Chapter III
General Policies And Procedures

FEMALE PERSONNEL HAIR STANDARDS

- 316.26 FOREHEAD - when combed, hair shall be at least one inch (1") above the top of the eyebrow.
- 316.28 When in uniform, female personnel with hair that extends below the bottom edge of the shirt collar shall wear their hair in an upward sweep or bun, so that it will not extend below the middle of the shirt collar or dress blouse when head is held erect.
- 316.30 Hair of female personnel shall not exceed three (3") inches in bulk.
- 316.32 Female fire personnel shall not wear braids or ponytails unless they are used to form a bun. Pigtails and other tail configurations are not permitted.
- 316.34 Female fire personnel may wear conservative hair clasps, barrettes, or similar unobtrusive hair control devices which correspond to their hair color, as long as no health or safety hazard is thereby created.

GENERAL STANDARDS

- 316.36 No on duty fire personnel shall wear curlers at any time.
- 316.38 Only female fire personnel working on medic companies, and female fire personnel working in 40 hour positions (except fire recruits) may wear a single pair of plain earrings of the post or button type in pierced ears. All other personnel shall not be permitted to wear earrings of any type.
- 316.40 All preceding requirements apply whether or not the uniform cap or fire helmet is worn.
- 316.42 Please note that the current grooming policies and procedures may not specifically encompass all grooming styles or situations. Those styles not specifically covered will be reviewed by the Chief of the Fire Division. The Chief of the Division will determine compliance or non-compliance.

SMOKING POLICY

317.00 Smoking shall be prohibited in all City vehicles. Smoking shall be prohibited in all City facilities.

DIVISION GRIEVANCE PROCEDURES

318.00 See the current agreement between the City of Columbus and Local #67, IAFF for the Grievance Procedure.

DIVISION PROMOTION POLICY

322.00 Members of the Division of Fire who place high enough on Civil Service Promotional Eligibility Lists to be considered for promotion during the life of the list should understand the policy of the Division regarding promotions.

322.02 When an opening is to be filled by promotion, those members eligible to be promoted will be evaluated with regard to their qualifications and the requirements of the position to be filled. The eligible Division member who is judged to be the most highly qualified in all pertinent respects will be recommended for promotion.

322.04 It is Division Policy to be fair and equitable in selecting and recommending the most qualified individual from among those eligible to be promoted. Information on which to base this judgment must be comprehensive. Methods of obtaining this information may include: (1) personal interview, and (2) written reports from present and previous superior officers.

322.06 Candidates for promotion, whose ability to adequately perform the duties required of the new position is questionable, will be informed of this fact. These members will be advised of the reasoning behind such opinion and will be given every opportunity to improve their performance so that they might be recommended for promotion.

Chapter III
General Policies And Procedures

FLAG ETIQUETTE

- 324.00 Salute to National Colors: - Members of the Division of Fire are a part of the Uniformed Forces of the City of Columbus and should realize that such forces, with respect to discipline and other matters, are quasi-military in nature. It is therefore considered appropriate that members tender the proper military salute to the colors in accordance with the guidelines listed in this section.
- 324.02 When in Uniform: When the flag is passing in review at parades, ceremonies, or other civic functions, members shall remain covered and tender the salute while the flag is within six paces in either direction.
- 324.04 When in formation at parades or other functions, only the Officer in charge of the formation tenders the salute. Members in ranks shall execute the "eyes right" or "eyes left", as the circumstances may require, or shall come to attention if at a halt.
- 324.06 When Not in Uniform: Members shall stand at attention, remove the headdress with the right hand, holding it over the left shoulder, the hand being over the heart. Members without headdress should salute by placing the right hand over the heart.
- 324.08 When the National Anthem is played: If the flag is not displayed, all present should stand and face toward the music. Those in uniform should salute at the first note of the Anthem, retaining this position until the last note. All others should stand at attention, men removing the headdress.
- 324.10 When the National Anthem is played and the flag is displayed, the salute to the flag should be given.
- 324.12 If the National Anthem is heard outdoors and the music is near and audible, all persons should stop, uncover, and stand at attention. Respect should be limited to the playing of the National Anthem by a band, orchestra, or musical instrument, but not when played over a radio, sound track, or other recording.

Chapter III
General Policies And Procedures

- 324.14 When the National Anthem is sung by an entire audience, or by a soloist, those present should stand, but not salute. It is not correct to sing the National Anthem while saluting, as this would be awkward, unnatural, and incongruous.
(NOTE: Also see Section 416.00 "Display of National Colors".)

EMPLOYEE SUGGESTION POLICY

- 326.00 It is the policy of the Division of Fire to encourage all Division members to submit suggestions concerning the improvement of any aspect of the operations of the Division.
- 326.02 Suggestions shall be addressed to the Chief of the Division and shall be processed through proper channels of communication. Officers or supervisory personnel at intervening levels of authority shall review such suggestions and enter pertinent remarks when asked to do so by the member submitting the suggestion. If an intermediate supervisor does not agree with the suggestion, he/she shall enter "disapproved", followed by his/her signature, and shall attach a note explaining his reason for disapproval. Initials or signatures without comment will indicate approval. No intermediate supervisor shall fail to forward a suggestion through proper channels or shall take an unreasonable amount of time in either approving or disapproving a suggestion.
- 326.04 Members submitting honest, objective suggestions, whether or not such suggestions may be of a critical or unfavorable nature, shall in no way be incriminated or otherwise adversely affected as a result of such action.
- 326.06 Members wishing to remain anonymous may do so by omitting their signature. However, it should be understood that little credence will normally be attached to such communications, especially where alleged statements of fact are proffered.
- 326.08 All suggestions shall be accepted, reviewed, and acknowledged. When possible, an explanation or statement regarding the status of each suggestion will be included with such acknowledgment.

Chapter III
General Policies And Procedures

- 326.10 Employee suggestions with regard to recommended changes in any of the manuals or documents of the Division, including vehicle or equipment specifications, training and procedures manuals, and other forms or documents shall conform to the following procedure:
- 326.12 The recommended change, correction, addition, or deletion will be put in writing on Form RT-154 (Official Intra-Divisional Communication) and will be addressed to the Chief of the Division.
- 326.14 A specific reference to the manual or publication in question shall be made, including the title, page number, section, and/or paragraph number. A quotation of the applicable portion of the document as presently worded shall also be included.
- 326.16 The recommended change will then be presented by stating "I recommend that the above section be changed to read as follows:", or another similar statement to that effect, depending upon the exact recommendation.
- 326.18 This communication will then be submitted, through proper channels, to the Chief. As is the case with regards to general suggestions, all communications will be acknowledged.

DIVISION OF FIRE AWARDS PROGRAM / MERITORIOUS CONDUCT POLICY

- 330.00 INTRODUCTION: The purpose of the Awards Program is to publicly and officially recognize all members of the Division of Fire and other qualified persons who distinguish themselves by performing exceptional or conspicuously outstanding acts of heroism. It also provides for the recognition of any Division members who perform commendable acts which are deemed to be above and beyond those normally expected or required of personnel conscientiously discharging their assigned duties and acknowledges Division members and other qualified persons who engage in other meritorious or exemplary activities.

330.02 MEDAL OF VALOR (Highest Award)

- Awarded to active members of the Division of Fire who distinguish themselves by performing acts of gallantry and valor while saving or attempting to save a life and in the face of grave danger of imminent hazard to life, with sure knowledge of the risks involved, and unquestionably above and beyond the call of duty.

QUALIFYING CONSIDERATIONS: There must be no margin of doubt or possibility of error in awarding this honor. To justify receipt of this award, individuals nominated must clearly render themselves conspicuous above their comrades by saving or attempting to save a life by an act so outstanding that their gallantry above and beyond the call of duty is easily distinguished from lesser forms of bravery.

In addition, the deed cited must be one which, had it not been performed, would in no way subject such individuals to any justifiable criticism.

Obviously, a good deal of judgment will have to be exercised when deciding whether or not a nominee is qualified for this award. In general terms, if there is any question in the mind of those Division members acting as the screening committee with respect to any of the particulars listed in the "Qualifying Considerations", they should probably opt for presenting a lesser award.

Any Division member who is killed while on duty or who dies as a result of injuries received in the line of duty should be considered for this award.

330.04 SILVER MALTESE (Second highest award)

- Awarded to active members of the Division of Fire who distinguish themselves by performing acts of gallantry in the face of great personal danger or hazard to life, with knowledge of the risks involved, and above and beyond the call of duty.

QUALIFYING CONSIDERATIONS: To justify receipt of this award, individuals nominated must clearly render themselves conspicuous above their comrades by an

Chapter III
General Policies And Procedures

outstanding act which is clearly beyond the call of duty. In addition, the deed cited must be one which, had it not been performed, would in no way subject such individuals to any justifiable criticism. Any Division member who is killed while on duty, or who dies as a result of injuries received in the line of duty, should be considered for this award.

330.06 BRONZE MALTESE (Third highest award)

- Awarded to active members of the Division of Fire who, acting in the highest traditions of the fire service, bring distinction upon themselves and the Division by exhibiting extraordinary bravery or courage in the performance of acts or duties, the level of which exceeds that normally required or expected of such members.

QUALIFYING CONSIDERATIONS: To qualify for this award, individuals nominated must render themselves conspicuous in the performance of acts or duties, under hazardous or potentially hazardous conditions, setting them above and apart from those performing comparable duties. In addition, the deed cited must be one which, had it not been performed, would in no way subject the individual to any justifiable criticism. Any Division member who is killed while on duty, or who dies as a result of injuries received in the line of duty, should be considered for this award.

330.08 DISTINGUISHED SERVICE AWARD

- Awarded to individual members of the fire service for the commendable performance of acts or duties, or for efforts expended in materially contributing to the success of fire safety, fire prevention, or community relations programs.

QUALIFYING CONSIDERATIONS: To qualify for this award the person or persons nominated must have performed distinguishing acts or duties in a manner deemed to be above that normally required or expected, and sufficient to set them apart from those performing comparable duties.

330.10 FIRE CHIEF'S AWARD

- This award may be presented to fire service individuals, groups, or companies, who, in the opinion of the Fire Chief, have performed in a manner which the Fire Chief feels is beyond that which is normally expected of them.

This award may be presented in conjunction with, or in the absence of, a nomination for another award. Companies, groups, or individuals failing to garner the majority approval of the Awards Screening Committee as a result of being nominated for any of the previously listed awards would remain eligible for the presentation of this award as recommended by the Fire Chief.

330.12 FIRE SERVICE AWARD OF MERIT

- This award may be presented to fire service individuals, groups, or companies, who, in the opinion of an Assistant Chief, Deputy Chief or Battalion Chief, have performed in a manner which such Chief feels is beyond that which is normally expected of them.

This award may be presented in conjunction with, or in the absence of, a nomination for another award. Companies, groups, or individuals failing to garner the majority approval of the Awards Screening Committee as a result of being nominated for any of the previously listed awards would remain eligible for the presentation of this award as recommended by the involved Chief Officer.

The nominating Chief shall be notified by the Awards Committee when the award is ready to be presented.

330.16 Two weeks prior to the presentation, the Awards Committee must be notified by the involved Chief of the time, date, and place where the award is to be conferred. The Committee shall then notify the Public Information Office and Division Photographer of such time and place.

Chapter III
General Policies And Procedures

330.18 **FIREFIGHTER'S CROSS**

- Awarded posthumously to members of the Division of Fire who are killed while on duty, or who die as a result of injuries received in the line of duty.

330.20 **CITIZEN'S AWARD FOR BRAVERY**

- Awarded to citizens, other than members of the fire service, who distinguish themselves by performing heroic acts involving hazard to life or great personal danger, while saving or attempting to save a life.

330.22 **CITIZEN'S AWARD FOR DISTINGUISHED SERVICE**

Awarded to citizens, other than members of the fire service, who have distinguished themselves by performing acts or duties in a manner deemed to be above that normally required or expected, and sufficient to set them apart from their peers.

AWARDS SCREENING COMMITTEE

330.24 The Division of Fire Awards Screening Committee shall be composed of nine (9) members of the uniformed Division who represent a cross section of the various bureaus and ranks within the Division. Committee members shall be chosen according to the following guidelines:

1. The chairman shall be appointed by the Fire Chief.
2. The Bureau heads of Fire Prevention Bureau, Support Services Bureau, and Training Bureau shall appoint one (1) member each from their respective bureaus to this committee.
3. Deputy Chiefs assigned to the Emergency Services Bureau shall each appoint one (1) member of their respective units to serve on the committee.
4. The President of Local #67 IAFF may appoint one member of this body to serve on this committee.
5. One additional committee member shall be appointed at large by the Fire Chief.

Chapter III
General Policies And Procedures

6. The Awards Committee Chairperson shall appoint a Banquet Subcommittee from the members of the Awards Committee. This subcommittee shall be responsible for all arrangements concerning the presentations of awards, subject to the approval of the Chief. They shall keep the Public Information Office informed of all details pertaining to the banquet and the presentation of the awards.

NOTE: No individual will serve in a dual capacity by filling more than one of the above stated committee positions (a through e) at one time. *(Revised 12/31/15)*

330.26 Each appointment to the Awards Screening Committee shall ordinarily be for a term of three (3) years and at the end of such period may be considered for one (1) reappointment. The terms of the committee representatives will commence as follows and continue on a three (3) year rotation:

1. January 1 of 1998
Emergency Services Bureau (3 unit)
Training Bureau
Member at Large
2. January 1 of 1999
Emergency Services Bureau (1 unit)
Fire Prevention Bureau
3. January 1 of 2000
Emergency Services Bureau (2 unit)
Support Services Bureau
4. The Local 67 representative will be appointed at the discretion of the Union President.

NOTE: Committee members who may be unable to complete their appointed terms will be replaced by Division members belonging to the same organizational category, and appointed by the same process as was utilized in making the original appointments. *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

- 330.28 Each member of the Awards Screening Committee shall have an equal vote, with the exception of the Chairman, who shall not vote.
- 330.30 The Awards Screening Committee shall hold quarterly meetings, and may also be convened by the Committee Chairman for special meetings when necessary.
- 330.32 Whenever committee meetings are held, it shall require the presence of five (5) voting members to constitute a quorum.
- 330.34 No official recognition shall be accorded Division members, nor shall any awards be conferred upon them for services rendered in the discharge of their duties, until such time as the Awards Screening Committee has officially authorized such recognition or award.
- 330.36 The Chief of the Division of Fire shall make the actual award presentations.

NOMINATION PROCEDURES

- 330.38 Any member of the Division of Fire may nominate an individual (or individuals) for an award. Normally, this nomination will be initiated by, or through, the immediate superior of the member or person being nominated. Nominations may also be received by persons other than members of the Division of Fire.
- 330.40 Nominations shall be forwarded through normal channels to the Chief using form PI-49, Recommendation for Commendation. Notification to the Fire Chief may be made through traditional methods of division mail or through electronic mail as an attachment. The use of electronic mail DOES NOT prevent the need to follow the chain of command. The narrative should include a detailed account of the incident and all other pertinent information. Include the names of any witness or other person involved and the extent of any injuries. *(Revised 12/31/15)*

- 330.42 In general, an awards nomination should be initiated and channeled through the chain of command to the Chief as soon after the occurrence as possible, preferably no later than the duty day immediately following that on which the incident occurred.

SCREENING COMMITTEE GUIDELINES - EXPLANATIONS AND DEFINITIONS

330.44 MEDAL OF VALOR

This is the highest award that can be bestowed upon a member of the Division of Fire. Accordingly, there must be no margin of doubt or possibility of error in awarding this honor. The Awards Screening Committee must thoroughly investigate and carefully review the particular qualifying criteria of members nominated for this prestigious award. In addition, this award should nearly always be reserved for presentation to the individual Division member for an act performed in the presence of others, where verification of the circumstances surrounding the event can be readily obtained and the potential for error is minimized.

- 330.46 An explanation of the requirements listed in the “Qualifying Considerations” for receipt of this award follows: The phrase “must clearly render themselves conspicuous above their comrades” infers that the act performed be one which was either observed, or was an act the results of which leave little room for speculations to the probable actions taken; it should also have been an act that others in the same position as the nominee had an opportunity to perform, but justifiably declined to undertake, or failed in the attempt to perform.

(“CONSPICUOUS” - easily seen or noticed; readily observable; attracting special attention...)

- 330.48 The phrase “by an act so outstanding that it clearly distinguishes his gallantry...” infers that the act performed must be one which could not be considered as being “routine” or ordinary in any way.

(“GALLANTRY” - dashing courage; heroic bravery; valor)

(“OUTSTANDING” - prominent, striking)

Chapter III
General Policies And Procedures

- 330.50 The phrase “beyond the call of duty” is relatively self-explanatory.
 (“BEYOND” - more than; in excess of...)
 (“DUTY” - that which one is expected or required to do by moral or legal obligation;
 action or task required by one’s position or occupation.)
- 330.52 The phrase “from lesser forms of bravery” is also fairly easy to interpret.
 (“LESSER” - small in size; amount; importance)
 (“BRAVERY” - refers to confident bearing in the face of difficulties or dangers)
- 330.54 In addition, the act must have been performed in “the face of grave danger or
 imminent hazard to life, with knowledge of the risks involved”, as defined herein.
 (“GRAVE” - threatening a seriously bad outcome or involving serious issues)
 (“DANGER” - liability or exposure to harm; injury; risk; peril)
 (“IMMINENT” - likely to occur at any moment; impending)
 (“HAZARD” - danger; peril; expose to risk)
 (“KNOWLEDGE” - fact or state of knowing; clear and certain mental apprehension)
 (“RISK” - exposure to the chance of injury or loss)
- 330.56 To elaborate, the nominee must have been aware of the risks involved in the
 situation in order to qualify for this award. In addition, this award should usually be
 reserved for those situations where there actually was grave danger or imminent
 hazard to life, not for situations where the nominee thought, or even had good reason
 to believe, that actual danger existed, or where the risks involved were thought to be
 greater than they actually turned out to be.
- 330.58 SILVER MALTESE
 This is the second highest award that can be bestowed upon a member of the
 Division of Fire. In most cases, an individual awarded this honor will at least have
 received some consideration as a possible recipient of the “MEDAL OF VALOR”.
 The difference in the “Qualifying Considerations” between this and the previous
 (Medal of Valor) award are, for the most part, differences in degree rather than
 type.

- 330.60 This award should usually be reserved for presentation to an individual Division member of an obviously courageous act, decidedly beyond that normally required, and about which the potential for error concerning verification of relevant circumstances is minimized.
- 330.62 An explanation of the requirements listed in the “Qualifying Considerations” for receipt of this award follows: The key phrases describing the qualifications for this award are much the same as those listed for the Medal of Valor. Note, however, that certain segments included in the preceding qualifications have been omitted from this paragraph. Among the phrases omitted are “when saving or attempting to save a life” and “There must be no margin of doubt or possibility of error in awarding this honor”. While careful investigation procedures are highly encouraged, the intense level of scrutiny demanded of Medal of Valor nominations is not mandatory for this award. In addition, descriptive words have been removed from the remainder of the paragraph, so as to allow for flexibility of choice between these two highly prestigious awards in situations where individual committee members have difficulties in determining which qualifying considerations apply.
- 330.64 **BRONZE MALTESE**
This is the third highest award that can be bestowed upon a member of the Division. In most cases, an individual awarded this honor will have received at least some consideration as a possible recipient of the Silver Maltese.
- 330.66 Once again, the basic difference in “Qualifying Considerations” between this and the previous (Silver Maltese) award are, for the most part, differences in degree rather than type.
- 330.68 This award should be presented to a Division member (or members) performing courageous and selfless acts beyond what is normally required and the circumstances of which can be reliably determined.

Chapter III
General Policies And Procedures

- 330.70 An explanation of the requirements listed in the award narrative and the “Qualifying Considerations” for receipt of this award follows: “The act should bring distinction upon the member and the Division...”
(“Distinction” - distinguishing or treating with special honor, attention or favor)
- 330.72 The phrase “conspicuous in the performance of acts or duties, under hazardous or potentially hazardous conditions” denotes an extraordinary courageous act, yet not performed “under imminent hazard to life” as is outlined for the Medal of Valor, nor “in the face of great danger: as is outlined for the Silver Maltese.
- 330.74 Other fairly obvious omissions and revisions serve to make these qualifying considerations sufficiently diminished from those of the higher awards. Still, it should be remembered that none of these awards should be presented to members who do not at least meet the minimum stated requirements for each listed category.
- 330.76 **DISTINGUISHED SERVICE AWARD**
This award was meant to be broader in scope than the first three.
- 330.78 The committee should exercise its good judgment in applying the admittedly broad criteria of this award, so as not to diminish its importance in the eyes of the various recipients who are presented the award for the many divergent deeds or activities which qualify.
- 330.80 **FIRE CHIEF’S AWARD**
The basic criteria for this award are fairly broad. The main idea is to allow formal recognition of deserving Fire service individuals, groups or companies from the Fire Chief’s level.
- 330.82 **FIRE SERVICE AWARD OF MERIT**
The basic criteria for this award are fairly broad. The main idea is to allow formal recognition of deserving Fire service individuals, groups or companies from the Assistant Chief, Deputy Chief and Battalion Chief’s level.

- 330.86 As with all awards, a copy of the certificate or accompanying letter will become a permanent part of each recipient's personnel file.
- 330.88 **CITIZEN'S AWARD FOR BRAVERY**
The criteria for this award are that a hazardous or potentially hazardous condition did occur that required extraordinary courage to perform the act or deed. While the criteria for this award is fairly broad, it is intended to recognize citizens who perform courageous acts or deeds that set them apart from other citizens and would not have brought criticism upon them had they not performed the act or deed.
- 330.90 **CITIZEN'S AWARD FOR DISTINGUISHED SERVICE**
This award is meant to be broader in scope than the Citizen's Award for Bravery. Service rather than bravery is emphasized for this award.
- 330.92 **EMS AWARD OF MERIT**
This award may be presented to a fire service individual, groups, or companies who, in the opinion of an EMS Supervisor but, in collaboration with the Assistant Chief, Deputy Chief, or Battalion Chief, have exhibited care and consideration during an emergency medical situation beyond which the nominating Chain of Command feels is normally expected of them. This award may be presented in conjunction with, or in the absence of a nomination for another award. Companies, groups, or individuals, failing to garner the majority approval of the Awards Screening Committee as a result of being nominated for any previously listed awards would remain eligible for the presentation of this award as recommended by the involved EMS Supervisor, but in collaboration with an Assistant Chief, Deputy Chief or Battalion Chief.

Two weeks prior to the presentation, the Awards Committee must be notified by the involved Chief, of the time, date, and place where the award is to be conferred. The Committee shall then notify the Public Information Office and Division Photographer of such time and place. (Added 12/31/15)

330.94

PUBLIC SAFETY AWARD

Awarded to a uniform public safety member(s) (police, fire, EMS, and civilian dispatchers) who have distinguished themselves by performing acts or duties in a manner deemed to be above that normally required or expected, and sufficient to set them apart from their peers.

(Added 12/31/15)

IDENTIFICATION CARDS

332.00

All employees of the Division of Fire shall have an identification card, the type and description of which shall be determined by the Chief of the Division.

332.02

Members of the Division of Fire shall carry their identification cards on their person at all times while on duty or in uniform, as well as on other occasions where they may be in contact with the public acting as representatives of the Division of Fire. *(Revised 12/31/15)*

332.04

Members working a forty-hour work schedule shall properly display their identification cards at all times. The only exception are those firefighters working there assigned hours in a fire station. *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

- 332.06 Members of the Division who are asked to verify their status as Division employees shall willingly do so by stating their name, rank and/or badge number. If requested, they shall present their identification card to the person seeking such verification.
- 332.08 Division members at the various levels of supervision shall be responsible for seeing that all Division members assigned under their supervision have a current, well-maintained identification card.
- 332.10 Members entering the Uniformed Division shall obtain identification cards during their period of basic training as arranged by Training Academy personnel. Other Division employees shall be issued identification cards through their respective bureaus.
- 332.12 If a member needs replacement of his/her identification card he/she shall write a memo (RT-154) to his/her Battalion Chief or Bureau Head. The memo shall contain the members printed name, assignment, and unit. The approved memo will serve as an authorization for the photo lab technician. NOTE: Do not report to the photo lab before making an appointment.

DIVISION HONOR GUARD

- 334.00 The Honor Guard of the Division of Fire shall be composed of officers and members of the uniformed Division, the structure, personnel, and duties of which shall be determined by the Chief.
- 334.02 In order to accomplish the goals of the Division with regard to Honor Guard functions, it is recommended that a minimum of 30 members per unit, actively participate in the Honor Guard program.
- 334.04 It shall be the responsibility of the Division Honor Guard to maintain a pool of uniformed members who are proficient in military drill movements, flag etiquette, and funeral procedures including firing squad duties.

Chapter III
General Policies And Procedures

- 334.06 Honor Guard personnel, when officially acting in their assigned capacity, shall be under the direct supervision of the Assistant Chief of the Emergency Services Bureau.
- 334.08 The Emergency Services Assistant Chief shall see that an up-to-date roster of all members of the Division assigned as Honor Guard members is maintained, to include compiling a list of those persons desiring to be accepted as Honor Guard members.
- 334.10 The Emergency Services Assistant Chief shall assign a minimum of three members on each of the three alternate units to be the Honor Guard Commander for that particular unit. These commanders shall coordinate the training, scheduling, and related operations of their unit's Honor Guard members. *(Revised 12/31/15)*
- 334.12 Subject to the approval of the Emergency Services Assistant Chief, each Honor Guard Commander shall designate an alternate who shall be responsible for effectively performing those duties which may be required in the absence of the Honor Guard Commander.
- 334.14 When the Emergency Services Assistant Chief acquires knowledge of upcoming events which will require the attendance or services of the Division Honor Guard, as approved by the Chief of the Division, he/she shall relay this information through the Deputy Chief to the concerned Honor Guard Commander as far in advance of the actual date as possible.
- 334.16 The Emergency Services Deputy Chief shall make the arrangements necessary to facilitate the shifting of manpower so that Honor Guard members assigned to the various stations can be relieved for them to participate in required functions, or acquire the training necessary to efficiently perform in this capacity.

Chapter III
General Policies And Procedures

- 334.18 Honor Guard Commanders shall schedule and conduct regular drill and training sessions for the members of their respective Honor Guard contingents, in accordance with the directives of the Emergency Services Deputy Chief. The purpose of such training will be to develop and maintain the high level of competency and proficiency that is required of this specialized unit.
- 334.20 As a recommended guideline all Honor Guard Commanders shall schedule a minimum of three training exercises, four hours each, on three alternating Unit Days each year to maintain proficiency. The Honor Guard personnel who are to be scheduled for these training sessions will be determined at the discretion of the unit commander. *(Revised 12/31/15)*
- 334.22 The nine Honor Guard Commanders, with the advice and approval of the Emergency Services Assistant Chief, shall develop an equitable system whereby definite responsibility for the storage and maintenance of all Honor Guard equipment is established and adhered to on a continuing basis. *(Revised 12/31/15)*
- 334.24 Whenever possible, all formal Honor Guard and Firing Squad functions shall be performed by on-duty Honor Guard personnel. This shall include furnishing event coordinators as needed. These event coordinators shall normally be the on-duty Honor Guard Commander and his/her designated alternate. The on duty Honor Guard Commander shall be in charge of the event regardless of rank. *(Revised 12/31/15)*
- 334.26 In selecting individuals who desire to represent the Division of Fire as members of the Honor Guard, the Honor Guard Commander should give prime consideration to those members whose general attitude, prior experience, and physical appearance will favorably reflect the overall image of the group. Honor Guard members should realize that, as designated representatives of the Division of Fire, the impression that they convey to the public will be viewed as an indication of the appearance and standards of the entire Division.

Chapter III
General Policies And Procedures

- 334.28 Honor Guard Commanders shall develop and maintain a procedures file relative to the various duties required of their position, to include maintaining pertinent reference and training materials, as well as information describing typical operations where standard Division functions and ceremonies are concerned.
- 334.30 There shall be a monthly meeting of Honor Guard Commanders and their alternates. These meetings shall be on alternating units and are for the purpose of communication and maintaining consistency among the three (3) units.

COMMUNICATIONS - WRITTEN

- 336.00 In most cases, communications initiated by Division personnel regarding policies, requests, suggestions or other official business will be placed in a standard Division of Fire Intra-Departmental Communications envelope, left unsealed, and addressed to the Fire Chief. These communications shall be forwarded through proper channels - without unreasonable delay - after having been reviewed and signed by each intermediate supervisor.
- 336.02 Supervisors who are not in agreement with any letter or communication shall precede their signature with the word "disapproved", and shall add a note explaining the reason for such disapproval. Initials or signatures without comment will indicate approval. Communications for which an "approved" or "disapproved" would not be appropriate or indicated, are to be marked "acknowledged" and initialed. Under no circumstances shall an intermediate supervisor fail to promptly forward any letter or other communication through proper channels.

Chapter III
General Policies And Procedures

336.04 When in accordance with written Division policies, Division personnel may send or receive official letters or communications of a highly personal, sensitive, or confidential nature. Such communications should be placed in a sealed envelope, addressed appropriately, and marked "CONFIDENTIAL - FOR ADDRESSEE ONLY" on the front of the envelope. This mail shall be forwarded promptly and shall not be opened, signed or initialed by any intermediate supervisor or member. No routine, non-confidential, or non-job related communications are to be sent by this means.

BULLETINS

336.06 *(Deleted 12/31/15)*

336.08 All bulletins shall remain in effect until superseded by another bulletin, systems manual revision, or an official revision of any other applicable Division manual, document or communication, or until the discard date.

336.10 At the beginning of each year, the Administration Officer shall distribute an index of bulletins issued during the previous year. This index shall list the bulletins by their "number" and "identification" or title. *(Revised 12/31/15)*

336.12 All Division members shall read and acknowledge all bulletins and other official communications received, as is further explained in Section 400.36 of this manual. Members on vacation or away from duty for extended periods of time for any reason shall immediately upon their return to duty read and determine the intent and pertinence of all bulletins released during their absence. *(Revised 12/31/15)*

336.14 Division officers and other Division members at every level of supervision shall accurately explain the purpose and intent of all bulletins and similar communications when they relay or make such information available to their subordinates.

336.16 Each supervisor shall assure himself/herself of his/her subordinates understanding. He/she shall promptly provide answers to any questions that arise.

Chapter III
General Policies And Procedures

- 336.18 Information submitted in response to bulletins requesting replies must be processed through proper channel on an official intra-Divisional communication.

BULLETIN SUBMITTAL

- 336.20 Whenever a proposed bulletin is submitted to the Chief for approval, attached will be a listing of the current Division documents that the new bulletin will affect. The list will identify the relevant sections that will be superseded, deleted, amended, etc. Included will be suggested revisions to the affected documents. This submittal shall follow the doctrine of completed staff work.
- 336.22 Proposed bulletins will be submitted through the member's chain of command to Research and Innovation. Research and Innovation will review the proposed bulletins for content and formatting before forwarding to the Fire Chief. A copy of each proposed bulletin shall be submitted electronically, in "Word" format to facilitate amendments and for archiving. *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

336.24 All Division Bulletins will be prepared in the following format:
(A bulletin template is available on the computer network) *(Revised 12/31/15)*

00-000

*(Bulletin number will be added by
Administration Officer after approval)*

DEPARTMENT of PUBLIC SAFETY

DIVISION of FIRE

COLUMBUS, OHIO

Submittal Date

(Full Month dd, yyyy)

SUBJECT: Use one of the subject categories listed below *.

TITLE: Short descriptive, key word title for quick reference.

PURPOSE: Information, Implementation, Clarification, etc.

ORIGINATING BUREAU: Office of the Chief, etc.

EFFECTIVE DATE: Full Month dd, yyyy

DISCARD DATE: Full Month dd, yyyy or None

Note: Indicate if the bulletin amends, replaces, or supersedes a previous bulletin or directive.

Body of Bulletin.

Signature block for
Originating Bureau Head

Signature block for
Fire Chief

*SUBJECT categories:

Administration, Apparatus, Athletics, Community Relations, Communications,
Computers, EMS, Equal Opportunity, FAO, Fire Prevention, Fire Stations, Forms,
Hazmat, Maintenance, Payroll, Response, Supply, Training, or Uniforms.

336.26 All “bulletins” must be signed by the Division Originating Bureau Head and/or the
Chief of the Division. *(Revised 12/31/15)*

- 336.28 *(Deleted 12/31/15)*
- 336.30 Following approval, the Office of In-Service Training will be responsible for placing all new Bulletins, SOPS, on-line training, and notices for training on the Division's distance learning platform. This will insure accurate and consistent format and placement of the Division's on-line training content. *(Added 12/31/15)*

DIVISION UNIFORM AND FIRE CLOTHING REGULATIONS

- 338.00 The importance of the personal appearance of all employees of the Division of Fire cannot be overemphasized. This is especially true with respect to all working relationships and other day-to-day contacts with the public. As perceived by the citizens of the City, each individual member of the Division is the Division of Fire. All members have an inherent responsibility to wear the appropriate class of uniform in a manner consistent with the professional standards of the Division of Fire.
- 338.02 Inspection of Uniforms: It shall be the direct responsibility of the respective Company Commanders or other immediate supervisors to inspect their subordinates various uniforms, including a day to day inspection of the uniform that is worn while on duty. Immediate supervisors shall also be held accountable for the proper appearance of their subordinates during their tour of duty. Where applicable, the immediate supervisor shall be responsible for assuring that the complete uniform of the members under their command is functional, well maintained, and conforms to Division specifications and SOPs.
- 338.03 Replacement and Purchase of Uniforms: Additional uniform articles may be purchased from any approved source, providing all such items conform to the specifications and SOPs set forth by the Fire Chief. These specifications and SOPs are subject to change as the Chief of the Division may direct. The Uniform Clothing Committee will evaluate new and/or replacement products and make any recommendations to the Fire Chief. Pursuant to the current Collective Bargaining Agreement, the City of Columbus will purchase and replace the required items outlined in SOPs 04-03-10, 04-03-11. (NOTE: For replacement uniform items refer to SOP 04-03-11) *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

338.06 Required Uniforms and Fire Clothing: There are five (5) general classes of Division of Fire Uniforms:

Class A	Dress Uniform
Class B	Administrative Uniform
Class C	Work Uniform
Class D	Structural Firefighting Uniform
Class E	Civilian Dress

All members attending a uniform turnout or assembling or working in groups, outside of the station, shall dress in the same class of uniform.

338.08 Realizing that individuals differ in the number of particular items of uniform that they require, an “adequate number” of the necessary items is stipulated and shall be defined as follows:

1. Each member of the Uniformed Division shall have a complete dress uniform, ready and available for wear at all times during each tour of duty.
2. Members assigned to duties requiring the wearing of a work uniform shall have a sufficient number of the designated items ready and available for wear at all times during each tour of duty. This uniform should be kept clean and wrinkle-free and should present a professional appearance, being without tears and not presenting a faded or worn out appearance. *(Revised 12/31/15)*
3. All uniformed members shall have at least one (1) full set of class D structural Fire fighter turnout gear. *(Revised 12/31/15)*

338.10 The specific list of required and optional articles of uniform clothing for Division of Fire personnel is defined in current Division SOPs.

DRESS UNIFORM (Class A)

338.12 The Dress uniform will consist of a black, tropical wool, double breasted blouse; white long sleeve dress shirt; white crew neck T-shirt (if a T-shirt is to be worn); black tie; black trousers; black leather belt; uniform cap; black socks; and polished black, plain-toe, leather oxford shoes. The proper Division badge shall be worn centered on the left pocket tab. The name bar will be centered over the right breast in line with the left pocket tab. Collar insignias designating rank or assignment and sleeve stripes with appropriate time-service insignias shall be worn on blouse as stipulated. *(Revised 12/31/15)*

Female Division members shall wear the division approved black single-breasted blouse with slacks/skirt as the Dress uniform. *(Revised 12/31/15)*

An approved overcoat with liner as selected by the Chief of the Division may be worn with the Class A uniform.

All shirt buttons shall be properly secured. All shirttails shall be tucked inside of trousers. Shoes will be completely fastened.

338.14 (Class A) OPTIONAL CLOTHING ITEMS

Black gloves and solid black scarf may also be worn with the Dress Uniform.

ADMINISTRATIVE UNIFORM (Class B)

338.16 The Administrative uniform will consist of a short or long sleeve white shirt with badge holder and pocket flaps, white crew neck T-shirt (if a T-shirt is to be worn); black trousers; black leather belt, with regulation issued plain belt buckle; black socks; polished black, plain-toe, leather oxford shoes. The Division badge will be worn over the left pocket and the name bar will be centered ¼ inch above and over the right pocket flap. Collar insignias or shoulder boards designating rank or assignment shall be worn.

Chapter III
General Policies And Procedures

All shirt buttons shall be properly secured, with the exception of the neck button, which will remain open. All shirttails shall be tucked inside of trousers. Shoes will be completely fastened at all times. A black tie may be worn with the long sleeve shirt.

338.18 (Class B) OPTIONAL CLOTHING ITEMS

An administrative jacket may also be worn as part of the Administrative uniform as weather conditions dictate. Division logo and name and title, if appropriate, shall be embroidered.

Black coat-style sweaters without collar and with zipper front may be worn with the administrative uniform.

Black gloves, black stocking hat, uniform cap and solid black scarf may be worn with the administrative uniform as weather conditions dictate.

Navy blue coveralls may be worn as part of the administrative uniform when work conditions dictate and approved by immediate supervisor.

WORK UNIFORM (Class C)

338.20 Navy blue short or long sleeve shirt; Navy blue crew neck T-shirt (if a T-shirt is to be worn with the work shirt); navy blue trousers, black synthetic web belt; black socks; and, black shoes or boots.

Work shirt shall be embroidered with first initial and last name, title, if appropriate, over right pocket, collar rank insignia, if appropriate, and Division logo over left pocket. T-shirt shall be embroidered with first initial and last name, title, if appropriate and Division logo over left pocket.

All shirt buttons shall be properly secured, with the exception of the neck button which will remain open. All shirttails shall be tucked inside of trousers. Shoes or boots will be completely fastened at all times. *(Revised 12/31/15)*

338.22 (Class C) OPTIONAL CLOTHING ITEMS

A division approved work jacket may also be worn as part of the Work uniform as weather conditions dictate. Division logo and name and title, if appropriate, shall be embroidered.

Navy blue division approved work sweatshirt may be worn; division logo and name and title shall be embroidered.

Navy blue division approved golf shirt with collar and pocket at left breast, division logo and name and title shall be embroidered.

Black gloves or solid black wool scarf may be worn with uniform when weather requires.

Division approved knit stocking caps or baseball caps may be worn outside the station when weather conditions permit. Baseball caps shall only have the division logo embroidered on the front of the hat they may also have the members' legal last name or company designation embroidered on the rear of the hat. Stocking caps can be plain or embroidered as above. No hat may be worn while in quarters.

(Revised 12/31/15)

Bomb Squad Members shall be permitted to wear black 100% cotton Mil-spec BDU pants and shirt with black 100% cotton T-shirt when involved in bomb activities. The members' name and rank will be in gold lettering on black tape over the right shirt pocket. The division logo will be embroidered according to SM 338.24 over the left shirt pocket. *(Revised 12/31/15)*

Fire Prevention Investigators and Inspectors, Rescue Technicians, HazMat Technicians, and Support Services personnel shall be permitted to wear division approved navy blue coveralls as the work uniform as needed.

Chapter III
General Policies And Procedures

Physical Training Wear (PTW) may consist of T-shirts, sweatshirts, gym shorts, and sweatpants. All items shall be Navy blue and 100% cotton. PT shoes and socks shall be athletic shoes and socks, black or white.

Nightwear (2000-0700) may consist of Division issued or Union Logo, T-shirts, golf shirts, and sweatshirts, PT gym shorts and PT sweatpants. *(Revised 12/31/15)*

338.24 *(Deleted 05/01/16)*

338.26 *(Deleted 12/31/15)*

STRUCTURAL FIREFIGHTING UNIFORM (Class D)

338.28 The Division provides members with all required firefighting clothing and equipment. Replacements will be made as required. (See current Collective Bargaining Agreement) *(Revised 12/31/15)*

CIVILIAN DRESS (Class E)

338.30 Division members who have been granted permission to wear civilian clothing as their normal apparel while on duty shall be guided by the suggestions of their immediate supervisors with regard to appropriate clothing. Suitable and generally conservative styles should prevail, including in most cases dress shirt and tie or equivalent attire.

WEARING OF THE UNIFORM

338.32 DRESS UNIFORM (Class A)

The dress uniform shall be reserved for ceremonious occasions or as designated by the Fire Chief. This will be the uniform turnout for parades, promotional ceremonies, awards ceremonies, funerals, etc. The dress uniform shall be worn when advised by the member's Battalion Chief. Chief Officers may be permitted to wear the Dress uniform when they deem appropriate.

338.34 ADMINISTRATIVE UNIFORM (Class B)

All administrative personnel who do not expect to be regularly involved in hands-on training or incident responses shall wear the Administrative uniform.

338.36 WORK UNIFORM (Class C)

The work uniform shall be worn by any member throughout the day, regardless of assignment. The work uniform shall be worn at roll call and when performing inspections. Members may wear long or short sleeves work shirts. Off going units may wear the division issued or union logo tee shirt, golf shirt, and sweatshirt during roll call. *(Revised 12/31/15)*

Company officers have the authority to allow the wearing of the division approved T-shirt in lieu of the work shirt during structural firefighting, training involving physical activities, and apparatus/station/hydrant maintenance.

338.38 STRUCTURAL FIREFIGHTING UNIFORM (Class D)

All members of the Uniformed Division shall maintain a Class D (Structural Firefighting) uniform and shall wear such uniform in compliance with Division Standard Operating Procedures.

In order to assure that every member is adequately protected, by wearing only gear that meets NFPA standards, the Division needs to have a standard issue uniform, which an officer can verify visually as being acceptable.

Chapter III
General Policies And Procedures

Without prior approval of the Fire Chief, Division members while on the fireground shall wear only structural fire gear issued by the Division of Fire. This includes boots, gloves, hoods, helmets, coats, and pants. Members are allowed, but not required, to purchase and use their own flashlights and hand tools.

No alterations or additions of any kind are to be made to turnout gear except as authorized by the manufacturer and approved by the Fire Chief.

338.40 CIVILIAN DRESS (Class E)

Civilian Dress shall be worn when it is desirable to remain undercover as determined by the Fire Chief or his designee.

338.42 SPECIAL UNIFORMS

Nightwear may be worn between the hours of 20:00 and 08:00. PT gym shorts and sweatpants may be worn while in bedrooms or the dormitory between the hours of 20:00 to 07:00.

Physical Training Wear may be worn while actively participating in physical training. Optional items not division approved, as part of the work uniform, shall be removed within 30 minutes of the cessation of physical training. PT garments are not to be worn away from quarters unless under turnout gear.

Special Duty uniforms will be the appropriate Class A – E uniform, as determined by the Fire Chief.

338.44 SPECIAL WEATHER CONDITIONS

Division issued or union logo T-shirts, sweatshirts or golf shirts may be worn between 08:00 and 20:00 with permission of the Deputy Chief during unusual circumstances.

An example of such circumstances is high heat and humidity conditions when the ambient temperature plus the relative humidity is greater than 150. T-shirts should be worn to reduce heat stress.

338.46 SPECIAL RULES FOR WEARING THE UNIFORM

Exceptions to the rules governing the wearing of the uniform may be made at any time at the discretion of the Chief of the Division. Fire Division Bureau Heads may be allowed to grant discretion to members of their bureaus where uniform regulations are concerned. Any major departure from the standard rules as set forth in this section should be referred to the Chief for his approval.

338.48 Unless ordered to wear the uniform while off duty, or otherwise required or permitted to wear the uniform in compliance with established Division policies, members may do so only by first going through proper channels and obtaining the permission of the Bureau Head. *(Revised 12/31/15)*

Wearing the uniform for a reasonable period of time just prior to reporting for duty or after having been relieved from duty, shall not be construed as wearing the uniform while off duty.

338.50 No officer or other member of the Division shall wear any emblem, insignia, or device emblematic of any secret, social, or beneficial order on their uniform, unless prior permission to do so has been obtained from the Chief. No person other than a member of the Division of Fire shall wear the Division badge or insignia, and no member of the Division shall loan any badge or regulation uniform or portions of such uniform to any person, unless permission to do so has first been obtained from the Chief of the Division.

338.52 No jewelry, watch chains, key chain paraphernalia or similar items will be worn or appear exposed on the uniform. The wearing of a personal wristwatch, identification bracelet, or ring is authorized as long as the style is conservative and in good taste. The wearing of a chain around the neck is authorized, as long as the style is

Chapter III
General Policies And Procedures

conservative and no part of the chain lies on the outside of the uniform. Eyeglasses and/or sunglasses worn by Division personnel will be conservative and in good taste.

RANK OR ASSIGNMENT IDENTIFICATION

338.54 CAPS

Division uniform caps for the various ranks are described as follows:

CHIEF AND ASSISTANT CHIEF - A combination cap with white vinyl cover, gold chin strap, appropriate gold cap badge, and visor ornamentation as selected by the Chief.

DEPUTY CHIEF AND BATTALION CHIEF - A combination cap with white vinyl cover, gold chin strap, appropriate gold cap badge, and plain black visor.

CAPTAIN AND LIEUTENANT - A combination cap with black cover, gold chinstrap, appropriate gold cap badge, and plain black visor.

FIREFIGHTER - A combination cap with black cover, patent leather chin strap, appropriate silver cap badge, and plain black visor. *(Revised 12/31/15)*

338.58 RANK INDICATING STRIPES

Rank-indicating sleeve stripes, worn on the Class A uniform, are described as follows: Rank shall be indicated either by a single gold stripe or combination or stripes, and shall be either two inches (2") or one-half inch (1/2") in width, according to specific requirements. They are to be of synthetic gold braid material.

The lower edge of the first stripe shall be placed two inches (2") from the edge of the cuff, with a one-fourth inch (1/4") interval between the stripes.

CHIEF:	One 2" stripe with two 1/2" stripes above it.
ASSISTANT CHIEF:	One 2" stripe, with one (1) 1/2" stripe above it.
DEPUTY CHIEF:	One 2" stripe
BATTALION CHIEF:	Three 1/2" stripes
CAPTAIN:	Two 1/2" stripes
LIEUTENANT:	One 1/2" stripe

338.60 TIME SERVICE

Time-service insignia, shall be worn as follows:

A white or gold fabric Maltese cross (gold fabric for promoted ranks) of a design approved by the Chief of the Division will be worn on both sleeves of the dress uniform blouse. One cross, on each sleeve, will indicate the completion of each five years of service. The lower edge of the cross shall be 2 inches from the edge of the cuff. The first cross shall be centered on the outside portion of the sleeve. The second cross shall be spaced 1/2 inch to the front of the sleeve, the third cross 1/2 inch to the rear of the sleeve, the fourth cross 1/2 inch to the front, etc. *(Revised 12/31/15)*

338.62 COLLAR INSIGNIA/ SHOULDER BOARDS

All of the officers of the Division shall wear the proper rank insignia on both collar sections of the Class A uniform. On the Class B, administrative uniform white shirt, collar insignias or shoulder boards shall be worn. The collar insignia shall consist of approved metal clutch type devices, gold in color. Shoulder boards shall consist of black fabric with gold embroidery. Both shall indicate rank in the following manner:

Lieutenant	1 Standing Bugle
Captain	2 Standing Bugles
Battalion Chief	2 Crossed Bugles
Deputy Chief	3 Crossed Bugles
Assistant Chief	4 Crossed Bugles
Fire Chief	5 Crossed Bugles

To properly locate the collar insignia on the Class A uniform, set the base of the device on a parallel line with the horizontal edge of the collar section, a distance of 1/2" up from the edge. Place the centerline of the device at a point 3/4 inch from the outer vertical edge of the collar section when measured along the base as illustrated.

To properly locate the collar insignia on the Class B uniform white shirt, set the base of the device perpendicular to the centerline of the collar tip. The base will be located 1 1/2 inches above the collar tip, as illustrated.

Shoulder board shall be placed over the administrative uniform's white shirt epaulets.

338.64 AWARDS AND RECOGNITIONS

Special recognition devices may be worn at the discretion of the Chief of the Division. Awards and recognitions shall only be worn on the Class A uniform

Award/recognition ribbons will be worn 1/2 inch below and parallel to the name bar. One ribbon shall be centered on the name bar, and more than one shall be equally spaced across the right breast area with the ribbon for the highest award being on the wearer's right. Only one ribbon will be worn for each class of award. If more than one of the same award has been received, a ribbon with one star to replace the original ribbon will be worn.

338.66 FIRE HELMETS

Each recruit firefighter joining the Division shall be issued a black fire helmet with headband, ear tabs, and chinstrap. Members promoted to Lieutenant will exchange their helmet for a properly marked red helmet. When promoted to Captain, the helmet will be marked appropriately by the supply section. When promoted to Battalion Chief the red helmet will be exchanged for a white helmet.

338.68 Each company and bureau has a complement of identification shield inserts to be worn on fire helmets. When a member is permanently transferred away from a particular company or bureau, the immediate superior of such member shall assure that the transferred member removes the shield insert from his helmet so that it can be re-issued to the member who is to be transferred to such position.

338.70 If new headbands, ear tabs, or chinstraps are needed, they shall be requisitioned from the Supply Officer. If a member's fire helmet is lost or damaged beyond use, this fact shall be reported through channels by use of Form ET-68.

338.72 Division members should realize that the colors of fire helmets and the reflective markings on such helmets and their identification shield inserts are safety features by virtue of the increased visibility of the helmet. Colors and markings also serve as rank or job specialty identification aids. With this in mind, members shall attempt to keep their helmets in a clean and serviceable condition so as not to defeat the purpose of these features.

338.74 Color, stripe, and shield identification markings of fire helmets as follows:

FIRE CHIEF: White helmet with Chief's shield and yellow retro-reflective trim tetrahedrons.

ASSISTANT CHIEF: White helmet with Assistant Chief's shield and yellow retro-reflective trim tetrahedrons.

DEPUTY CHIEF: White helmet with Deputy Chief's shield and yellow retro-reflective trim tetrahedrons.

Chapter III
General Policies And Procedures

BATTALION CHIEF:	White helmet with Battalion Chief's shield and yellow retro-reflective trim tetrahedrons.
CAPTAIN:	Red helmet with Captain's shield. The company number or unit insignia shall be attached (red background for ladder officer, green background for engine officers or other background colors as may be stipulated) with yellow retro-reflective trim tetrahedrons.
LIEUTENANT:	Red helmet with Lieutenant's shield. The company number or unit insignia shall be attached (red background for ladder officer, green background for engine officers or other background colors as may be stipulated) with yellow retro-reflective trim tetrahedrons.
FIREFIGHTER:	Black helmet with Firefighter shield and company number or unit insignia with red or green background as applicable with yellow retro-reflective trim tetrahedrons.
APPRENTICE FIREFIGHTER:	Black Helmet with Firefighter shield and company number or unit insignia with red or green background as applicable with orange with white horizontal center stripe fluorescent and reflective tetrahedrons.
RESCUE:	Rescue certified personnel are authorized to replace the standard issue retro-reflective trim on their fire helmet with blue retro• reflective trim tetrahedrons.
FIRE PREVENTION INSPECTORS / INVESTIGATORS:	White, or Green Lightweight hard hat with the Division logo on the front or appropriate fire helmet with proper markings. <i>(Revised 04/13/16)</i>

338.76 IDENTIFICATION BADGE

Plain clothes employees, non-uniform employees, and employees authorized to wear civilian clothing shall wear or carry their Identification Badges during working hours. The Division will provide a clip, chain, or lanyard for each employee to wear the Identification Badge.

Employees may select the manner in which to wear the badge and the location; however, the badge must be worn in a location that is clearly visible. In the event, due to the nature of the work being performed, it is unsafe to wear the badge in a visible location, employees may conceal the badges during those times.

MOTOR VEHICLE ACCIDENT PROCEDURES

- 340.00 The definition of a motor vehicle accident, as applied to this section, is any contact between a city vehicle and another vehicle, person, or fixed object. Such contact constitutes a motor vehicle accident regardless of the extent of the injury or property damage, where the accident occurred, or who was responsible.
- 340.02 All vehicles of the Division of Fire shall be provided with copies of Form RL-106, Vehicular Accident Report. Any Division employee assigned to or responsible for a Division vehicle shall see that this form is available in such vehicle at all times.
- 340.04 The following information has been compiled to assist Division personnel at scenes of accidents involving fire apparatus or other Division vehicles. This general procedure should also be followed in compiling information concerning situations involving on-duty fire personnel where non-Division property is damaged, or claims for damages against the Division or City of Columbus are possible.

AT THE ACCIDENT SCENE

- 340.06 Notify the Fire Alarm Office of the accident, giving the exact location. Determine whether or not there are any injuries. If there are injuries, notify the Fire Alarm office and request a medic and other assistance as needed. Render required First Aid. Do not unnecessarily tamper with or move other involved vehicles.

Chapter III
General Policies And Procedures

- 340.07 If the accident occurs while enroute to an emergency and there are no injuries at the accident scene, negligible damage to the Fire Division vehicle, and the apparatus is in safe operating condition, it may be possible to continue the emergency run. If such action is taken, the Fire Alarm Office must be notified immediately and a member of the company involved in the accident must be left at the scene. If leaving a company member at the scene would cause an engine or ladder company to fall below the minimum manpower standards of the Division, the officer in charge shall consider the total situation and exercise discretion in deciding whether to continue the emergency run or call out of service and remain at the scene.
- 340.10 If any injury or extensive damage is involved, judgment should be used with regard to moving the vehicles prior to the arrival of the proper authorities. Under normal circumstances, **DO NOT ALLOW THE VEHICLES INVOLVED TO BE MOVED UNTIL THE ARRIVAL OF THE POLICE**; and, within reason, until official photographs have been taken.
- 340.12 **IT IS IMPORTANT TO CANVASS THE AREA FOR POSSIBLE WITNESSES**
Where possible, get names, addresses, and telephone number of witnesses. Of most importance are eyewitnesses - persons who actually saw the accident. Witnesses may also include persons who heard the impact. This could be particularly important where fire vehicles are involved in accidents with civilian vehicles while responding on emergency runs and such witnesses could testify to the fact that the siren was operating at the time of the impact.
- 340.14 Ensure that Division Form RL- 1 06 is completed at the accident scene. Be sure to get the names, addresses, and phone numbers of all occupants of any civilian vehicles involved and of persons not in vehicles who may have been involved in the accident.

Chapter III
General Policies And Procedures

340.16 Be sure to note conditions existing at the time of the accident. This should include the time of day or night, weather conditions such as clear visibility, rain, fog, snow, haze, mist, etc., road conditions, described as heavy, light, fast, slow, stopped at the intersection, etc., and any other existing conditions that may be pertinent to the situation.

In addition, NOTE THE DISPOSITION OF ALL INJURED PERSONS - civilian or otherwise – and state the nature of the injury. If anyone is transported from the scene, note to what hospital. DO NOT MAKE ANY STATEMENTS TO THE EFFECT THAT "THE DIVISION OF FIRE WILL CONTACT PARTIES INVOLVED IN THE ACCIDENT."

340.18 Get the names and badge numbers and jurisdiction of the investigating police officers, and make a note of other Division equipment or personnel at the scene.

UPON RETURN TO QUARTERS

340.20 Immediately upon return to quarters, the driver of the Division vehicle shall prepare a "clean" copy of Form RL-106. All information must be completed as requested and either typed or printed. Use additional forms if more space is needed. Police reports must be completed, regardless of the jurisdiction, if away from quarters.

340.21 Upon returning to quarters company commanders shall notify Fleet Management Body Shop (during normal business hours) at 645-7924 to schedule a vehicle damage estimate. When repairs are ready to be made, Fleet Management will coordinate it with the Support Services Bureau. *(Revised 12/31/15)*

340.22 If another vehicle is involved, and the driver cannot provide proof of insurance at the accident scene, the driver of the Division vehicle must complete the State of Ohio Vehicle Crash Report, BMV-3303.

Chapter III
General Policies And Procedures

340.24 If the driver is served with a subpoena to appear as a witness in Traffic Court, he/she shall immediately notify his/her respective Bureau Head and the Administration Officer. The member shall indicate the need for notifying other Division members who may have been involved in the accident of the date and time that they should be available to appear in Traffic Court. Drivers or other Division members involved in accidents or similar incidents who receive forms or other communication from insurance companies or attorneys of the other parties involved, should NOT complete such forms, but should send them, through channels, to the Administration Officer. *(Revised 12/31/15)*

RESPONSIBILITY OF FIRE ALARM OFFICE

340.26 When notified of an accident involving a Division of Fire vehicle, the vehicle shall immediately be marked out of service unless the accident is of a minor nature and the officer in charge of the vehicle elects to proceed with the emergency run as stipulated in Section 340.08. If not otherwise notified, the vehicle shall be marked out of service and shall remain so until it has been called back in service.

340.28 The following shall be notified of the accident: Police Department, Battalion Chief in whose Battalion the accident occurred, SO-2, Fleet Maintenance and other involved office or bureau supervisors if their equipment is involved. If SO-2 is tied up on another incident, the FAO will dispatch the closest available Battalion Chief.
(Revised 12/31/15)

Also, depending on the time of the day and other existing conditions, the Chief, the Administration Officer, the Bureau Head, Safety Officer (SO-1), and the Support Services Bureau Head, shall be notified. In addition, if the accident happens during normal working hours, the Bureau of Administration should be notified. If the accident occurs after normal business hours, on a holiday, or on a weekend, the Administration Bureau shall be notified as soon as possible the next scheduled business day by the personnel on-duty at that time. Since the Division Business Office is responsible for processing claims and coordinating necessary activities with other Divisions, all pertinent information must be promptly given to such office.
(Revised 12/31/15)

Chapter III
General Policies And Procedures

- 340.30 It is recognized that personnel involved in an accident do not have all of the pertinent information at the time of the first transmission to the Fire Alarm Office. However, it is important that additional information be transmitted to the Fire Alarm Office as soon as is reasonably possible. One member of the involved vehicle shall stand by the radio to receive communications from the Fire Alarm Office.

RESPONSIBILITY OF SAFETY OFFICER (or DESIGNEE)

- 340.32 The dispatched Safety Officer (or Designee) shall:
1. Go to the scene of the accident, even if it is outside the corporate limits of the City of Columbus but within Franklin County or an adjacent county, and familiarize with the facts of the accident. Complete Division of Fire Form RL-108, Accident Investigation Report, with all information printed or typed, as requested.
 2. Assure that official photographs are taken of the scene.
 3. Advise the owner of the other vehicle to contact the Bureau of Administration Business Office as soon as possible for information and instructions. *(Revised 12/31/15)*

RESPONSIBILITY OF BUREAU HEAD

- 340.34 The respective Bureau Head, when notified that any member of his Bureau has been served with a subpoena to appear in Traffic Court, shall notify the Chief and the Chairman of the Fleet Accident Review Committee through channels and establish the need for having all personnel who were at the scene of the accident appear in Traffic Court, regardless of the number of personnel subpoenaed.

RESPONSIBILITY OF THE BUSINESS MANAGER

- 340.36 The Division Business Manager shall be responsible for developing and maintaining an appropriate file on each property damage accident.
- 340.38 The Bureau of Administration shall make contact with other parties involved, insurance companies, body shops, etc., in order to expedite claims as soon as possible. In cases where the party at fault has insurance, the Business Office shall

Chapter III
General Policies And Procedures

make direct contact with the insurance company in an attempt to expedite the claim by having the body shop paid directly by the insurance company for repairs to Division of Fire vehicles. The Business Office shall invoice for cost of repairs, collect and deposit moneys received in payment of damages, and voucher payments for claims against the Division.

340.40 The Bureau of Administration will provide information and in some cases seek the counsel of the City Attorney's Office and the Office of the Director of Public Safety in attempting to satisfy claims in the best interest of both the City and of the citizens of Columbus.

FLEET ACCIDENT REVIEW COMMITTEE

340.41 The Division of Fire Fleet Accident Review Committee shall be composed of one (1) chairman, six (6) representatives, and the IAFF Local 67 forty-hour union steward.

The committee members will be chosen according to the following guidelines:

1. Chairman: Division Health and Safety Officer (SO-1), Battalion Chief -- the Chairman is a non-voting member
2. Representative: Member from each Bureau of the Division assigned to a forty-hour position. Selected members must have a minimum of ten-years service on company.
 - Division Representatives are voting members, and are as equally divided by rank as possible
3. Representative: Member from Columbus Division of Police
 - Police representative is a Voting member
4. Observer: Local 67 forty-hour union steward represents the interests of the involved parties.
 - In the event of a tie vote by the Committee, the steward shall have the deciding vote.

340.44 The Fleet Accident Review Committee is responsible for Defensive Driving Education, safe driving recognition, and final Division disposition of city owned motor vehicle accidents in which Division of Fire employees are involved.

Chapter III
General Policies And Procedures

- 340.46 If at any point during the Fleet Accident Review Committee's review there are indications that criminal negligence is a possibility, the committee chairman will conclude the review and forward all information to the Fire Chief and be guided by his directions.
- 340.47 The functions of the Fleet Accident Review Committee are:
1. Examine and review all reports and related facts pertaining to motor vehicle accidents involving employees of the Division of Fire while operating a city vehicle.
 2. Make final Divisional disposition of each case. This disposition shall range from finding of an employee not at fault to the recommendations to the Fire Chief for disciplinary action.
 3. Cause the personnel records section of the Administration Officer to place in each involved employee's personnel file a copy of the accident report and notice of the committee's final disposition. *(Revised 12/31/15)*
- 340.50 The Committee Chairman shall schedule a review of all accidents before the Fleet Accident Review Committee at its next meeting. He/she may call a special meeting if an accident occurs that is of a nature that the circumstances warrant such action. In the absence of the chairman, the Chief will select an alternate for that meeting.

Chapter III
General Policies And Procedures

DISPOSITION GUIDELINES OF THE FLEET ACCIDENT REVIEW COMMITTEE

340.52 No Fault

1. Fire vehicle legally parked.
2. Other driver cited and no contributory negligence on the part of the fire vehicle operator.
3. Mechanical failure of fire vehicle. Vehicle must be taken out of service at time of accident and checked by Fleet Maintenance personnel to substantiate this claim.
4. Fire vehicle illegally parked due to emergency work, but all reasonable precautions taken by driver.
5. Fire vehicle operating under urgent or emergency conditions with no allegations of carelessness or poor judgment on the part of the operator.
6. Extenuating Circumstances. NOTE: This determination is reserved for situations that are not covered by any other determination AND are due to conditions beyond the operator's control. *(Revised 12/31/15)*

340.54 At-Fault: Minor

1. Vehicle illegally parked due to emergency business without due regard to existing traffic conditions.
2. Operating under emergency or urgent conditions and not taking all necessary precautions.
3. Other driver at fault, but better defensive driving by operator of fire vehicle could have prevented or lessened the severity of the accident.
4. Not operating under urgent or emergency conditions and not taking ALL necessary precautions.

340.56 At Fault: Major

1. Operator of fire vehicle not cited, but careless or negligent in his driving.
2. Operator of Division vehicle cited and/or at fault.
3. Operator in violation of policy or Divisional orders. NOTE: This determination of violation requires automatic forwarding to the Administration Officer for possible disciplinary action. *(Revised 12/31/15)*

RIGHT TO APPEAL

340.58 All Committee determinations are forwarded to the involved individuals via the Division of Fire's "Disposition Notification." Whenever an At Fault determination is voted by the Committee, personnel have the opportunity to appeal the decision by marking the appropriate space on the form and returning the Notification to the Administration Officer within seven (7) days of their receipt of the determination. ALL notification forms MUST be returned, regardless of whether the individual is appealing, or not. *(Revised 12/31/15)*

1. APPEALS WILL BE CONSIDERED ONLY IF ADDITIONAL EVIDENCE OR WITNESSES CAN BE PRESENTED. Appeals based on previously submitted information will NOT be considered. *(Revised 12/31/15)*
2. If the Committee determines an appeal is warranted, based on additional information, the member will be notified of when and where to appear. *(Revised 12/31/15)*
3. After considering the member's appeal, the Committee will notify the member of the final determination by letter. *(Revised 12/31/15)*
4. The Notification of Remedial Driver's Training is NOT subject to appeal. This determination by the Committee is based on the operator's accident history and/or the nature of the particular incident under review. This decision is made with the intent of formally emphasizing the legalities and liabilities of operating Division apparatus, and is considered training. *(Revised 12/31/15)*

340.60 Off-Duty
Members, required to use their Division vehicles while on stand-by status, shall use good judgment in order to prevent criticism of the Division. If an off-duty member is driving a city vehicle involved in an accident then the Fleet Accident Review Committee shall consider the incident for disposition.

Chapter III
General Policies And Procedures

- 340.62 Reference to Claims of "Faulty Equipment" (Brakes locking, jumping out of gear, etc.) If any faulty equipment is given as a reason for the accident, that equipment shall immediately be removed from service and sent to the Fleet Maintenance to be checked and the finding included in a written report to the Fleet Accident Review Committee by Fleet Maintenance. *(Revised 12/31/15)*
- 340.64 Two-Person Operated Vehicles (Ladder Trucks, etc.)
When the Fleet Accident Review Committee finds that a reprimand is appropriate for an accident involving a two-person operated vehicle, it may reprimand either or both operators. In a situation where a two-member operated vehicle, is the driver totally responsible, or is the person "tilling" (steering the trailer) totally responsible for the accident, the committee may vote to issue a letter of censure to either or both members. *(Revised 12/31/15)*
- 340.65 Backing Accidents (Overhead doors, hidden objects, etc.):
1. Anytime that fire apparatus is being backed up, and especially when backing into quarters, at least one member shall be stationed to the rear of the backing vehicle in order to guard against damage as stated in Section 422.06 of the Systems Manual and the driving S.O.P. *(Revised 12/31/15)*
 2. Company Commanders and other Division members responsible for vehicles and apparatus shall see that the overhead door control mechanism is physically manned whenever vehicles or apparatus are entering or leaving fire stations or other facilities as stated in Section 420.02 of the Systems Manual. This rule may be waived only when leaving quarters in response to emergencies. *(Revised 12/31/15)*
 3. In the above situations the committee may vote to issue letters of censure through channels to all the involved members. *(Revised 12/31/15)*
- 340.68 Record of Previous Accidents
A file of individual members total accident records shall be maintained and kept current by the Administration Officer. The recording secretary shall bring such record to each Fleet Accident Review Committee meeting. *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

DIVISION INVENTORY POLICY

<u>Division Inventory Procedures</u>	342.00 - 342.10	<i>(Deleted 12/31/15)</i>
<u>Intra-Division Transfer Of Property</u>	342.12 - 342.22	<i>(Deleted 12/31/15)</i>
<u>Reassigning of Station Captains</u> <u>(Change of Command)</u>	342.24 - 342.36	<i>(Deleted 12/31/15)</i>
<u>Perpetual Inventory</u>	342.38 - 342.42	<i>(Deleted 12/31/15)</i>
Other Inventory Procedures	342.44	<i>(Deleted 12/31/15)</i>
<u>Division Manuals and Publications</u>	346.00 - 346.08	<i>(Deleted 12/31/15)</i>
<u>Division Bomb Squad Procedures</u>	350.00 - 350.08	<i>(Deleted 12/31/15)</i>

NATIONAL ORGANIZATIONS

352.00 It shall be the intent of the Fire Chief to support members of the Division of Fire that are involved in state and national organizations that promote causes associated with fire and EMS All members appointed to these organizations should not the Fire Chief in writing. All members shall be afforded this opportunity as deemed appropriate by the Fire Chief. These privileges do not apply to IAFF Local 67, which has other specifically negotiated rights. *(Revised 12/31/15)*

352.02 These privileges include:

1. Once each year, qualified organizations may send up to two (2) members to one annual convention of no more than seven (7) calendar days in duration. The selected members will be granted Special Duty time off duty with pay. Each member must submit a PR-9 at least seven (7) calendar days prior to the departure date. Until the current PR-9 form is revised, do not use any check box; just state the organization and event name in the Comments section of the PR-9. No expenses will be pre-paid or reimbursed by the Division.

Chapter III
General Policies And Procedures

2. Qualified organizations may use the Intra-Departmental mail boxes and mail system for the purpose of providing information pertaining to the organization's business or representation to Division members. Use of the mail system will be reasonable and limited to providing information that is necessary for the normal conduct of the organization's business or representation. The Intra-Departmental mail boxes and mail system shall not be used for mass mailings. All mail placed into the mail boxes by the organization shall be the property of the Division member to whom it is addressed and such mail shall not be subject to prior review.
3. Qualified organizations may, with prior approval of the Fire Chief, post communications on Division bulletin boards. Office supervisors and station house Captains will take the necessary actions to provide adequate bulletin board space.
4. Qualified organizations may have messages delivered over the Division's public address system by following the procedures described in section 412.28 of this manual.

352.04 *(Deleted 12/31/15)*

FIRE COMPLEX EXERCISE FACILITIES *(Revised 05/01/16)*

354.00 The Fire Division has equipped the Fire Complex Exercise Facilities at the Fire Complex with fitness equipment for the voluntary use of all Division members. The intention of the Division is to enable its members to develop and maintain an appropriate level of fitness commensurate with their assigned functions and activities, thus reducing the probability and severity of occupational injuries and illness. *(Revised 12/31/15)*

354.02 Forty-hour firefighters are permitted to spend up to three (3) hours per week in an on-site fitness-training program. Supervisors will coordinate the scheduling of such training so the training does not conflict with job duties or responsibilities. Training schedules are to be posted.

Chapter III
General Policies And Procedures

- 354.04 The City shall not be held liable for injuries sustained in the Fitness Center while “off-duty”, and if so injured, employees will not be eligible to receive injury leave, except when scheduled in compliance with applicable sections of the current bargaining contract. *(Revised 12/31/15)*
- 354.06 All members shall be responsible to follow all posted policies and procedures pertaining to the use of the exercise facilities. *(Added 12/31/15)*

DIVISION COMPUTER POLICY

- 356.00 It is the policy of the Division of Fire to enhance efficiency and effectiveness of the Fire Division by supporting the use of computers within the Division. This Division-wide computer policy is to ensure the security and efficiency of the Division's computers, computer network and information systems infrastructure.
- 356.02 Division members shall keep all network and computer passwords private. If members believe their passwords have been compromised, they shall immediately change their passwords.
- 356.04 In order to maintain Division of Fire network security, all Division users shall logoff or electronically lock their computer when physically not present at their computer or terminal.
- 356.06 The use of computers within the Division of Fire shall be guided by and the rules and policies of the City of Columbus. *(Added 12/31/15)*

HARDWARE

- 356.07 All computer equipment, desktop computers, notebook computers, terminals, printers, scanners, zip drives and other peripheral equipment assigned to members within the Division of Fire are the property of the Division of Fire and are to be treated as such.

Chapter III
General Policies And Procedures

356.08 No personally owned computers shall be connected to the Division's network nor shall personally owned peripherals, such as printers, modems, zip drives, scanners, or similar devices be connected to Division of Fire computers or networks without the written permission of the Fire Chief.

356.10 No Division of Fire desktop computer, terminal or peripheral equipment is to be removed from its installed location within the Division of Fire without the written permission of the Fire Chief or Information Services Staff.

This does not prohibit members who have been assigned mobile computers (such as notebook or laptop computers) or portable devices (such as palm pilots) from moving said equipment to other locations in order to conduct Division of Fire business.

356.12 No desktop computers connected to the Division's network shall have a modem installed. Mobile or portable computers, if connected to the network, shall not have phone lines connected to modems (either PCMCIA cards or external modems) while the mobile or portable computer is physically connected to the Division's network.

356.14 Requests for computers, terminals, computer peripherals and software shall be made in writing using the proper chain of command. Consumable supplies such as printer paper, floppy disks, inkjet and laser cartridges shall be ordered on the monthly Supply Requisition.

SOFTWARE

356.16 Only application software and computer code licensed to the Division of Fire shall reside on Division of Fire computers. All application software is to be installed by the Division's Information Systems staff.

All electronic data that resides on Division of Fire computers, networks or removable media is the property of the City of Columbus, Division of Fire. Members who are

transferred within or outside the Division of Fire, retire, or are terminated shall not remove data from computers or network data depositories.

- 356.18 The Division's Information Systems staff has the right to examine any **application software** on any Division of Fire computer at any time to determine if the software meets the legal requirements set forth by the publisher of the software. This right does not extend to secured or confidential data, as decreed by the Fire Chief, which is stored on desktop or network based storage devices.

Any Division member who discovers software of an illegal or questionable nature on a Division computer shall immediately notify the Fire Chief by submitting a RT-154 through their chain of command. Information Systems staff shall examine the software and take appropriate actions, including the removal of the software.

- 356.20 No recreational games are to be installed or used on any Division of Fire computer.

- 356.22 Personally owned software shall not be installed on Division of Fire computers unless written approval of the Fire Chief has been obtained by the Division member making the request. When approved, the Information Systems staff will verify that the software is legally licensed to the member and can legally be installed on a Division of Fire computer. The Information Systems staff will install the software and maintain a record of the software in the Division's software database.

The original software media (floppy disks, CD-ROMS, etc.) from which the software is installed shall be retained by the Information Systems staff while the software is installed on the Division of Fire computer. Once the member no longer requires the software, it will be removed from the Division of Fire computer by the Information Systems staff and the media will be returned to the owner.

- 356.24 Data saved on network servers (i.e. your "home" folder and Division shares) is backed up regularly. It is the responsibility of the individual user to backup any data **not** stored on the network servers.

Chapter III
General Policies And Procedures

- 356.26 All uses of Division computer equipment, electronic facilities, and electronic data are restricted to work related purposes. The Division member is responsible for their actions while accessing the Division of Fire and City computer networks and the Internet.

INTERNET POLICY

- 356.28 Use of the Internet and web browser software is a privilege assigned to Division network users. The Fire Chief may revoke this privilege if an individual does not adhere to Division rules concerning Internet use. The Internet is provided to Division of Fire members solely for the purpose of conducting City business. Software is in place that allows Internet site tracking and connection times.
- 356.30 Division of Fire network and computer resources shall not be used to seek or gain unauthorized access to Division of Fire network resources, City of Columbus network resources or Internet resources.
- 356.32 Division of Fire network and computer resources shall not be used to conduct or participate in any actions, which are illegal, or violate Division of Fire policies, or violate any city, state, or federal law.
- 356.34 Division of Fire network and computer resources shall not be used to intentionally view, display, transmit, or receive any sexually explicit material or be used to threaten or harass others. The production or proliferation of racial, ethnic, religious, or gender-based slurs shall also be prohibited.
- 356.36 Division of Fire network and computer resources shall not be used to conduct commercial or private/personal business enterprises or to promote private businesses, or product advertisements.
- 356.38 Division of Fire network and computer resources shall not be used to provide support or solicitation on behalf of individuals, groups, organizations, etc. that are not related to the business of the Division of Fire.

Chapter III
General Policies And Procedures

- 356.40 No Division member shall intentionally disrupt the functions of the Division of Fire network or other computer resources, including, but not limited to, propagation of worms or viruses or other debilitating programs. No user shall intentionally destroy the integrity of computer-based information or compromise the privacy and/or security of other users.
- 356.42 Division of Fire network and computer resources shall not be used to circumvent legal protection provided by copyright and license.
- 356.44 Due to security risks to the network, applications, programs or executable files of any type shall not be downloaded from the Internet and run on computers connected to the Division's network. This does not prohibit Information Services staff from downloading service patches or software code required for the operation of the Division's network or servers.
- 356.46 It is the responsibility of Division of Fire members to check for copyright or licensing agreements when downloading any files. No copyrighted material shall be placed on Division of Fire computers or network without written permission of the owner of copyrighted material, data, application or information.
- 356.48 When utilizing "Anonymous" logons to other networks or Internet sites, users shall type in their E-mail address when the site requests a "password." DO NOT type in your network password.
- 356.50 Division members shall only subscribe to News Groups and mail lists that relate to the business of the Division of Fire. Subscriptions shall be cancelled when the member no longer requires them.
- 356.52 Multimedia sites located on the Internet (World Wide Web) often require special hardware and software to use. Most sound, picture, and video files consume large amounts of network bandwidth and disk space and should be accessed and/or used with discretion.

Chapter III
General Policies And Procedures

356.54 Information displayed on the Division of Fire's web pages shall be coordinated through the Division of Fire's Public Information and Community Relations Offices. Personal web pages and web sites shall not be permitted on the Division of Fire network.

ELECTRONIC MAIL (E-MAIL) POLICY

356.56 Members of the Division of Fire are responsible for E-mail messages originating from their user logon ID. Theft, forgery (or attempted forgery) and the intentional reading, deleting, copying, or modifying of any E-mail of other members shall be prohibited. Originating email messages from the address of another member without their permission shall be prohibited.

356.58 Division of Fire members who have been provided E-mail capability have an obligation to read in-coming messages in a timely manner and respond accordingly.

356.60 The sending of unsolicited junk E-mail, for-profit messages, chain letters or similar E-mail shall be prohibited. Any message that may create a hostile work environment such as sending harassing, discriminating, and/or other threatening E-mail to another user shall be prohibited.

356.61 The Division of Fire realizes that Division members have little control over aspects of communications received, especially those received from unsolicited sources. Any unsolicited electronic correspondence received should be disposed of accordingly. If you repeatedly receive this type of correspondence, forward the item(s) along with a message to the Information Systems Manager. Be sure to put the words "**unsolicited mail**" in the subject line.

356.64 E-Mail will be backed up regularly, allowing the Division of Fire to restore current electronic mail in the event of system failure. Division members should assume that copies (back-up copies or otherwise) of electronic mail messages and other electronic correspondence may exist on other systems even though the sender and recipient has discarded his/her copy of the document.

Chapter III
General Policies And Procedures

- 356.66 E-mail and on-line communications may not be appropriate for the transmission of confidential or sensitive information. Judgment should be exercised in using this method of transmission for such information.
- 356.68 The Division of Fire reserves the right to access and disclose all messages and other electronic data, sent over its electronic mail system or stored in its files, for legal and audit purposes. All Division of Fire public records stored electronically shall be retained according to the Division of Fire records retention schedule. Under the Ohio Public Records Law, any electronic mail can be a public record. Division members should be aware that electronic records are subject to the mandatory public disclosure requirements of the Ohio Public Records Law, subject to the exceptions under the Act.
- 356.70 E-mail will generally be limited to informal communication. In most cases, communications initiated by Division personnel regarding policies, requests, suggestions or other official business will be sent through the member's Chain-of-Command in writing and placed in an envelope addressed to the Fire Chief.
- 356.71 E-mail, an informal transmission or a public record, shall be relayed through proper channels.
- 356.74 E-mail that is to be forwarded through the Chain-of-Command is not to be Cc'd (carbon copied) to other recipients or to the final recipient. Cc'd email often results in confusion due to personnel receiving multiple copies of the same email that appears to be the same but may have been amended. It also bypasses the required review by members in the Chain-of-Command.

Chapter III
General Policies And Procedures

356.76 The body of an e-mail that is to be forwarded through the Chain-of-Command will be in Memorandum format. The memorandum will be addressed to the final recipient.

Example:

“Please forward this memorandum

TO: Chief Jones

FROM: FF William Barnes, E-1, 2

DATE: Unit September 30, 2003

SUBJECT Email Routing”

:

356.78 Personnel receiving email to be forwarded through the Chain-of-Command shall process the email without delay and shall make a notation on the email to signify their “acknowledgement”, “approval”, or “disapproval”. Disapproval requires a note explaining the reason for such disapproval.

ENDORSEMENTS AND ADVERTISING POLICY

358.00 The Division will not endorse products or services. The Division will not associate the organization, our personnel, our logos, or any of our identifiable facilities or equipment with any commercial entities in advertisements.

358.02 No Division member will participate in advertising of any product or service, while identifying themselves; as, or in any manner representing themselves as, a Division member.

358.04 No Division member will publicly endorse any products or services while identifying themselves as, or in any manner representing themselves as, a Division member.

DIVISION SUPPORT OF CHARITIES

- 360.00 The Division of Fire will actively support selected charity organizations, which operate consistent with the Division's Mission and/or image in the community. The Division of Fire will actively encourage the participation of Division members in selected charity events.
- 360.02 The Division's association with specific charities and their events will be determined on a case-by-case basis by the Fire Chief Charities and charity events, which have received the Division's support in the past, are approved, unless otherwise stated by the current Fire Chief .

DIVISION SUPPORT OF PUBLIC EVENTS

- 362.00 The Division will not endorse, promote, or otherwise support non- Division public events, except those events produced by charity organizations with which the Division has an association or those events produced by a government entity with which the Division has an association.
- 362.02 The Division's association with specific public events will be determined on a case-by-case basis by the Fire Chief Public events, which have received the Division's support in the past, are approved, unless otherwise stated by the current Fire Chief

SAFETY AND HEALTH

- 364.00 The Division's Safety and Health Hazard Report, RI-173, provides a means to report safety and health hazards to ensure the situation is documented. Completing the form is the first step in initiating a review so that any corrective actions that are necessary may be taken.
- 364.02 Members should submit a Safety and Health Report any time that they observe an unsafe act, unsafe practice, or an unsafe situation. This may include but is not limited to, emergency operations, protective clothing, equipment, fire and EMS apparatus, and hazards in and around the work place.

Chapter III
General Policies And Procedures

- 364.04 The procedure for filling out form RI-173, Safety and Health Hazard Report, is found in the Division of Fire's Forms Manual.
- 364.06 Form RI-173 will be submitted to the Division's Safety Officer. The submittal may be through channels, with intermediate officers attaching comments or suggestion, or directly to the Safety Officer.
- 364.08 The Division's Safety Officer will acknowledge receipt of each submittal and notify the person submitting the RI-173 of the status of their report.
- 364.10 The Safety and Health Hazard Report does not take the place of, nor negate the need to fill out, any applicable accident or injury forms.

ADMINISTRATIVE COMPLEX

- 366.00 The Administrative Complex consists of the land, buildings, structures and parking facilities located in the 3600 block of Parsons Avenue. The complex houses the offices, training, meeting, storage, repair, and fitness facilities of the Administrative, Training, Support Services, Fire Prevention and Emergency Services bureaus.
- 366.02 The hours of operation at the Administrative Complex is consistent with the outside limits of the normal forty (40) hour workweek - 7:00 a.m. to 5:00 p.m., Monday through Friday. Work schedules outside of these time limits are not permitted.
- 366.04 The Fire Chief may authorize temporary work schedules outside the normal time frame when necessary to meet Division goals. Overtime and/or compensatory time issues require prior approval by the proper authority.
- 366.06 The complex buildings will be secured after normal working hours. Access is available through doors equipped with a security ID card reader. Access to complex buildings after normal working hours is limited to general meeting areas, halls, and fitness facilities. Access to all other areas, without prior approval, is prohibited.

Chapter III
General Policies And Procedures

- 366.08 Security ID card readers are located throughout the buildings. Tampering with the readers, unauthorized use, or entry after normal working hours without prior approval, and blocking open controlled access doors may be grounds for discipline. Random checks will be made of the security system's audit of ID card reader use.
- 366.10 Access to secured areas of the buildings is restricted to authorized personnel, as determined by their duty assignment. Proposed changes to the authorization levels for a duty assignment shall be submitted through channels to the Fire Chief.
- 366.12 Proper ID is required for access to the complex buildings. Division personnel and City Employees shall be in uniform or have their badge or ID card prominently displayed. Division personnel will stop people that are not displaying the proper ID. The person's business will be determined and they will be offered an escort to their desired location.
- 366.14 In the event of increased security measures (Level Orange or Red), access to the buildings will be through a staffed reception area or via controlled doors. Visitors will be directed to the staffed reception areas. Visitors will wait in this area until personally met by a bureau representative. If the visitor is taken to another part of the building a representative will stay with the person until they are escorted to an exit.
- Regular or known visitors and visitors on an extended visit, such as a class participant or instructor, will be issued a Visitor's Pass at the reception area.
- 366.16 Extracurricular activities to be held in any of the complex buildings require the approval of the Fire Chief.
- 366.18 Scheduling of complex meeting rooms by Division groups and outside agencies will be coordinated by the Support Services Bureau's Administrative Assistant with guidance from the Fire Chief. Written requests submitted by external agencies, departments, or other divisions as well as requests from the public will be forwarded to the Fire Chief for his review. *(Revised 12/31/15)*

Chapter III
General Policies And Procedures

- 366.20 Anytime security measures at the complex are increased, extracurricular activities and/or meetings may be cancelled at the Fire Chief's discretion.
- 366.22 Fitness facilities and the gymnasium are restricted to use by Division Personnel only. Exceptions require the written approval of the Fire Chief.
- 366.24 Parking at the complex is restricted to designated areas only. Parking on the grass, along the curbs, roadways, and sidewalks, or on the sidewalks is prohibited.
- 366.26 Emergency response vehicles: Engines, Ladders, Rescues, and Medics, due to their size and weight, shall park in the rear parking lot. These vehicles are to park on the concrete roadway that encircles the rear parking lot.
- 366.28 Unauthorized use of handicap parking areas and unauthorized parking in assigned parking places is prohibited.

Section 424.00	Fire Station Expense Fund
Section 426.00	Station Laundry Procedures
Section 428.00	Air Cascade Systems

Chapter IV
Rules And Regulations Governing Fire Station Personnel

GENERAL FIRE STATION RULES

- 400.00 Members of the Division shall not maintain permanent living quarters in any fire station or other Division property.
- 400.02 Members shall allow no property, except that of the Division or the City of Columbus, to remain in or around the fire stations except by permission of the Chief or Administration Officer. Responsibility for the personal property of any Division members, either individually or collectively, remains solely that of the members involved. The granting of permission to bring personal property onto Division premises shall not be construed as meaning that the Division of Fire or City of Columbus assumes or accepts liability for any such personal property. *(Revised 12/31/15)*
- 400.03 Members shall not be permitted to enter or remain in any fire station or other Division facility while under suspension.
- 400.04 Members shall not permanently attach any device or instrument, whether electrical, mechanical or otherwise, to any of the electrical circuits, buildings, apparatus, or any other property of the Division without first receiving proper authority and investigating the advisability of such attachment. *(Revised 12/31/15)*
- 400.06 Members shall not normally be permitted to place private automobiles or other motor vehicles on the apparatus floor or other areas within fire stations under normal conditions and without permission from the Company Commander. *(Revised 12/31/15)*
- 400.07 Members shall not be permitted to park their private vehicles on fire station ramps, or within six feet (6') of access lane to the ramp, or other areas not designated as parking spaces, except when necessary for changing of shifts. Vehicles that are parked in these areas during the change of shifts shall be moved to proper parking places within 1/2 hour following roll call. Private vehicles may be parked on ramps on a temporary basis while conducting Fire Division business at the fire station, as long as the driver remains readily available to remove vehicle if the need arises.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 400.08 Members shall not be permitted to make major repairs on private vehicles in or around fire stations.
- 400.10 Members shall not park vehicles having signs or letter advertising any private concern or business with which a member may or may not be associated on station property or areas adjacent to stations or other Division offices.
- 400.12 All members shall be thoroughly familiar with the name, location and proper use of all tools and equipment assigned to the apparatus in their stations. They shall attempt to become familiar with the location and use of any specialized apparatus and tools in their respective battalions. This knowledge can be gained through cooperative training sessions with the other companies involved, consulting their battalion chiefs or their training captain where inter-battalion coordination is required.
- 400.14 Members shall not under any circumstances lend, sell or give away any public property of the Division of Fire or City of Columbus. The Chief or an officer authorized by him/her may lend Division equipment to public utilities or other city departments.
- 400.16 Members shall maintain a business-like atmosphere in areas of the station where the public is likely to be met. In all other areas of the station, noise and boisterous conduct shall be kept within reasonable limits.
- 400.18 Members shall not occupy the beds in the fire station dormitories between the hours of 0700 hours and 2000 hours unless permission to do so has been granted by their company commanders.
- 400.19 Beds SHALL NOT be occupied at any time unless the individual's linen (two sheets and one pillow case) is properly in place on the bed.
- 400.20 Members shall not sleep or recline in a position that would indicate sleeping in any location in the fire station other than the dormitory except that the watchperson may sleep in the watch area after 2200 hours.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 400.22 Members shall be considerate of each other's rights at all times and shall not unnecessarily disturb members sleeping in the dormitory.
- 400.24 Members shall immediately notify the fire alarm office whenever an alarm of fire or other emergency is received by messenger relating any particulars that they may have regarding such alarm. They shall then be governed by the instructions received from the fire alarm office.
- 400.26 Members shall notify the fire alarm office whenever Division apparatus leaves the station for any reason other than response to emergency or service runs originating from such office. This normally shall be done by updating the vehicle's status on the MDC or by radio. *(Revised 12/31/15)*
- 400.28 Members shall notify the fire alarm office when Division apparatus returns to quarters or is temporarily located at other Division stations or offices.
- 400.30 Members shall answer all alarms of fire or other emergency to which their company is dispatched.
- 400.32 Members shall immediately cease all activities and prepare to respond whenever it is indicated, whether by public address, telephone, radio, or messenger, that an alarm to which they may be required to respond is about to be transmitted.
- 400.34 Members in stations where more than one company is assigned, when an alarm is received, shall refrain from starting apparatus engines or activating vehicle horns, bells, or sirens until they are certain that members assigned to other companies have heard and understand the alarm assignment. *(Revised 12/31/15)*
- 400.36 All Division Bulletins shall be distributed and acknowledged electronically via the Division Learning Platform. *(Revised 12/31/15)*
- 400.38 Members shall not waste or abuse public property or other utilities whether in quarters or at emergency scenes.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 400.40 Members shall transact all matters through proper channels, adhering to the chain of command except where urgent matters are involved and their immediate superior is unavailable.
- 400.42 Members shall, when there is business to be transacted, contact the officer in charge of the station, bureau, office, or other designated area of concern.
- 400.44 Members shall not gamble for money or other articles of value while on duty, and shall not have or keep any gambling device on Division of Fire property.
- 400.46 Members shall not engage in any religious, ethnic, or political controversy under any circumstances.
- 400.48 Members shall not receive awards, presents, or gratuities of any kind for services rendered while engaged in the business of the Division without the permission of the Chief.
- 400.50 Members shall not place decorations or advertisements in or on any Division property without the permission of the chief.
- 400.52 All members shall study and become familiar with the traffic laws of the City of Columbus.
- 400.54 Vendors desiring to demonstrate or sell their products shall be referred to the Officer in Charge of the station. Officers may authorize such visits when approached by a vendor or representative showing proper credentials, but shall consider the convenience of the personnel assigned to such station or bureau and shall assure such members that they are not obligated to attend meetings or demonstrations for this purpose.
- 400.55 All vending machines placed in Fire Stations or other Division Facilities shall be the personal property of the personnel assigned to such station or facility. Company leased vending machines will not be permitted on Division of Fire property. Also, vendors

Chapter IV
Rules And Regulations Governing Fire Station Personnel

will not be permitted to place any items (i.e., potato chips, candy, etc.) in a fire facility for a percentage of the sales - unless by City Contract and approved by the Fire Chief.

FIRE STATION LIBRARIES

- 400.56 All publications belonging to the Division of Fire shall be kept in a location such as an Officer's Room, where the security of such materials can be assured. A locked bookcase or closet should be used whenever possible.
- 400.58 Members shall not remove any book or other publication from any Fire Division library. *(Revised 12/31/15)*
- 400.60 No book will be loaned out overnight, taken out of the fire station, or placed in any member's personal locker for any period of time, regardless how short. In addition, no reading material of questionable moral content or potential embarrassment to the Division of Fire shall be brought into or permitted to remain in any fire station.
- 400.62 Whenever a piece of apparatus is parked away from a station, for a non-emergency, at least one individual shall remain with the vehicle. This individual is responsible for providing security for the vehicle and equipment.
- 400.64 No Fire Division vehicle shall be parked in a marked "Fire Lane" except during a response to an emergency.

STATION CAPTAINS

- 402.00 A Station Captain shall be assigned to each Division fire station.
- 402.02 Station Captains shall be assigned by the Fire Chief, in keeping with the current Division vacancy and transfer procedures. They shall be directly responsible to their respective battalion chiefs.
- 402.04 Station Captains shall be in charge of and responsible for the inspection, care, maintenance, and general cleanliness of the station and grounds, and of the apparatus and equipment housed, stored, or assigned to such station.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 402.06 Station Captains shall provide guidelines concerning the maintenance of the station, equipment, and apparatus quartered therein, consistent with the established policies of the Division. Officers and members of all units shall acknowledge and use such guidelines whenever possible unless specifically instructed to do otherwise by their respective battalion chiefs.
- 402.08 Station Captains shall prepare and submit required reports and requests, or initiate such other actions as are necessary to promptly remedy situations discovered and reported during the course of fire station inspections. Requests for routine maintenance procedures and remodeling or renovation projects must be submitted by the station captain, through proper channels, to the Support Services Bureau for approval to be forwarded to Facilities Management Office. All request for station maintenance shall be recorded into the fire station maintenance log and daily smooth log. *(Revised 12/31/15)*
- 402.10 Station Captains shall be responsible for complying with and enforcing all Division rules and regulations within their span of control. They shall be responsible for providing guidance, counseling and motivation to all Division members assigned to their station, irrespective of unit.
- 402.12 Station Captains shall be responsible for promptly reporting to their Battalion Chief any events or situations where proper and gainful coordination between the units is in any way jeopardized, threatened or ignored.
- 402.14 Station Captains shall be responsible for ensuring that the officers and members assigned to their stations conduct roll call in the prescribed manner, clearly and accurately relaying all pertinent information as required, as further explained in Section 406.00 of this manual.
- 402.16 Station Captains shall require their subordinates to immediately notify them of anything of an unusual nature which they, as station captains, should know.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 402.18 Station Captains shall be responsible for seeing that a proper and complete recording of all pertinent information is included in the regular daily company journal on all units.
- 402.20 Station Captains shall make certain that all pertinent information is properly recorded on the temporary daily log by the watchman or other members of the various units, for their own personal information and use.
- 402.22 Station Captains shall be responsible for preparing or having prepared all routine reports, supply requests, and other communications concerning their station and the apparatus or equipment quartered therein, and for seeing that they are promptly forwarded through proper channels. They shall also monitor the submission of routine reports and communications involving station personnel on all units, including such things as fire inspection and hydrant inspection reports.
- 402.24 Station Captains shall keep books of streets, hydrants, buildings, and other important subjects for training and schooling purposes, and shall make such books readily available to all officers and members assigned to the station for use as reference or training material.
- 402.26 Station Captains shall be responsible for seeing that station officers on each unit, prepare, post and regularly update and maintain a list of names, addresses and telephone numbers of all Division members assigned to their respective units. A duplicate of such list shall be furnished to each unit's battalion chief.
- 402.28 Station Captains shall be responsible for, and take full charge of, all voting that is required in their respective stations with regard to various matters pertaining to the Division, and shall strive to prevent improper or incomplete voting practices or any other action that would serve to disqualify groups of votes from being counted.
- 402.30 Station Captains shall maintain a procedures file relative to the operation of their stations, and shall submit a copy of such file to their Battalion Chief for approval.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 402.32 Station Captains shall submit to their Battalion Chief prior to June 15 of each year the annual preliminary budget request (form ER-63).
- 402.34 Station Captains shall be fully responsible for the administration of the Station Expense Fund, in accordance with provisions listed in Section 424.00 of this manual.
- 402.36 Station Captains, when designated by their battalion chiefs to do so, shall perform the duties of the battalion training captain.
- 402.38 Station Captains shall be fully prepared to assume all of the duties and responsibilities of their battalion chief at any time, and at least once every three months shall be required to perform these duties under the direct supervision of such chief. They shall also be thoroughly familiar with those duties and responsibilities required of the members under their commands.
- 402.40 Station Captains shall be responsible for adhering to all rules, regulations, and policies pertaining to Division officers and company commanders as set forth in this manual.
- 402.42 Station Captains shall perform such other related duties as are required by their battalion chief.
- 402.44 Station Captains shall advise their battalion chief of their recommendations concerning the lieutenant they wish to have act as their alternate in the event of a prolonged absence.

COMPANY COMMANDERS

- 404.00 Company Commanders shall be assigned by the Chief, shall be directly responsible to their Battalion Chiefs, and shall ordinarily hold the rank of Captain or Lieutenant. However, any member of the uniformed Division may be required to assume the responsibilities of a company commander under emergency or other unusual conditions.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.02 Company Commanders shall be in complete charge of their company, and shall be responsible for the training, counseling, personal appearance and conduct of all Division members under their supervision.
- 404.04 Company Commanders shall be responsible for the discipline of their subordinates. If a disciplinary matter cannot be successfully resolved at the company level, the appropriate Battalion Chief shall be notified as soon as possible. If necessary, substantiated and well documented charges shall be filed by the Company Commander and forwarded through the chain of command to the level at which the problem can be resolved.
- 404.06 In all instances of discipline at the company level, a memo detailing the particulars of such discipline shall be sent through channels to the Fire Chief. *(Revised 12/31/15)*
- 404.08 Company Commanders shall make a full report in writing of any courageous or meritorious act performed by any member of their command, in keeping with the Division's Meritorious Conduct Policy. In addition, any act of cowardice, dereliction of duty, insubordination, or assault committed by a subordinate shall be reported to the appropriate Battalion Chief as soon as possible, and detailed in writing through proper channels to the Chief of the Division.
- 404.10 Company Commanders shall report to their respective Battalion Chief any matter requiring their immediate attention, and shall advise their Battalion Chief of any fact or event that could be of importance to them.
- 404.12 Company Commanders, before approving requests for the trading of time, shall make certain that the provisions of the Division's Trading of Time Policy are strictly followed.
- 404.14 Company Commanders shall see that all members of their company wear the regulation breathing apparatus furnished by the Division for their protection.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.16 Company Commanders shall be responsible for assuring that all personnel under their supervision have, and when necessary wear, all required articles of protective clothing. These include such items as protective hoods, helmets, eye protection, turnout coats and pants, boots, gloves and other protective gear as needed. *(Revised 12/31/15)*
- 404.18 Company Commanders shall be responsible for ensuring that full protection goggles, safety glasses or protective face shields are worn by members when needed. *(Revised 12/31/15)*
- 404.20 Company Commanders, when returning to quarters from alarms of fire and/or other assignments shall afford their relief drivers ample opportunity to drive the apparatus, so that these members may gain experience necessary to properly perform such duties.
- 404.22 Company Commanders shall see that all apparatus, hose, tools, and other equipment used at fires or other emergencies is immediately checked upon return to quarters, irrespective of the hour. They shall exercise their judgment in determining the necessity for washing apparatus or tools and for changing or cleaning hose.
- 404.24 Company Commanders, with reference to the preceding paragraph, shall be primarily concerned with returning the apparatus, hose, and tools to a condition where the efficiency of subsequent operations is not compromised or impaired and where the potential for unnecessary damage or unfavorable public reaction is not thereby created. Under normal conditions, hose used at fires will be changed or cleaned as necessary, either by members of the unit using such hose or by the unit immediately following same, in the morning hours.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.26 Company Commanders shall assure themselves that all of their members have a thorough knowledge of the vehicle to which they are assigned, and have the ability to instruct others in the operation of such vehicle. All members shall be provided frequent opportunities to practice driving, tilling, and pump operation, so that the respective companies have at least two (2) pump operators, two (2) ladder drivers, and two (2) tillermen. In cases where company commanders feel that the above requirements are inadvisable, a report stating the reasons for such opinion shall be submitted to the Fire Chief.
- 404.28 Company Commanders shall notify the officer in charge of the fire or emergency when they feel it will be necessary for their company to remain out of service for a period of time after being cleared from a fire or emergency scene. The officer in charge shall then notify the fire alarm office, so that the proper coverage can be provided or maintained.
- 404.30 Company Commanders shall notify the fire alarm office and their Battalion Chief when changing over to a piece of supplementary apparatus.
- 404.32 Company Commanders shall notify their Battalion Chief and be guided by the Battalion Chief's instructions before they allow any item to be added to or deleted from the normal complement of equipment carried on the apparatus.
- 404.34 Company Commanders shall be responsible for seeing that the apparatus radio or base station radio is monitored at all times when the possibility of receiving an emergency notification by such means exists. *(Revised 12/31/15)*
- 404.36 Company Commanders, when assigned to fill in at other stations vacated by companies operating at fires or other emergencies, shall immediately notify the fire alarm office upon arrival at such station. In addition, they shall follow all standard Division procedures pertaining to the efficient operation of fire stations. (This shall include maintaining the watch duties, becoming familiar with posted local conditions that could affect routine or emergency operations, and other relevant duties as conditions warrant.)

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.38 Company Commanders shall see that all documents assigned to their respective companies are complete and kept up-to-date.
- 404.40 Company Commanders shall not permit members of their command to leave the various stations unless such absence is necessary to accomplish Division business. If it becomes necessary for a member to leave the station on other than Division of Fire business, permission shall first be obtained from the Battalion Chief.
- 404.42 Company Commanders shall not permit the presence of pornographic literature, photographs, or any other such material in Division of Fire Stations or Offices.
- 404.44 Company Commanders shall ensure that all members under their supervision receive and understand all current and new Division training programs, policies and procedures. They shall also see that all Division daily routines, training programs and schooling of members are properly followed.
- 404.46 Company Commanders shall know, shall require their subordinates to know, and shall conduct regular school and training sessions on the running districts of their respective companies on first and second alarms. This shall include, but not be limited to, the study of streets, major buildings, "target hazards", and the locations of sprinkler and standpipe connections and enunciator panels in these areas. Also included should be visits to such buildings and districts, as well as visits to areas in their respective districts where relay pumping operations may be required or other types of pre-fire planning is indicated. (i.e. freeway emergencies, tank farm fires, etc.)
- 404.48 Company Commanders shall maintain a good working knowledge of all Division policies and procedures, rules and regulations, forms, manuals, and related information. They shall assure themselves that all personnel under their supervision develop and maintain proficiency in these areas.
- 404.50 Company Commanders shall be responsible for the complete and accurate preparation of all regular monthly reports. They shall review and forward all forms, reports, memos and requests generated by their subordinates.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.52 Company Commanders shall keep a current roster, Form PI-6, in the Company journal. All changes of address, telephone number, marital status, and other pertinent information shall be reported on form PI-26 and forwarded through channels on the first duty day after such change has occurred.
- 404.54 Company Commanders shall make known their need for supplies and equipment throughout the month so that the station captain will be better prepared to complete the monthly supply requisition.
- 404.56 Company Commanders shall be responsible for the receiving of all station supplies. They shall verify with a check list the various items received and shall report any discrepancies to the supply officer.
- 404.58 Company Commanders, upon returning to quarters from fires or emergencies, shall log the activities of their respective companies. This includes all tools and equipment used, and any injuries or any other unusual or pertinent occurrences. They shall include the name of the officer in charge of the fire or other emergency to which they responded. This account shall be complete to the point that an accurate picture can be formed in the minds of the participants at a later date.
- 404.60 Company Commanders shall hold their subordinates accountable for keeping on the Daily Rough Log an accurate and complete record of all pertinent information and occurrences throughout their tour of duty.
- 404.62 Company Commanders shall be responsible for transferring, or having transferred, all pertinent information from the daily rough log to the smooth log, for insertion into the company journal before the end of the shift.
- 404.64 Company Commanders shall assist the station captain in all voting by seeing that all members of their companies cast their votes, and by assuring that the proper number of signatures for ballots cast, are recorded on the front of the ballot envelope.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.66 Company Commanders shall see that station members are available to assist maintenance personnel from Facilities Management and/or other organizations as required, whenever such personnel are working in the various fire stations.
- 404.68 Company Commanders shall see that facility maintenance needs of a routine nature are reported to the Station Captain. Routine maintenance requests shall be directed to the Support Services Bureau for approval through proper procedures, then forwarded to Facilities Management. Requests for immediate emergency maintenance work must first be approved by the on-duty Emergency Services Deputy Chief (ES-2). Requests for maintenance work as it relates to station remodeling or renovation must be forwarded through normal Division channels for review and approval.
(Revised 12/31/15)
- 404.70 Company Commanders shall see that any unusual damage occurring to the fire station is reported to their Battalion Chief and the Station Captain, and that information regarding such damage is properly recorded in the company journal.

MULTIPLE COMPANY STATIONS

- 404.72 In those stations where two or more officers are assigned as Company Commanders, each officer shall be in complete charge of those members assigned to his/her respective company. They shall be responsible for the training, counseling, personal appearance, conduct and discipline of their individual company members.
- 404.74 One Company Commander on each unit shall be designated as officer in charge of the station. The station Captain shall automatically assume this responsibility on the unit to which he is assigned. The Battalion Chief shall designate such officer on each unit.
- 404.76 Company Commanders designated as officer in charge shall be responsible for efficient operation of the station on their respective units. They shall endeavor to act in accordance with the directions of the Station Captain, subject to the orders of the Battalion Chief on duty.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.78 Company Commanders designated as officer in charge of the station shall concern themselves with the needs of all personnel within the scope of their authority.
- 404.80 Company Commanders designated as officer in charge shall assign house cleaning duties on their respective units. Areas of responsibility shall be fairly and equally divided between the individual company commanders following the station captain's general guidelines. Individual Company Commanders shall be responsible for the assigned areas. They shall assign specific duties to their company members according to existing needs.
- 404.82 Company Commanders shall be concerned with the desired results rather than attempting to conform to rigid, predetermined time schedules or inflexible methods regarding routine station cleaning and maintenance duties. They should decide the existing need and methods to be employed in the performance of such duties, adhering to Division priorities as outlined in Section 408.00 and attempting to maintain established station procedures.
- 404.84 Company Commanders shall make every attempt to cooperate with each other at all times. Those duties and responsibilities other than direct supervision and training of their individual companies should be rotated at agreed upon intervals.
- 404.86 Company Commanders shall not shift members from one apparatus to another without first conferring with the Company Commander of the member or members involved.
- 404.88 Company Commanders assigned to multiple company stations shall be guided by the following policy: It is the desire of the Division of Fire that at least one company officer is one duty in a double house or multiple company station at all times. When a ladder company is assigned to a station and there is only one company officer present, this officer shall be in charge of the ladder company. Whenever it is not possible to comply with this policy, the officer or acting officer in charge of the station shall contact the Battalion Chief immediately, relate the particulars of the situation, and be guided by the instructions that are received from the Battalion Chief.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 404.90 In stations where a Captain is assigned, such officer shall be in charge of any ladder company assigned to the station when he is on duty. The only exception to this would be if the Captain were assigned as an Acting Battalion Chief.
- 404.92 Company Commanders who are temporarily transferred from other stations or assignments, or who work trades for regularly assigned officers, or who are called in to work overtime at any Division station shall, immediately upon reporting for duty, ascertain the number, names, and physical identities of Division members assigned under their supervision. If necessary, a supplementary "roll call" may be held for this purpose, and a list containing the names of the personnel involved compiled and maintained.
- 404.94 Company Commanders shall perform such other related duties as are required by their Station Captains and/or respective Battalion Chiefs.

ROLL CALL

- 406.00 All Division members below the rank of Battalion Chief who are assigned to stations or offices and who work the three platoon system are required to stand roll call at the start of each tour of duty in compliance with the provisions of this section.
- 406.02 Roll call shall be conducted in the following manner: At approximately 0758 hours, station personnel will be alerted via the public address system to "assemble for roll call." In the event that this announcement is not transmitted, or if the officer in charge sees a necessity for assembling station personnel prior to this P.A. announcement, such officer shall cause this assembly to take place.
- 406.04 The Company Commanders of both the oncoming and off-going units shall require the members of their companies to be in line, standing at attention and in the proper uniform, immediately upon receiving the message to assemble. Members shall not smoke, drink, eat or engage in idle conversation, nor shall they slouch and stand with hands in pockets or lean against walls or other objects during the roll call sequence.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

406.06 Members shall be neatly dressed in clean, well maintained, authorized uniforms at roll call. They shall be clean shaven. Battalion Chiefs may require the members assigned to stations in their respective districts to stand roll call in any official fire Division uniform on any particular day. Company Commanders shall use each roll call sequence as an opportunity to inspect their members' uniforms, and to ensure that all members are in compliance with Division grooming standards.

406.08 When all station members have properly assembled for roll call, with all members of the off-going unit standing together in line in one location and all members of the oncoming unit standing together in line in a separate location, the officer in charge of the off-going unit shall relay all information of importance to members of the oncoming unit. This information shall be presented in a loud, clean voice so that all members - and especially those coming on duty - can hear and understand it. The information relayed shall include anything of importance that has transpired since the most recent tour of duty of the oncoming unit. Included would be P.A. messages, verbal orders, bulletins and information concerning apparatus, quarters and/or equipment.

406.10 At 0800 hours, when the message "roll call" or "0800 roll call" is put out over the public address system, the officer in charge of the oncoming unit shall call out the last names of all oncoming members. These members shall answer "here" when their names are called. If any member is absent, the officer in charge shall state the reason for such absence. If a member is absent due to a trade, the name of the member working the trade shall be called. *(Revised 12/31/15)*

406.12 Any member failing to stand roll call as stipulated in this section without having obtained prior approval of the proper authorities shall be considered as reporting late for duty and shall be subject to disciplinary actions.

406.14 After calling the roll, the officer in charge of the oncoming unit shall report the number of members ready for duty to the officer in charge of the off-going unit. If any members of the oncoming unit are late for duty or are otherwise unable or unqualified to perform the duties required of them, the officer in charge of the oncoming unit shall

Chapter IV
Rules And Regulations Governing Fire Station Personnel

decide the necessity of instructing a member or members of the off-going unit to remain on duty until they can be properly relieved. The officer in charge of the off-going unit shall be the one to actually make any such necessary assignments.

- 406.16 AT THIS TIME IN THE ROLL CALL SEQUENCE, AFTER PROPER STAFFING HAS BEEN ASSURED, THE ONCOMING UNIT SHALL RESPOND TO ANY ALARMS RECEIVED.
- 406.18 The officer in charge of the off-going unit shall then dismiss the members of his/her unit and transfer the responsibility for quarters, apparatus, and equipment over to the officer in charge of the oncoming unit.
- 406.20 If for some reason the officer in charge of the off-going unit feels that the officer in charge of the oncoming unit is not in the proper condition to relieve him/her, the off-going officer will remain on duty and will not turn the responsibilities of command over to such oncoming officer. In this event, the on duty Battalion Chief shall be notified immediately, and both company officers shall remain in quarters until the Battalion Chief arrives. Proper relief shall then be made according to the orders of the Battalion Chief. All company officers shall be held strictly accountable for the consistent enforcement of this rule.
- 406.22 The officer in charge of the oncoming unit shall immediately notify the Battalion Chief if, after roll call, the number of members reporting for duty is below the minimum staffing standards of the Division, or are otherwise lacking in necessary qualifications. The Battalion Chief should also be informed of any members held over from the off-going unit to temporarily cover these deficiencies.
- 406.24 The oncoming officer in charge shall also notify the Battalion Chief of any members who are: late for duty, absent without leave, absent due to sickness or injury, returning to regular duty after having been certified off duty, assigned to light duty, etc.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 406.26 In the event that a company is at the scene of any emergency at the time of roll call, or any other time that a company is away from quarters when a change of personnel is scheduled, the officer in charge of the emergency or other situation may request that any necessary personnel changes take place at a location other than the regularly assigned quarters. He shall specify the location at which the change is to be made and have the Fire Alarm Office notify the involved Division members.
- 406.28 The Officer in Charge at the fire or emergency shall notify the Fire Alarm Office as soon as he/she determines that there will be a need for relief of personnel at the emergency scene. This procedure may also be followed when companies are out of quarters for other than emergency reasons at roll call and/or other times requiring personnel changes. (For example, trades or overtime assignments).
- 406.30 If it is determined that the change of crews or individual Division members is to take place at a location other than the regularly assigned quarters, the involved officers or members, after standing roll call or signing in on the company log at the established time, shall proceed to the designated location appropriately dressed and ready for duty. Members reporting for trades, regularly scheduled relief personnel, and/or overtime personnel shall report to the officer in charge at the scene and be guided by his/her instructions.
- 406.32 Battalion Chiefs reporting for regular duty shall relieve the off-going Battalion Chiefs no later than 0700 hours (one hour prior to roll call) to ensure that they have ample time to visit the stations in their respective battalions for the purpose of observing roll call. Battalion Chiefs are to observe roll call activities at each station in their respective battalions at least once a month.
- 406.34 Fire Alarm Dispatchers reporting for duty shall relieve the off-going dispatchers no later than 0700 hours (one hour prior to the regular roll call time), under the direction of the Officer in Charge.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 406.36 All members of the emergency services bureau with the exception of ES-2 and those personnel listed in the preceding two sections shall stand roll call at their assigned stations unless excused by their Battalion Chief for some authorized reason. Any other Division personnel who may be required to operate from the various fire stations in the course of their normal duties shall also stand roll call at their assigned stations.
- 406.38 When going off duty, members excused from standing roll call for authorized reasons more than three times in succession shall have their names submitted to the Division Administration Officer. This shall apply whether the absences were covered by obtaining trades with oncoming members or other circumstances prevailed. Names of such members, together with an explanation of the particulars involved, shall be submitted by their immediate supervisors. Properly relieved personnel, such as Battalion Chiefs and Fire Alarm Dispatchers shall not be included under the provisions of this paragraph. *(Revised 12/31/15)*

DIVISION DAILY ROUTINE

- 408.00 The Division of Fire, in order to efficiently fulfill its goal of service to the public, ~~must~~ employ certain Division wide standards of work accomplishment. The following standards shall be strictly adhered to by all fire station personnel on all units.
- 408.02 Each Company Commander shall devote his/her time to work planning, follow-up and inspection of work performance, planning of training needs, instruction of company members, and the evaluation and counseling of his immediate subordinates.
- 408.04 Company Commanders shall refrain from participating in the performance of routine duties that should be delegated, such as station and equipment maintenance and serving as station watchman.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

408.06 Company Commanders shall be held responsible for seeing that the prescribed duties are performed by their company members according to Division standards, and shall be guided by the following priorities regarding the daily operations at the station level:

1. Response to emergencies
2. Maintaining station personnel, apparatus, and equipment at the highest levels of proficiency.
3. Fire Prevention inspections and other related company level inspections and activities.
4. Routine station cleaning and maintenance.

NOTE: This priority list is intended for use as a guide. It should apply when time or other limiting factors suggest that normal routines can be temporarily set aside. Under normal conditions, station cleaning and maintenance duties can, and should be accomplished in accordance with the prevailing directions of the Station Captain. The sequence of priorities shall not be interpreted as meaning that routine station cleaning and maintenance tasks are unimportant and need not be accomplished. *(Revised 12/31/15)*

408.08 The daily routine weekday schedule for all Division personnel assigned to Division fire stations on all three units will run from 0800 hours to 1800 hours. This period of time shall be completely devoted to accomplishing Division goals. The following schedule is intended as a guideline to be utilized by all Company Commanders:

0800-0830: Roll call, assignment of watch duties, check of equipment on assigned apparatus and vehicles, apparatus/vehicle operational check, inspection and cleaning of personal gear and equipment, raising the Flag, etc.

0830-0900: Preparation for tour of duty: relaying of important information and specific duty assignments, discussion of related needs and concerns, completion of company members individual needs.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

0900-1200: Cleaning and maintenance of station, apparatus, and equipment; training and inspections as indicated.

1200-1300: Lunch period

1300-1700: Training and company school. Inspections: fire prevention, high rise, familiarization, hydrants, etc.; additional cleaning and/or maintenance as needed.

1700-1800: Dinner period

NOTE: Company Commanders shall be responsible for ensuring that members do not engage in activities or pursue interests of a personal nature during this time period. Activities such as viewing television for entertainment purposes and playing cards or other games for any reason shall not be engaged in except during the lunch and dinner portions of this period.

408.10 Each day at the completion of the daily schedule, Company Commanders shall hold a critique with the members of their companies. This critique should consist of an informal review and evaluation of the day's activities, and will have the following goals:

- a. Follow-up on job assignments.
- b. Relay information gained by individual company members.
- c. Relay and review PA messages, bulletins, verbal orders, and any other pertinent information that may have been received during periods when one or more company members were not present.

408.12 Company Commanders should attempt to leave the period of time from 1800 hours to 0800 hours as free from routine duties as possible. However, if an individual Company Commander needs any portion of this time in order to accomplish Division goals, he/she should do so. It must be remembered that it is the responsibility of each Company Commander to see that the goals of the Division are met.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

408.14 The daily routine weekend and holiday schedule for all Division personnel assigned to Division fire stations on all three units will run from 0800 hours to 1200 hours. This period of time shall be completely devoted to accomplishing Division goals. The following schedule is intended as a guideline to be utilized by all Company Commanders:

0800-0830: Roll call, assignment of watch duties, check of equipment on assigned apparatus and vehicles, apparatus/vehicle operational check, inspection and cleaning of personal gear and equipment, raising the Flag, etc.

0830-0900: Preparation for tour of duty: relaying of important information and specific duty assignment, discussion of related needs and concerns, completion of company members individual needs.

0900-1200: Training and company school as needed; inspection of hydrants, etc.; cleaning and maintenance of station, apparatus and equipment.

1200-1300: Lunch period

1300-1700: Inspection of hydrants or other duties necessary to accomplish Division goals.

NOTE: Company Commanders shall be responsible for insuring that members do not engage in activities or pursue interests of a personal nature during this time period. This includes activities such as viewing television for entertainment purposes and playing cards or other games for any reason.

408.16 The holiday schedule will be observed on the days listed in the current collective bargaining agreement:

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 408.18 Each day at the completion of the weekend or holiday routine work schedule, Company Commanders shall hold a critique with the members of their companies. This critique should consist of an informal review and evaluation of the day's activities, having the same goals as those stated in Section 408.10.
- 408.20 Company Commanders should attempt to leave the period of time from 1200 hours to 0800 hours as free from routine duties as possible unless in their opinion, a portion of this time is needed in order to accomplish Division goals.

STATION WATCHMAN

- 410.00 In each Division fire station, a daily detail of one member shall be assigned each day as station watchman under the direction and general supervision of the officer in charge. As a rule, the duties of watchman will be rotated equally between the firefighters assigned to all engine, ladder and rescue companies at a given station. Division Officers, under normal circumstances, shall not perform station watchman duties.
- 410.02 In addition to the regularly assigned watchman, a second station member shall be designated as alternate or "back up" watchman. Any time the regularly scheduled watchman is unavailable the "back up" watchman will assume the watch duties.
- 410.04 In those stations where more than one company is assigned, the member designated as alternate watchman shall be one who is assigned to a company other than that to which the regular watchman is assigned. In large, multi-company stations it may be necessary to designate a second back-up watchman, in order to assure that proper station watch coverage is provided.
- 410.06 In stations where medic transport units are assigned, members of such companies shall perform and maintain an effective station watchman function during those times that other regularly assigned companies are out of quarters and unavailable for such duties. Normally, medic personnel will not be specifically designated as regular or alternate watchman.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 410.08 Members detailed to perform the duties of station watchman shall be responsible for efficiently discharging all of the duties and activities associated with this assignment, and shall not allow themselves to be placed in a position where they might be unable to do so. These duties include - but are not limited to - being immediately available to people visiting the station and answering of fire Division telephones in the officially prescribed manner.
- 410.10 If it becomes necessary for the station watchman to be away from or out of direct sight of the immediate vicinity of the watch area for more than just a moment or two, he or she shall first secure the permission of the officer in charge, and should also attempt to get the alternate watchman or some other station member to provide coverage for the duration of this absence.
- 410.14 Station personnel assigned to watch duties shall be permitted to sleep in at an officially designated location any time after 2200 hours. They shall wear appropriate clothing, suitable to receive visitors who may have reason to enter the fire station during the night hours. Station watchmen shall not occupy beds or sleep anywhere in the station after the 0700 hours "wake-up" announcement.
- 410.16 Station watchmen shall be held strictly accountable for ensuring that Division base station radios or monitors are never turned off or unplugged. They shall not permit the volume control to be turned down or the speakers to be blocked or positioned in such a way as to prevent the clearly audible reception of all pertinent transmissions. Members on watch shall remain constantly alert to any communications which may be relevant to operations at their station.
- 410.18 When answering Division telephones, station watchmen shall relay all information of an urgent or emergency nature to the proper officer or member(s) immediately upon receipt thereof. Information of a general or non-emergency nature shall be either relayed to the proper officer or member or entered accurately in the company journal as conditions warrant.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 410.20 The watchman shall properly record all pertinent information received for later entry in the company log. This shall include all public address system, telephone, radio or other messages; markings of apparatus in or out of quarters; information relevant to the respective stations concerning streets closed, blocked, or opened and hydrants out of service, abandoned, or back in service; sprinkler or standpipe systems out of service or returned to service; training activities; visitors to the station and their business, including Division members, civilians or others.
- 410.22 The watchman shall notify the Officer in Charge of the station of any personnel in quarters for the purpose of working on any portion of the station or any equipment or apparatus therein. He/she shall also properly record names, purpose of visits, times of arrival and departure, material delivered or picked up, and work completed.
- 410.24 The watchman shall bring to the attention of the Officer in Charge any occurrence of an important or unusual nature. This shall include such things as orders and other information received by him/her, messenger alarms, injuries occurring on station property, visitors to the station, any change in the status of apparatus or equipment, or any other event or situation that may affect the smooth and efficient operation of the station.
- 410.26 The watchman shall be responsible for the general cleanliness and order of the watch area and shall be responsible for seeing that all communications, bulletins, and various other items received during his tour as watchman are properly processed, recorded, or otherwise dealt with according to existing policies and instructions from his superiors.

FIRE STATION COMMUNICATIONS

412.00

Division Telephone Procedures: Fire Division telephones installed in Division fire stations are to be used for official business only. Members utilizing these phones shall keep communications as brief as possible, and shall refrain from engaging in idle or unnecessary conversation. Members shall discourage the use of Division telephones as a means of being contacted for non-official purposes, and shall not distribute the Division business telephone number for such reason.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 412.02 Division members answering Division telephones shall first state their station, bureau, or office designation, then their rank or title, and finally their last name. This procedure shall be mandatory and shall also be used when members use Division telephones to contact other stations, bureaus, or offices.
- 412.04 Members shall not use Division telephones to contact the Fire Alarm Office for a period of five (5) minutes after an alarm has been transmitted, and for fifteen (15) minutes after a multiple alarm has been transmitted, except in emergency situations.
- 412.06 Members receiving emergency runs over the Division fire phone, after stating their station, rank and name, shall carefully listen to, and repeat back in a voice loud enough to be heard by other members in the vicinity, all of the information that they are receiving from the Fire Alarm Office.
- 412.08 The procedure stated above shall be mandatory, as it serves to verify the proper receipt of the message being transmitted, and also acquaints nearby station members with the nature and other particulars of the emergency. Any addresses, directions or other pertinent information should be written down by the member answering the call.
- 412.10 *(Deleted 12/31/15)*
- 412.12 *(Deleted 12/31/15)*

PUBLIC ADDRESS SYSTEM PROCEDURES

- 412.14 The Division public address system is the primary means by which alarms of fire and other emergencies are relayed from the Fire Alarm Office to the various fire stations. Non-emergency and informational notifications are also transmitted by this means.
- 412.16 When relaying fire runs the Fire Alarm Office will precede the actual dispatching of companies by announcing the talk group for the run about to be dispatched, i.e. "This run will be on Battalion 1 Talk Group." The Fire Alarm office will then sound a short level tone, and say "ATTENTION," then give the address, nature of the emergency, and the companies to respond.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 412.18 When relaying EMS runs the Fire Alarm office will sound a warbling tone and then name the responding companies, the address and nature of the emergency.
- 412.20 All companies dispatched and responding to emergency runs transmitted over the public address system shall verify their response on their vehicle's Mobile Data Computer (MDC). *(Revised 12/31/15)*
- 412.22 The announcement "all stations" shall normally be the preliminary means of indicating that a non-emergency or informative message is about to be transmitted. If the message is to be recorded in each station's company journal, the phrase "to be logged" shall be included when announcing the message. Other messages may be designated as ones which "need not be logged". If a message is not specifically designated as "to be" or "not to be" logged, the information put out should be written down on the rough log. Officers in charge of each respective station shall decide whether or not to have such information recorded in their finished company journal.
- 412.24 (Deleted 12/31/15)
- 412.26 If the words of a message transmitted over the public address system are not understood, contact the Fire Alarm Office for a repeat or clarification. If the meaning of the message is not understood, or needs additional explanation, the appropriate Battalion Chief shall be contacted.
- 412.28 All PA messages and announcements other than emergency runs, service runs, routine day-to-day business, and testing activities must be approved by a Deputy Chief (ES-2), or a higher ranking officer, before being put out. Directions for completing the P.A. Message form, FA-660, are found in the Division's Forms Manual.
- 412.30 *(Deleted 12/31/15)*
- 412.32 *(Deleted 12/31/15)*

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 412.34 Routine business messages such as hydrants in or out of service, chiefs on duty, streets closed or reopened, etc. should be put out prior to 2000 hours, providing such information is available at that time. However, any message approved by the Chief or Administration Officer, and any other information of an important nature shall be put out over the public address system as necessary, regardless of the hour. *(Revised 12/31/15)*
- 412.36 Extra company, multiple alarms of fire, water responses, company move-ups, or “10-3” radio transmissions shall be transmitted to all stations during all hours of the day and night. The Fire Alarm Office may, if conditions warrant, relay information regarding such assignments to all stations, immediately after the actual dispatching has been accomplished. *(Revised 12/31/15)*
- 412.38 Members of companies that are likely to be involved in subsequent alarms, or who may be called upon to fill in at stations vacated by companies responding to current alarms shall prepare for such possibilities by assembling in the watch area and monitoring base station or apparatus radios whenever a multiple alarm is sounded.
- 412.40 The Division public address system is tested daily at the following times: 0700 hours - the first scheduled test of the day, also indicating reveille (station personnel shall not occupy beds after this notification); 0758 hours - the standard "assemble for roll call" message and test; 0800 hours - the roll call signal; 2000 hours - the last regularly scheduled test of each day.

BASE STATION RADIOS

- 412.42 Stations having base station radios or Division scanners shall set and maintain the volume control so that any Division personnel in the immediate vicinity - and particularly the designated station watchman - can easily monitor those communications being transmitted. The officer in charge of the station on each of the respective units shall be responsible for ensuring that the volume control is not turned down below readily monitored levels at any time.

FIRE STATION VISITS - FIRE SAFETY EDUCATION PROGRAMS

414.00 All visitors to City Fire Stations are to be accorded prompt, courteous and respectful attention. All Division members shall be polite and courteous to all persons at all times.

414.01 Visitors are defined to be all individuals not employed by the Division of Fire, excluding persons making repairs to Division facilities or equipment, or otherwise conducting Division business.

Visitors are prohibited from entering a Fire Station between 00:01 and 07:00 hours. Riders, students, and observers are exempted from this requirement if they have written approval of the Fire Chief.

Each visitor's stay will be limited to three hours of cumulative time during any one shift. The Battalion Chief of the district may wave this rule but must approve each occurrence.

When an emergency run caused all Division members to vacate the facility, the Division member in charge of the facility may choose to delay response until the visitors have been cleared from the building and the building is secured. The Division member in charge of the facility may not choose to exercise this option; however, all members will unquestioningly assist if the "clear and secure" option is chosen. Visitors may not remain inside Division facilities, which are vacated by Division personnel who leave on non-emergency business.

All visitors, at all times, are prohibited from entering any dormitory, locker room, or bedroom areas of the station except that officers may have visitors in their offices during non-prohibited hours. If the Division member in charge of the facility approves visitors may enter these areas during scheduled Station House tours.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 414.02 Company Commanders shall be responsible for Division public relations at the fire station level. Occasional visitors are to be welcomed, and if an interest is shown, various pieces of apparatus and equipment should be explained and demonstrated. Request from visitors to ride Emergency Services Vehicles must follow the guidelines of SOP 04-04-02, CFD Rider Policy. *(Revised 10/15/14)*
- 414.04 Non-Division personnel shall not be allowed to frequent the various fire stations or loiter on station property. Persons having official business to transact may be allowed to visit quarters; as may friends or relatives of Division members. In general, visitors to fire stations should remain in common gathering areas such as kitchens and watch booths.
- 414.06 Company Commanders may, for justifiable reasons, exclude from the fire station any person who is not a member of the Division of Fire. They shall exclude or cause to be arrested any disorderly person or any person thought to be under the influence of alcohol or any controlled substance.
- 414.08 Company Commanders shall ensure that, on occasions of station visits by school children or other juvenile groups, there shall be a sufficient number of station personnel assigned to keep children from dangerous areas. When children or other visitors are in fire stations, the apparatus or vehicles at such stations shall not leave quarters or be moved for any reason until it is certain that the children or other persons are safely out of the way.
- 414.10 Division employees receiving requests from various groups or organizations to visit fire stations should refer persons making such requests to the Division's Community Relations/Public Education Office. *(Revised 12/31/15)*

Chapter IV
Rules And Regulations Governing Fire Station Personnel

414.12 The Community Relations/Public Education Office will complete a Program Request Form (OF-270) and send it through normal Division channels to the fire station that is to be visited. The officer in charge of the station will call the person requesting the visit in order to confirm the particulars and will properly record the finalized information on the station calendar or other scheduling aid. After confirming the proposed visit, the yellow copy of Form OF-270 is to be returned to the Community Relations Office.

414.14 If requests for group visitations to fire stations cannot be referred immediately to the Community Relations Office, the member receiving the request shall obtain the following information and send it into the office on an OF-270 at the earliest opportunity:

- a. Specific fire station that the group wishes to visit.
- b. Date and time of requested visit (Note: It is required that at least two weeks prior notice is given when scheduling fire station visits).
- c. Name of group or association.
- d. Name and phone number of the adult who will be in charge of the group.
- e. Number of persons who will be in the visiting group, including a breakdown of the number of adults and children.

(NOTE: For groups of 10 or less and OF-270 need not be submitted, for groups of 10 or more and OF-270 is filled out and forwarded through channels. If requested amount is too many, rescheduling may be attempted.)

414.16 If for some reason a pre-scheduled visit cannot be handled as initially requested, the person who made the request must be contacted and informed of this fact as soon as possible. Likewise, if a scheduling conflict is noted at the time the request form is received, the requesting party should be contacted and an attempt made to reschedule the visit at a mutually agreeable time. However, before canceling and/or rescheduling any pre-scheduled program or station visitation, the involved company officer must first obtain permission to do so from ES-2. Only the Deputy Chief has the authority to cancel programs.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

414.18 Fire Safety Education program requests are received by the Community Relations/ Public Education Office and relayed to the various fire stations on Form OF-270. The top section of this form is completed by Community Relations and contains all of the information received from the person requesting the program. The form's four copies (white, yellow, pink and gold) are then distributed as follows:

1. The first copy (white) is forwarded to (ES-2) in charge of the unit on duty the day that the program or visitation is to take place. (Information and file copy)
2. The second copy (yellow) and third copy (pink) are forwarded to the Battalion Chief in the district where the program is to be presented.
3. The fourth or last copy (gold) is kept by Community Relations for their records.

After reviewing the program request and determining which Fire Station is to be given the assignment, the Battalion Chief forwards both the yellow and pink copies to that station. Any questions concerning reasons why a particular station was assigned a specific program should be referred to the appropriate Battalion Chief.

414.20 Confirming Program Requests: It shall be mandatory that program requests are confirmed at the company level by the date indicated on the Program Request Form (OF-270). This confirmation verifies the time and location of the program and gives added insight into just exactly what the person or group involved would like to have covered.

414.22 After confirming program requests the yellow copy of the form (OF-270) is to be returned to Community Relations. This will alert them to the fact that the program request has been verified and will allow them to have the necessary materials and equipment reserved for the program presenter. (Note: keep pink copy until after the program is presented, and then return it to the Community Relations Office.)

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 414.24 Immediately after completing a program the Division member involved is to complete the bottom section of form OF-270. This evaluation of the program and materials used will assist the Community Relations/Public Education Office in making any necessary improvements in the Division's overall fire safety education effort.
- 414.26 After the presenter completes the bottom section of the Program Request Form (pink copy), it shall be forwarded to the Community Relations Office.
- 414.28 Canceling Program Requests: As it further explained in Section 414.16, program requests assigned to the various fire stations can be canceled only after receiving the approval of the involved Deputy Chief. Once this approval has been obtained, the contact person listed on the program request form should be called immediately and arrangements made to reschedule the presentation.
- 414.30 If at all possible, programs should be rescheduled so as to fall on the same unit duty day as the originally scheduled program. Be sure that the Community Relations Office is informed of the new program date and of any other relevant information received so that the necessary visual aids and/or materials can be reserved.
- 414.32 If unable to reschedule programs on the same unit as that worked by the company originally receiving the assignment, have the people requesting the program contact the Community Relations Office at 645-7377, and they will complete the rescheduling arrangements.
- 414.34 Visual Aids: Unless other specific arrangements are made, visual aids used in program presentations will be picked up at the Community Relations Office on the day of the program ONLY. This equipment and/or materials must be returned to this office immediately following the presentation. It is the responsibility of the individual company officers to ensure that their personnel are properly trained in the operation of the multi-media equipment utilized in the fire safety education programs. *(Revised 12/31/15)*

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 414.36 It is also the responsibility of the company officer to see that the assigned programs are presented as scheduled, and to ensure that the required program materials are picked up and returned after the presentation. Any problems encountered with equipment or materials should be relayed to the Community Relations Office immediately.

DISPLAY OF NATIONAL COLORS

- 416.00 The National Colors shall be displayed daily throughout the year at each fire station in the city, except during periods of stormy, severe weather.
- 416.02 The Flag shall be raised on the staff by the on-coming unit immediately after roll call each morning, and shall be lowered at sundown each day. Exception: This shall not be required where the Flag is illuminated at night.
- 416.04 The following customs shall be adhered to with regard to handling and display of the National Colors: The Flag shall be treated with respect at all times. When raising the Flag, it shall first be unfurled, attached to the halyard, then raised quickly to the top of the staff. When lowering the Flag, it shall be lowered slowly and not allowed to touch the ground.
- 416.06 After lowering the Flag and removing it from the halyard, fold it in the approved triangular fashion and properly store.
- 416.08 Since the Flag symbolizes the nation, it shall normally be displayed at half-staff only in those cases appropriate to indicate that the nation mourns-customarily by proclamation of the President of the United States. Traditionally, however, the Mayor of the City may order city Flags and the National Colors to be flown at half-staff to mourn the loss of local dignitaries and/or fallen civil servants.
- 416.10 On Memorial Day, the Flag is flown at half-staff until 1200 hours, and then hoisted to the top of the staff until sundown, when it will be lowered as usual.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 416.12 In raising the Flag for half-staff, the Flag shall first be run to the top of the staff, and then lowered to half-staff. When taking the Flag down from the half-staff, the Flag shall first be run to the top of the staff, and then lowered. The Flag shall not be permitted to touch the ground at any time.
- 416.13 When the Flag is flown at half-staff, other flags flown below it shall be removed.
(Added 12/31/15)
- 416.14 When the Flag becomes unfit for service, whether from exposure or wear, it shall be replaced with a new Flag and returned to the Supply Office for proper disposal.
- 416.16 Members of the Division, while out in public in uniform, shall render the traditional military salute when the National Colors pass by, in accordance with the provisions of Section 324.00 of this manual "Flag Etiquette".

SNOW REMOVAL

- 418.00 All public walkways around Division fire stations where the public may have occasion to travel shall be maintained in a clean, safe condition, as clear of ice and snow as is reasonably possible.
- 418.02 All entrances and exits to stations and the walkways and other paths of travel leading to them shall also be kept clear of snow and ice.
- 418.04 Fire station ramps shall be maintained in a safe, passable condition so that any Division vehicles or apparatus needing to use such ramps may do so without difficulty.
- 418.06 It shall be the responsibility of the unit on duty to remove snow and ice whenever necessary, except for accumulations totaling 1 inch or less that may have occurred after 2200 hours. In this case the oncoming unit shall be responsible for removing the snow and/or ice immediately after the equipment check in the morning.
(Revised 12/31/15)

Chapter IV
Rules And Regulations Governing Fire Station Personnel

418.08 Station Captains shall inventory their supply of snow shovels and rock salt well in advance of the usual snowfall season, and shall order needed replacement supplies from the Division supply section.

OVERHEAD DOORS

420.00 All Division members assigned to fire stations or having occasion to visit or operate from Division stations or other buildings shall become completely familiar with the operation of all overhead doors in such stations or buildings. Fire station personnel shall be particularly aware of the procedures required to operate overhead doors manually, in the event of power failure or other malfunctions.

| 420.02 *(Deleted 12/31/15)*

| 420.04 *(Deleted 12/31/15)*

| 420.06 Members who are cleaning or performing other maintenance duties on or in the immediate vicinity of overhead doors in their stations shall first either turn off the electric supply to the door, or disconnect the "quick-connect" to the motor pulley. This will prevent the unexpected operation of overhead doors by apparatus or vehicles using automatic door openers, thereby reducing risk of injury to personnel and equipment. *(Revised 12/31/15)*

| 420.08 *(Deleted 12/31/15)*

420.10 Company Commanders and other Division members shall be responsible for ensuring that snow or ice is not allowed to accumulate between the overhead door weather stripping and the floor. A buildup of snow or ice under the door may result in damage to the door motor or drive belt, due to the door not being able to close completely, and may even prevent the door from opening in cases where the door freezes to the concrete floor.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

PARKING APPARATUS IN QUARTERS

- 422.00 All vehicles and apparatus belonging to the Division or assigned to the various fire stations shall be parked on the apparatus floor with the gear shift in "PARK" position.
- 422.02 Vehicles or apparatus not equipped with a parking gear shall be parked on the apparatus floor with the gear shift in "neutral" and the air brake engaged.
(Revised 12/31/15)
- 422.04 In-service emergency vehicles and/or apparatus shall be parked in such a way as to ensure safe, unobstructed, prompt response from the various stations and other Division facilities.
- 422.06 Any time that any fire apparatus or vehicle is being backed up, and especially when backing into quarters, at least one Division member shall be stationed a sufficient distance to the rear of the backing vehicle and in clear view of the driver to guard against accident or damage.
- 422.08 All Station Officers are responsible for insuring that, during the heating season, apparatus bay areas are heated to temperature level that does not exceed 72 degrees. The apparatus bay's weather stripping shall be inspected and repaired when necessary. Exterior passageway doors will be fitted with automatic closures. Officers will insure that all personnel are aware of, and operate the overhead doors in accordance with the provision of section 420.00 of the Systems Manual.
- 422.10 The automatic exhaust fans, in the bay areas, are important safety features. They were added to the stations to help ventilate vehicle exhaust. The automatic provision of the fans is not to be disabled or overridden in an effort to conserve heat. The timers are not to be adjusted by fire personnel. *(Revised 12/31/15)*

Chapter IV
Rules And Regulations Governing Fire Station Personnel

FIRE STATION EXPENSE FUND

- 424.00 Each Division fire station shall establish and maintain a station expense fund (or "house fund") for the purpose of making available to all Division members assigned, many of the day to day conveniences and certain necessities which are not provided by the city. Example would include outdoor cooking grills, televisions, radios, private telephones, newspapers, special cooking utensils, shoe polish, etc.
- 424.02 Funds to meet such expenses may be obtained through regular contributions from all members assigned to the various stations, or from profits derived from the sale of pop, candy or similar items. (NOTE: See Section 400.55 of this manual for further information regarding this subject.)
- 424.04 Station Captains will be completely responsible for the efficient administration of the station expense fund. In order to establish and maintain uniform guidelines throughout the Division, it shall be mandatory that the procedures set forth in this section are strictly followed.
- 424.06 Station Captains may delegate certain expense fund tasks such as collection, disbursement, and record keeping to other officers assigned to their station on each of the three units.
- 424.08 Station Captains will be responsible for seeing that the Financial Statement, Form RI-123, is accurately completed and made available to all members assigned to their station during the first week of each month.
- 424.10 Certain expense fund particulars will be determined by a majority vote of all members assigned to the station. These include:
1. The maximum amount of money which will be allowed to accumulate in the expense fund.
 2. The maximum amount of money which may be spent by an officer in charge of any unit, over and above normal, routine expenses, without requiring a vote of all station members.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

3. Any expenditure in excess of the maximum amount established in "2" above.
4. Guidelines establishing to whom flowers will be sent in the event of death or illness, and the amount of money to be dispersed for this purpose. *(Revised 12/31/15)*

424.12 Each fire station's expense fund and those items purchased with same will remain the property of that station. Officers and other members permanently transferred from a given station will not retain a vested interest in this fund. However, in certain situations, such as the permanent disbanding or relocation of an engine, ladder, rescue or EMS company, consideration may be given to the fair and equitable Division of current expense fund moneys. *(Revised 12/31/15)*

STATION LAUNDRY PROCEDURES

- 426.00 Station Captains shall be responsible for maintaining an efficient laundry exchange system in their respective stations, following the guidelines set forth in this section.
- 426.02 Under the provisions of the Division's laundry contract, each station will be issued a complement of sheets, bath towels, wash cloths, and pillow cases on the basis of one complete set for each member assigned to the station under the three-platoon system. A set will consist of two (2) sheets, one (1) pillow case, one (1) towel, and one (1) wash cloth. *(Revised 12/31/15)*
- 426.04 *(Deleted 12/31/15)*
- 426.06 Weekly deliveries of laundry will be made and the exact amount of laundry turned in on any given exchange date will be replaced and so logged at that time.
- 426.08 In addition to sheets, bath towels, wash cloths, and pillow cases, each station will receive a predetermined specific weekly allocation of dish towels. Any supplies of dish towels needed that are over and above this specific allocation will have to be obtained by the respective stations at their own expense. *(Revised 12/31/15)*

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 426.10 *(Deleted 12/31/15)*
- 426.12 The company commander shall attempt to determine the status of the Division issued linen, (lost, stolen, etc.) and forward the information through the chain of command.
(Revised 12/31/15)
- 426.14 The watchman shall gather up the soiled laundry, noting the number of items that are to be turned in for exchange. The station watchman shall check number of linen delivered to the station against the invoice. The watchman shall also check all linen for their proper markings, to ensure that no unauthorized linen is inadvertently delivered to the station. In all cases where unauthorized linen is turned in or delivered, a memo shall be submitted to the Administration Officer. *(Revised 12/31/15)*
- 426.16 It shall be each individual member's responsibility to leave his soiled laundry with the watchman whenever he is to be absent due to vacations or other absences that occur when the laundry is scheduled to be changed. *(Revised 12/31/15)*
- 426.18 *(Deleted 12/31/15)*
- 426.20 Company Commanders shall be responsible for any shortages and shall recover laundry from personnel separated from the Division.
- 426.22 Station Captains or their alternates shall make every attempt to resolve whatever difficulties that may arise with this laundry exchange system by contacting the supplier. In the event that problems develop and the suppliers are contacted, a memo describing the specifics of the situation shall be forwarded through channels to the Bureau of Administration. This shall be done in all cases, whether or not the particular problem is satisfactorily resolved as a result of this action.

AIR CASCADE SYSTEMS

- 428.00 All Division fire stations are equipped with air cascade systems for the purpose of maintaining proper levels of breathing air in the cylinders of the respiratory protective systems (RPS.) assigned to the various companies quartered therein.
- 428.02 In addition to the individual station cascade systems and two at the Fire Complex (Mask Repair Unit and Practical Skills Building), the Division maintains two 5,000 psi air supply vehicles located at Station 19. ISU-19 (Incident Support Unit) is used primarily for refilling depleted station cascade systems and responding to emergency incidents. This vehicle is manned by a specially trained firefighter working the standard twenty-four hour shift. A second air supply vehicle is used primarily as a back-up to ISU-19. This reserve vehicle should also be used for training fires and similar exercises requiring the re-supply of RPS cylinders. *(Revised 12/31/15)*
- 428.04 Numerous Division members from the various stations and districts have received special training and are certified in the operation of these air supply vehicles. Only those specific Division members who have been certified in their use are authorized to operate these air supply vehicles.
- 428.06 The high pressure (4500 PSI) air cascade systems consist of six (6) large air cylinders, together with all the necessary tubing and gauges. High pressure cascade system cylinders are painted yellow and each system has a regulator.
- (NOTE: Many stations housing EMS vehicles are also equipped with oxygen cascade systems; these cylinders are always green in color.)
- 428.08 Members are cautioned to use great care when operating any cascade system containing compressed air or oxygen, and are to be certain that the individual cylinders being filled are compatible with the cascade systems being utilized.

Chapter IV
Rules And Regulations Governing Fire Station Personnel

- 428.10 Company Officers are responsible for having their respective station's air cascade systems checked each morning prior to 0830 hours, to make sure they have enough air to fulfill their needs. Air cascade systems should be refilled when the fifth cylinder of a high pressure system does not have sufficient pressure to fill an RPS cylinder to above 4000 PSI.
- 428.12 When station cascade systems need to be refilled, company officers should contact ISU-19 at 74464 between the hours of 0730 and 0900. Calls received after this time may result in unavoidable delays caused by routing and scheduling conflicts. To order oxygen (green cylinders) or when problems regarding SCBA hardware occur, contact Mask Repair 75453 between the hours of 0730 and 1530. *(Revised 12/31/15)*
- 428.14 Members are reminded that individual breathing apparatus cylinders are to be carefully checked each morning after roll call, as well as after each use. If there is any doubt about the suitability of any cylinder to be recharged, it should be removed from service and sent to the mask repair section for further evaluation and testing. Indications of such unsuitability would most frequently be manifested by evidence of exposure to high heat or flame (e.g. paint turned to a brown or black color, decals charred or missing, gauge lens melted, etc.)
- 428.16 *(Deleted 12/31/15)*

PREVENTION INSPECTIONS POLICY - INTRODUCTION

500.00 *(Deleted 12/31/15)*

500.02 Purpose: This section shall list and define the general policies and procedures to be used in maintaining or improving compliance with established Fire Prevention Codes and Standards, and shall explain the purpose and scope of the inspections necessary to achieve and maintain the maximum fire prevention capability for the City of Columbus. More detailed and specific information concerning the Division's inspection policies and procedures is contained in the Fire Prevention Inspection Manual.

500.04 Inspection Jurisdiction and Frequency: Fire prevention inspections conducted by the Division of Fire shall encompass all areas within the corporate city limits and all city property located outside the city limits. Systematic inspections, as assigned by the Fire Prevention Bureau, will be conducted by emergency services fire inspectors in all business, commercial, industrial and institutional buildings at least once each year.

500.06 Types of Inspections: The various inspections conducted by Division fire inspectors shall include, but not be limited to:

Regular Company Inspections ("Building" Inspections)

Permit and License Inspections

High Rise Building Inspections

Familiarization Inspections

Residential Inspections

Special Inspections

Complaint and Request Inspections

Re-inspections

Each type of inspection listed will be defined in general terms in this section, and will be explained in greater detail in the Fire Prevention Inspection Manual and SOPs assigned to each Division fire station. Also included in this section will be information concerning school fire drills and public education programs. *(Revised 12/31/15)*

Chapter V
Division Inspection Policy

- 500.08 Company Inspection Districts: Fire Inspection Districts shall be assigned by the Chief of the Fire Prevention Bureau. They shall be distributed and assigned so as to divide the inspection workload among Division stations and companies as equitably as possible. The Fire Prevention Bureau will examine inspection workloads periodically to determine whether re-distribution of inspection districts is indicated. No re-distribution of, or changes to any inspection district shall be permitted, except as authorized by the Fire Prevention Bureau.
- 500.10 Inspection Procedures: Fire Prevention inspections shall be conducted in a systematic orderly fashion, and whenever possible, in the sequence assigned by the Fire Prevention Bureau. The conduct of inspections and maintenance of inspection records shall be as uniform as practical throughout the Division, in keeping with the provisions of this section and those listed in the Inspection Manual and applicable SOPs. *(Revised 12/31/15)*
- 500.12 Company Commanders shall be responsible for closely monitoring all aspects of Division inspection programs relating to their assigned inspection districts - including the required reports - and shall ensure that all inspections are performed as required on all properties assigned to their companies by the Fire Prevention Bureau. Assigned Fire Inspection Records (FIR) will not be returned to the FPB for any reason unless the indicated inspection has been conducted.
- 500.14 Battalion Chiefs shall monitor the inspection activities of all companies under their supervision, so as to ensure that reasonable progress is being made toward the completion of assigned programs.
- 500.16 It shall be the responsibility of the Fire Prevention Bureau to schedule all regular inspections, and to forward the required FIR to the appropriate company inspection districts.

REGULAR COMPANY INSPECTIONS

- 502.00 Regular Company or "building" inspections will be scheduled by the Fire Prevention Bureau in keeping with the time period coded into the computerized Building Inventory Record (BIR). *(Revised 12/31/15)*
- 502.02 Fire Inspection Records (FIR) will then be forwarded to the designated fire companies. All assigned inspections must be performed, and all required paper work processed, by the due date listed on the FIR (generally the last day of the particular month). *(Revised 12/31/15)*
- 502.04 Division members conducting fire prevention inspections of any type shall carry proper Division identification, wear the appropriate Division uniform, and be in strict compliance with the Division grooming code. Inspectors shall not be permitted to smoke or otherwise use tobacco products while conducting inspections.
- 502.06 When performing inspections scheduled by the Fire Prevention Bureau, members shall carry a copy of the Columbus Fire Code and the Fire Prevention Inspection Manual. Also, depending upon the particular inspection being conducted, inspectors may be required to carry a clipboard, flashlight, pens and pencils, blank BIR forms, fire prevention literature, permit applications and where necessary, a hard hat, safety glasses and similar required items.
- 502.08 Upon arrival at the premises to be inspected, inspectors shall present their identification, ask to be introduced to the person responsible for the occupancy, and describe the purpose of their visit.
- 502.10 If any Division inspector is refused permission to conduct an inspection, the following procedure should be adhered to:
- (1) Quietly leave the premises; do not argue or show displeasure with anyone involved.
 - (2) Report all details of the incident to your immediate supervisor, and also to the Fire Prevention Bureau in writing.

Chapter V
Division Inspection Policy

- (3) Keep the Fire Inspection Record for the involved premises at the station.

If necessary, the FPB shall take action to obtain a search warrant.

- 502.12 Normally, regular company inspections are to be conducted during the following listed hours:

Weekdays: 0900 to 1200 and 1300 to 1600

Saturdays: 0900 to 1200

Inspections are not to be performed on Sundays or Holidays except with the expressed approval of the appropriate Battalion Chief.

- 502.14 In keeping with the Division policy and procedures the mission of the Division must be met. This means that building inspections must be performed. Therefore, no member should expect any request for instant vacation to be granted by their Battalion Chief unless all companies in a particular battalion on the unit in question have completed all their assigned building inspections.

- 502.16 Members encountering inspection problems should contact the FPB inspector assigned to provide assistance to their battalion, or the Fire Prevention Bureau. All FPB inspectors are normally available for calls between the hours of 0800 - 0830 each week day at the Fire Prevention Bureau.

PERMIT AND LICENSE INSPECTIONS

- 504.00 Company inspectors may be called upon to perform annual permit and license inspections. Permit inspections are conducted during the months of May and June, while license inspections are conducted in December.
- 504.02 When conducting permit and/or license inspections, company inspectors will inspect only for the conditions required by the specific permit/license. It will not be necessary to perform an inspection of the entire occupancy.

Chapter V
Division Inspection Policy

504.04 Company Inspectors shall not be involved in the collection of any permit or license fees. Refer to the Inspection Manual for further information concerning permit and license inspections.

HIGH RISE BUILDING INSPECTIONS

- 506.00 Every building within the inspection jurisdiction of the Division of Fire which also falls into the category of a "High Rise Building", shall have a Division officer assigned to it. The primary concern of each officer so assigned will be to ensure ongoing compliance with the Division's High Rise Program.
- 506.02 Division High Rise Officers will receive computer generated FIR for their respective buildings from the Fire Prevention Bureau four (4) times per year. Inspections conducted by High Rise Officers upon receipt of these FIR will primarily involve meeting with each building's Certified Fire Safety Director, to ensure that C.C. Sections 2509.05 and 2509.06 are being followed, and to ensure that all of the building's required means of egress are being properly maintained.
- 506.04 Company Inspectors shall conduct regular company inspections of the entire high rise building and all tenant spaces contained therein at least once each year, as assigned by the Fire Prevention Bureau.
- 506.06 Assignment of officers to new high rise buildings will be made while the buildings are under construction, so as to ensure that the Division High Rise Program is in place when the buildings are ready for occupancy.
- 506.08 Assignments of officers to existing buildings will be made by the Chief as needed to ensure the continuation of the Division's High Rise Program.

Chapter V
Division Inspection Policy

FAMILIARIZATION INSPECTIONS

- 508.00 Familiarization or pre-fire planning inspections of high risk or "target hazard" occupancies will be conducted periodically by Division fire companies.
- 508.02 Normally, familiarization inspections will be conducted in a given company's first alarm running district, and may or may not coincide with the fire inspection district of the same company. Also, when so directed by the Emergency Services Deputy Chief, familiarization inspections may be conducted in 2nd alarm running districts.
- 508.04 *(Deleted 12/31/15)*

RESIDENTIAL INSPECTIONS

- 510.00 Residential or "home" inspections will be performed only when requested by a homeowner or resident, or at the direction of the Battalion Chief or Emergency Services Deputy Chief. *(Revised 12/31/15)*
- 510.02 - 510.16 *(Deleted 12/31/15)*

SPECIAL INSPECTIONS

- 512.00 Special Inspections are defined as inspections conducted in conjunction with some special Division program. An example would be the annual Christmas Inspections.
- 512.02 *(Deleted 12/31/15)*

COMPLAINT AND REQUEST INSPECTIONS

- 514.00 Complaint inspections shall be assigned and conducted in response to all reports advising the Fire Division of a potentially hazardous condition or violation of the Fire Code.
- 514.02 - 514.08 *(Deleted 12/31/15)*

RE-INSPECTIONS

516.00 Whenever code violations are found during the course of an inspection, a re-inspection will be scheduled by the company inspector making the original inspection. The purpose of the re-inspection is to ensure that the violation has been corrected.

516.02 *(Deleted 12/31/15)*

516.04 *(Deleted 12/31/15)*

SCHOOL DRILL FIRE PROCEDURES

518.00 This section consists of information and guidelines designed to assist Division members who are assigned the responsibility of conducting school fire drills.

518.02 *(Deleted 12/31/15)*

518.04 *(Deleted 12/31/15)*

518.06 School fire drills shall be conducted in accordance with current SOPs at least once a year, preferably during October. Avoid conducting a drill during the lunch hours between 10:45 and 12:45. *(Revised 12/31/15)*

518.08 - 518.16 *(Deleted 12/31/15)*

PUBLIC EDUCATION PROGRAMS

520.00 Public Education Programs will be scheduled by the Community Relations Office.

520.02 The Division's Program Request Form (OF-270) will be completed by the Community Relations Office. The white copy of this request form will be forwarded to the Emergency Services Deputy Chief, for his/her files. The yellow and pink copies will be sent to the Battalion Chief in whose district where the group is located. The gold copy will be kept by Community Relations for their records.

- 520.04 After the proper company receives the request form from the Battalion Chief, confirmation of the requested program shall be made. This must be done by the date indicated on the program request. After confirming the program, return the yellow copy of the OF-270 to Community Relations, but retain the pink copy until after the program has been presented.
- 520.08 Requested and confirmed programs can only be canceled after permission to do so has been obtained from the appropriate Battalion Chief who must first obtain approval from ES-2 before allowing a cancellation of a scheduled Community Relations program. If a cancellation is necessary, get in touch with the contact person listed on the request form as soon as possible, and make arrangements to reschedule the program. Whenever possible, reschedule for a duty day that your unit works. Have the person requesting the program contact the Community Relations office for other rescheduling arrangements.
- 520.10 Members having any questions, suggestions or comments concerning the Division's Fire Safety Education Programs should call the Office of Community Relations at 4634 or 645-7377.

FIRE HYDRANT INSPECTIONS AND PROCEDURES

540.00 – 540.120 *(Moved to 640.00 – 640.120 – 12/31/15)*

JUVENILE FIRESETTER PROGRAM

- 550.00 Introduction: The Division of Fire Juvenile Firesetter Program is designed to identify and work with children who frequently play with lighters, matches and various other common fire sources. It is also set up to provide individualized fire safety education services to children who are responsible for actually starting fires in their own homes and neighborhoods. These goals are accomplished for the most part by trained Division personnel who teach basic fire safety practices to both the children and their parents.
- 550.02 While fire safety education is the most basic element in the Juvenile Firesetter Program, the interview process is also very important. This component of the program allows for the gathering of information about a child's environment and their fire play or fire setting problems. Once acquired, such information is evaluated in order to categorize the child's motivation for fire play into "curiosity" or "troubled" classifications. In either case, however, many psychologists agree that chronic "fire-setting" is a symptom of other emotional disturbances, and not necessarily the single behavioral problem that many parents believe it to be.
- 550.04 Division members who are interested in volunteering for the Juvenile Firesetter Program shall submit an Official Intra-Divisional Communication (Form RT-154), requesting that they be included in an upcoming training session. This request shall be addressed to the Fire Chief, and processed through proper channels. Included in this communication will be the requesting member's full name and Division I. D. number, seniority number, current assignment, and unit designation. (Rev 12/31/15)
- 550.06 Included in the approximately 40-hours of on-duty Firesetter Educator Training will be basic instruction on the program components and extensive role-playing exercises. In addition, all personnel involved in the Juvenile Firesetter Program will be required to participate in continuing education sessions at least once every six months. All JFP training shall be conducted in an on duty status.
- 550.10 Firesetter Referral Process: The Juvenile Firesetter Program is designed to receive referral or "intake" information from several sources. In this way the "at risk"

Chapter V
Division Inspection Policy

population of Juvenile Firesetters can be more clearly identified and, hopefully, given needed assistance. Currently, initial intake information is received by way of the following:

1. Direct parent requesting that their child be scheduled to participate in the program to call 614-645-7641 ext. 74142 or email, Juvenile Fire Setters at RScott@Columbus.gov)
2. Information from fire incident reports and/or fire department personnel.
3. Referrals to the program coordinator from Franklin County Children Services (FCCS).
4. Referrals from various mental health professionals.
5. Referrals from the Franklin County Juvenile Court. Family participation shall be mandatory in these cases.
6. Division Fire Investigators. *(Revised 12/31/15)*

550.12 Once a child becomes involved in the Juvenile Firesetter Program and is scheduled to work with a Firesetter Educator, the initial interview process will be conducted by the JFP Coordinator. An evaluation of the results of this interview will indicate whether the child needs only educational intervention or whether referral to another agency is required (for instance, FCCS, Mental Health Professionals, or other juvenile agencies). *(Revised 12/31/15)*

550.14 Scheduling of Educational Sessions: An Individualized Education Plan (IEP) shall be developed by the JFP Coordinator and all educational sessions shall be scheduled and conducted by the JFP Coordinator or his appropriately trained designee. Once the IEP has been completed the JFP Coordinator will notify the referring individual(s) of the child's successful completion of the program. *(Revised 12/31/15)*

550.16 General Information: Prevention efforts involved in the Juvenile Firesetter Program are classified as "primary" and "secondary". The primary prevention efforts are focused toward providing fire safety education for children before a fire occurs. The secondary prevention efforts are focused on children who have actually been

Chapter V
Division Inspection Policy

involved in starting fires (these could be "accidental" fires as well as intentionally set fires).

550.18 Division personnel receiving questions concerning how to enroll children in the Juvenile Firesetter Program should instruct the parents - or other responsible adult - to call the program coordinator at 614-724-0936 or email, Juvenile Fire Setters at RScott@Columbus.gov). An exception to this procedure might be where the necessity for an investigation by the Fire Investigations Unit is indicated. In addition, any Division member who has completed the Juvenile Firesetter Program training class can complete the proper intake form, and forward same to the JFP Coordinator in the Fire Investigations Unit. *(Revised 12/31/15)*

560.00 *(Deleted 12/31/15)*

Chapter V I
Division Maintenance Policies

Section 602.00	Hose and Equipment Identification
Section 604.00	Apparatus
Section 606.00	Supplementary Apparatus
Section 608.00	Tools and Equipment
Section 610.00	Power Tools and Equipment
Section 612.00	Boats, Motors and Equipment
Section 614.00	Fire Hose
Section 616.00	Salvage Covers
Section 618.00	Ropes
Section 622.00	Radiation Instruments
Section 640.00	Fire Hydrant Inspections and Procedures

HOSE AND EQUIPMENT IDENTIFICATION

- 602.00 All tools, equipment and fire hose assigned to the various companies and stations of the Division shall be marked for identification in keeping with the provisions of this section.
- 602.04 All tools and equipment powered by internal combustion engines whether assigned to vehicles, stations or other Division sections shall be assigned an individual brass tag number. This includes such items as outboard motors, gasoline powered saws, power lawnmowers, etc.

APPARATUS EQUIPMENT MARKING

- 602.08 All tools and equipment, including fire hose and equipment powered by internal combustion engines shall be marked according to the numerical company designation. *(Revised 12/31/15)*
- 602.10 All tools and equipment shall be marked and identified using the appropriate code letter and company number combination. Designated code letters are as follows:

Battalion Chiefs' Car	BN
Engine	E
Ladder	L
Rescue	R
Rescue Support Unit	RSU
Boat	B
EMS Supervisor	EMS
Medic	M
HazMat Vehicle	HM
Incident Support Unit	ISU
Air Crash	AC
Foam Trailer	FT
Tanker	T
Station Car	SC

(Revised 12/31/15)

- 602.12 Most company level identification markings will be applied by using authorized marking pens with permanent type ink as issued by the Division supply section.

SUPPLEMENTARY APPARATUS

- 602.14 Supplementary or "extra" apparatus will be identified as follows:
1. Supplementary Engines: Mark with an "XE" followed by the number of the station to which such engine is assigned.
 2. Supplementary Ladders: Mark with the letters "XL" followed by the number of the station to which the ladder is assigned.
 3. Other Supplementary Apparatus: Mark with an "X" followed by the appropriate code letter(s) as listed in Section 602.10 (e.g. a supplementary rescue stationed at Station 4 would be marked "XR-4").

HOSE MARKING DATA

- 602.16 The size and placement of identifying company numbers used on hose shall be uniform throughout the Division.
- 602.18 Each section of hose shall be marked so that the base of company number is parallel to the horizontal plane of the section of hose, on both sides of the hose jacket.
- 602.20 Company markings shall be applied so that the finished number is approximately fifteen inches (15") from the male coupling, with the coupling being to the right of the number. For hose sections having no designated male or female coupling, the number shall be placed approximately fifteen inches from one end or the other (on both sides of the hose jacket) with the nearest coupling being to the right of the number.
- 602.22 The size of the numbers used on the various sizes of hose shall be the height of the hose when hose is laid flat and shall be 1/4 inch in width.

TOOL AND EQUIPMENT MARKING DATA

- 602.24 All ladders, tools, and other equipment assigned to the various companies shall be appropriately marked by using the authorized marking pens. In order to properly mark those items which are black or have other dark surfaces, it shall be necessary to paint a black background (using aluminum paint) on the area in which the identifying number is to be installed. Due to the non-porous surfaces of some items of this type, vigorous scrubbing or cleaning may remove the markings, thereby necessitating the periodic renewal of such markings. When marking tools and equipment, care shall be taken so as not to obscure the permanent brass tag number. The size of the company numbers marked on tools and equipment shall be such that they are readily visible. The style of each numeral shall conform to that of the authorized sample.
- 602.26 Ladders will be marked on the outside of both beams, approximately eighteen inches (18") above the butt of the ladder.
- 602.28 All other tools and fittings shall be marked where plainly visible in an area subject to the least amount of wear.

APPARATUS-MAINTENANCE PROCEDURES

- 604.00 Company Commanders and other Division members' assigned Division vehicles shall be responsible for the proper care and maintenance of such vehicles.
- 604.02 Care and maintenance of Division vehicles shall be performed on two basic levels: fire station maintenance and shop level maintenance. General guidelines concerning the two levels are included in the following paragraphs. In situations where questions arise as to who should perform specific duties or operations, appropriate communications shall be forwarded through channels to the Chief of the Division, requesting clarification of any disputed procedure.

- 604.04 Of major importance at the fire station level is a regular program of vehicle inspection and preventive maintenance. Included in station level procedures are activities such as minor repairs and adjustments, lubrication, bulb replacement, and general cleaning tasks.
- 604.06 Shop level maintenance will include repair, replacement, and adjustment procedures of a major nature or requiring knowledge and/or equipment not normally available at the fire station level.
- 604.08 In keeping with the provisions of this section, regular or temporarily assigned drivers of Division vehicles shall be responsible, under the direction of their immediate supervisors, for the proper care, station level maintenance, and operational readiness of their vehicles.
- 604.12 The drivers of vehicles shall be required to become familiar with - and maintain a working knowledge of - the various systems, components, lubrication points, reservoir fill points (hydraulic oil, fuel, and water), battery, servicing requirements, and other pertinent operating characteristics of their respective vehicles. Manuals and information sheets provided by the apparatus manufacturers, the Training Bureau and the Support Services Bureau, together with Division-wide preventive maintenance and minor repair instruction programs are to be followed in the performance of station level maintenance. The driver/operator should be able to anticipate and recognize any potential mechanical problems. *(Revised 12/31/15)*

604.14 At the beginning of each work shift, immediately after roll call, the drivers or operators of Division Apparatus (i.e., engines, ladders, rescues, etc.), with the aid of other company members, shall inspect the apparatus in order to ensure its operational readiness. The following items are to be checked, and proper entries made in the apparatus log book;

- a. Fuel Tanks: Fuel tanks shall be maintained above 1/2 full throughout the work shift.
- b. Oil Level: Add proper oil when necessary to maintain level within the “safe” range.
- c. Radiator: Maintain approximately one inch above top of core tubes. Use a vehicle manufacturer recommended coolant or coolant mixture.
- d. Batteries: Maintain water level above plates. Always use battery syringe when adding water. Never over-fill and keep the top wiped clean. Terminals shall be kept clean and tight.
- e. Tires: Conduct visual check.
- f. Brake Air Tanks: Build pressure when necessary. Bleed water from tanks daily during freezing weather.
- g. Water Tanks: Should be full.
- h. Lights: Check all emergency and service lights. *(Revised 12/31/15)*

604.15 On Monday of each week, drivers or operators of all Division vehicles except chief's cars, bureau and station trucks, and emergency medical and rescue service vehicles shall perform a visual check of the underside of their assigned vehicles. Other company members will assist when necessary. Such things as loose fittings; broken or damaged lines; leaks involving water, fuel, or lubricants; frayed or broken wires; or any other readily apparent condition shall be reported to the proper supervisor immediately and repaired, without delay, by the driver or operator if possible, as shall be determined by the officer in charge. Enter all such repairs in the vehicle's apparatus log book. If the repair cannot be accomplished effectively at the station level, the Maintenance Shop shall be contacted.

- 604.16 Officers in charge of all Division vehicles except chief's cars, bureau and station cars, and emergency medical service vehicles, shall have a visual check of the underside of their assigned apparatus performed each Monday. Items such as loose fittings, broken or damaged lines, leaks involving fuel, water or lubricants, frayed or damaged wires, or any other readily apparent conditions should be repaired at the station level or referred to the Maintenance Shop as conditions warrant. All problems and repairs shall be recorded in the apparatus log book.
- 604.18 After each fire or emergency run, vehicles shall be checked for any damage or malfunction that might prevent a safe response on subsequent emergency runs. When conducting the check, particular attention should be given those items mentioned in the preceding paragraphs.
- 604.20 The driver or operator shall be aware of all regularly scheduled preventive maintenance needs, and shall advise his/her immediate superior whenever equipment or supplies are needed. Drivers or other Division members responsible for Division vehicles shall advise their immediate superiors when shop level maintenance is needed. Personnel who use Division vehicles on a regular basis for daytime duties and activities shall schedule such vehicles for routine maintenance procedures as needed.

604.22 Some of the regularly scheduled tests and preventive maintenance operations to be performed at the station level are listed below. All operational tests performed on a regular basis shall be done on Monday.

- a. Check air pressure in tires (weekly).
- b. Check wheel lug bolts for tightness (weekly - notify Maintenance Shop if loose)
- c. Test parallel/series valve and governor or relief valve (weekly).
- d. Check priming pump oil level (weekly and after each use).
- e. Lubricate intake and outlet valves (monthly).
- f. Oil outlet and drain valve linkage systems (monthly).
- g. Operate and climb aerial ladder (weekly).
- h. Clean ladder cable and fittings (bi-monthly).
- i. Lubricate ladder cable and fittings (bi-monthly).
- j. Lubricate turntable and fifth wheel (bi-monthly)
- k. Lubricate spring locks and stabilizing jacks (bi-monthly).
- l. Clean contact rings under turntable (bi-monthly).
- m. Check hydraulic fluid reservoirs (weekly).
- n. Perform other similar measures as prescribed by manufacturer's manuals and Division policies. *(Revised 12/31/15)*

604.24 Whenever shop level maintenance is needed or the company commander is unsure of the level of maintenance needed, the Maintenance Shop shall be contacted and the nature of the problem described. At this point, a determination will be made as to whether the needed repairs are classified as routine (minor) or emergency (major). For problems involving apparatus when the nature of the problem is known, the reporting member shall give all pertinent information to the Maintenance Shop supervisor.

604.26 When the status and priority of needed repairs have been determined by authorized personnel, necessary arrangements shall be made to have a mechanic work on the vehicle in quarters, or an appointment shall be set up to have the work done at the Maintenance Shop. All non-emergency or routine (minor) work, such as servicing chief's cars, shall be performed at the shop by appointment.

Chapter V I
Division Maintenance Policies

- 604.28 Any time the Maintenance Shop is contacted to schedule needed repairs or preventive maintenance, and this fact shall be recorded and retained in the apparatus log book. Company commanders and vehicle drivers shall be responsible for the proper use of the apparatus log book.
- 604.30 Whenever maintenance or repair work is being done at the fire station by shop personnel, the driver or other station personnel shall be available to assist the mechanic as needed. When maintenance or repair work is being performed at the Maintenance Shop all personnel shall wait in the designated waiting area unless the mechanic requests the assistance of one or more members.
- 604.32 After any work has been performed by maintenance personnel, the driver and/or member responsible for the vehicle shall inspect the vehicle against the shop work order. They shall ensure that the vehicle is adequately repaired and ready for service.
- 604.34 When necessary, the inspection mentioned in the above paragraph shall include a performance or road test in the maintenance shop area or other convenient location.
- 604.35 Upon completion of repair or maintenance work, appropriate entries shall be made in the Apparatus Log concerning the work that was performed and any other pertinent information regarding the status of the vehicle.

- 604.36 Regularly scheduled oil changes, filter replacements, and general chassis lubrication of all Division vehicles shall be performed according to the following schedule:

Diesel Powered Apparatus:

Oil and Filter Change..... 100 hours
Fuel Filter Change..... as needed
Lubrication..... monthly

NOTE: For those diesel engines not equipped with engine-hour meters, the odometer reading shall be used, converting each 4000 engine miles to 100 engine hours.

Gasoline Powered Apparatus:

Oil and Filter Change..... 4,000 road miles
Lubrication.....
According to manufacturer's recommendation -usually with the oil change

- 604.38 Specialized vehicles may require additional routine or preventive maintenance care at the station level according to the particular requirements established for such vehicles. Company commanders shall ensure that the required care and maintenance activities are provided for any specialized vehicles under their supervision.

- 604.40 Vehicle engine temperatures should be maintained within the range of 160 to 190 degrees F for gasoline fueled engines, and within the range of 190 to 212 degrees F for diesel powered engines. If these optimum temperatures cannot be maintained, either by using the auxiliary cooler or radiator fill valve, the Maintenance Shop shall be notified.

- 604.42 *(Deleted 12/31/15)*

- 604.44 On-duty company commanders and bureau heads shall ensure that, on the 20th day of each month, the information necessary to accurately compile the monthly mileage report is obtained for each vehicle permanently assigned to their station, including supplementary apparatus.
- 604.46 Fuel credit cards used by the Division of Fire are issued through Fleet Management and are to be used for the purchase of either gasoline or diesel fuel. Other needed items or services shall be provided by the Maintenance Shop.
- 604.47 Whenever possible, the following priorities shall be adhered to when deciding where to obtain fuel:
1. Division of Fire fuel tanks
 2. Fleet Management service station at Groves Road
 3. Fleet fuel card facilities – self-service only
- Consideration should be given to the number of miles that must be traveled to obtain fuel. Self-service pumps should always be used. Diesel powered apparatus should be fueled from the fire station fuel tanks whenever possible. *(Revised 12/31/15)*
- 604.48 *(Deleted 12/31/15)*

OUT-OF-TOWN VEHICLE REPAIRS

- 604.50 When vehicle repairs are required on a Division vehicle being used by a member traveling out-of-town, the member must pay for the repairs with his or her own funds. The member will be reimbursed for the cost of the repairs after returning to the City and submitting the appropriate documentation through the chain of command. The documentation should include a memo to the Chief, explaining the circumstances in detail and requesting reimbursement. The memo should be attached to a paid receipt showing the cost of the repairs.
- For the purposes of this policy, “out-of-town” is defined as any area outside of Franklin County and the counties immediately adjacent to Franklin County. Members traveling out-of-town in Division vehicles are expected to understand this policy before traveling.

SUPPLEMENTARY APPARATUS - MAINTENANCE AND PROCEDURES

- 606.00 The supplementary apparatus of the Division of Fire serves two very important functions: initially, this apparatus must be available for use as replacement apparatus when the regular first-line apparatus is out of service; in addition, this apparatus must be maintained in a constant state of readiness for use in the event of large scale fire or other disaster.
- 606.02 Supplementary apparatus may be used either as a substitute for regularly assigned apparatus or as an additional resource to be used by call-in personnel.
- 606.04 It is essential that all supplementary apparatus receive proper care and maintenance and be fully outfitted with a full complement of tools and equipment. Station Captains and other officers in charge of the various units shall, under the supervision of their Battalion Chief, ensure that all supplementary apparatus assigned to their respective stations is continually checked and maintained.
- 606.06 An equipment check will be performed on all supplementary apparatus daily. This is the responsibility of personnel assigned to the station or bureau to which such apparatus is assigned.
- 606.08 There shall be three (3) equipment lists maintained for each piece of supplementary apparatus. One shall be kept on the apparatus, one shall be kept on file at the station or bureau to which the apparatus is assigned, and an informational copy shall be maintained on file at the Tools and Equipment Office.
- 606.10 Any requests for changes in the complement of equipment carried on the supplementary apparatus shall be forwarded through channels to the Support Services Bureau Head. Information concerning any approved changes shall be made available to all personnel, and equipment lists will then be revised as necessary.

(Revised 12/31/15)

- 606.12 Motors on supplementary apparatus shall be started and run for thirty (30) minutes each week. The Station Captain should establish a regularly scheduled time for this requirement. The pressure governor or relief valve of supplementary engines should be tested at this time. *(Revised 12/31/15)*
- 606.16 The Fire Maintenance Liaison Office (FMLO) shall maintain an up-to-date list of each piece of supplementary apparatus and its location. Whenever any supplementary apparatus is put into service, either as first-line or extra apparatus, and whenever such apparatus is moved from its regularly assigned location to another station, office, bureau, or shop for any reason, the FMLO and Company Commander at the regularly assigned location shall be notified of such action immediately. The FMLO shall also be notified when the apparatus is returned to its regularly assigned location.
- For example:
- Repairs to E-1 are complete and following change-over, the crew delivers the supplementary apparatus XE-18 to Fleet Maintenance. The FMLO and Station 18 shall be notified. *(Revised 12/31/15)*
- 606.18 Station Captains shall prepare and maintain apparatus log book for each piece of supplementary apparatus assigned to their care. These apparatus log books will be uniform throughout the Division and may be ordered from the Supply Section. The vehicle brass tag number and any other particular identifying number shall be placed on the front cover of the log book.
- 606.20 The supplementary apparatus log book shall be divided into three main sections as listed below, and shall include information pertinent to each section as is explained in the following paragraphs. The three sections are: (1) Log Section, (2) Hose Section, and (3) Maintenance Section. *(Revised 12/31/15)*

606.22 All entries placed in any section of the log book will list the following information:
(1) the date of each entry (left hand column), (2) sufficient information to explain each entry, and (3) the station or bureau, unit, rank, and signature of the person making each entry. *(Revised 12/31/15)*

606.24 Officers or other members who neglect to properly complete the required entries in the supplementary apparatus log book will be held accountable for any subsequently discovered discrepancies. *(Revised 12/31/15)*

SUPPLEMENTARY APPARATUS - LOG SECTION

606.26 Any information relative to movement of apparatus or status of equipment should be listed in this section. The daily equipment check shall be listed, recording the date, name of person making check, and list of any equipment missing or in need of replacement. If there is no equipment missing, this fact shall be stated in the entry.

Whenever it is found that there is any equipment missing, and such equipment has not been listed as missing on previous entries, an attempt to locate the missing equipment shall be made by the person noticing the shortage. If the missing equipment cannot be located, the Station Captain, or his alternate, who is responsible for the apparatus shall be notified.

This officer shall complete and submit Form ET-68, "Report of Equipment. Lost" and shall also initiate a request for replacement of the items or items involved by sending an Intra-Divisional Communication through the normal channels of communication to the supply office. Included with the information required to be listed on Form ET-68 shall be the name and rank of the last person to sign the record book prior to the discovery that the equipment was missing. This member shall be held responsible for the missing equipment and, if neglect or misuse is indicated, may be subject to disciplinary measures.

606.28 Also listed in the Log Section will be any information or data pertinent to the movement or reassignment of the apparatus, regardless of whether such movement is of a permanent or temporary nature. Anytime supplementary apparatus is placed in

service or is moved or reassigned from its regular station or bureau, the officer or other Division member assuming responsibility for such apparatus shall check the present complement of equipment against the authorized equipment list and make the appropriate entry in the log book. Another complete equipment check shall be performed when the apparatus is returned to its regularly assigned location. *(Revised 12/31/15)*

SUPPLEMENTARY APPARATUS - HOSE SECTION

- 606.30 All hose permanently assigned to the supplementary apparatus shall be listed in alphabetical and numerical order, beginning with the largest hose, as listed on Hose Form EL-66. Hose sent into the shop to be repaired, replaced, condemned, etc., shall be listed both in the record book and in the back of the company journal on Form EL-66. The "Hose Load Card", Form EI-52, shall be prepared in duplicate and properly revised each time that the sequence of the hose on the apparatus is changed. One copy of this form shall be kept in a prominent location on the apparatus for use by the pump operator, and the duplicate copy shall be kept in the apparatus log book.
- 606.32 Hose assigned to supplementary apparatus should be properly marked and should be kept separate from the regular hose inventory carried at the station to which the apparatus is permanently or temporarily assigned.

If it becomes necessary to use hose from the station inventory to complete the required hose load on a piece of supplementary apparatus, such hose shall be removed from the apparatus when it is reassigned to another station or location.

SUPPLEMENTARY APPARATUS - MAINTENANCE SECTION

- 606.34 All maintenance work and repairs, whether major or minor in nature, shall be recorded in the Maintenance Section of the log book. This shall include a listing of all oil changes, lubrications, etc., together with mileage information and any other data which may be needed to properly complete related periodic reports. Proper signatures will be entered as necessary, either by the officer responsible for having any minor repairs or routine maintenance performed, or by maintenance personnel completing any major repairs.

- 606.36 Whenever any supplementary apparatus is assigned to locations such as the Training Academy or Logistics Center, the Division member delivering the apparatus shall conduct a thorough equipment check immediately prior to releasing the vehicle to the jurisdiction of the bureau involved. Any missing or damaged tools or equipment will be properly recorded in the vehicle log book at this time. Another thorough check will be made when the apparatus is picked up from such bureau by the Division member picking it up, and any shortages will be noted and reported through channels to the Chief.
- 606.38 Members charged with the security of the bureau or office to which apparatus has been delivered shall be required to take those precautions necessary to ensure that the hose, tools, and other equipment assigned to such apparatus is safeguarded.
- 606.40 When supplementary apparatus is to be taken or sent to the shop to undergo repairs, and it is expected that it will remain there for a period of time exceeding 24 hours, all equipment assigned to such apparatus including hose fittings, shall be removed from the apparatus and kept at the station to which it is assigned. Only the log book of the vehicle being repaired will remain with the apparatus. *(Revised 12/31/15)*
- 606.48 Company Commanders shall be responsible for ensuring that all apparatus assigned to a particular station or bureau, temporarily assigned to another station or bureau is returned to its permanent place of storage in a clean, well maintained condition. All hose, ladders, tools, equipment, and any other items assigned to such vehicles or apparatus shall be intact and properly accounted for.

TOOLS AND EQUIPMENT - MAINTENANCE AND PROCEDURES

- 608.00 General maintenance of tools and equipment assigned to the various companies of the Division shall be performed by company members under the direction of the Company Commander.
- 608.02 At the beginning of each shift, immediately after roll call, company members shall check all tools and equipment for presence, cleanliness, and ability to perform the functions intended.

- 608.04 During this equipment check, special attention should be given those tools that are used infrequently and therefore do not receive the constant check of use. Members should also take note of any improper storage practices, and make the necessary corrections at this time.
- 608.06 After completing the daily equipment check, appropriate entries shall be made in the company journal with regard to the status of the equipment. Missing or damaged tools or equipment shall be listed, and any other pertinent information concerning such equipment shall be recorded and, if necessary, appropriate reports submitted. The failure or damage of tools, equipment, or hose requires that a letter of explanation be initiated by the Company Commander and sent through the proper channels to the Chief.
- 608.08 If there are no missing items, an appropriate notation to this effect shall be entered in the company journal.
- 608.10 Before leaving the scene of a fire or other emergency where any tools or other items of equipment were either used or removed from the apparatus, a complete check of the equipment shall be made. If possible, any missing equipment will be located before returning to quarters.
- 608.12 As soon as practical after returning to quarters, all equipment shall be returned to a state of operational readiness. Particular attention shall be given to the respiratory protective breathing apparatus systems, to ensure that such equipment is ready to be used in subsequent emergency situations.
- 608.16 It is the policy of the Division of Fire that all respiratory protective breathing apparatus systems be thoroughly checked and cleaned daily and after each use. These systems must be handled carefully; when removed after use at a fire or emergency scene, they shall be returned to their proper places on the apparatus - not thrown or placed on the ground or in a corner.

- 606.18 Whenever possible, respiratory protective systems will be returned to a condition of operational readiness (cylinders changed, facepieces cleaned, etc.) before leaving the fire or emergency scene to return to quarters.
- 608.20 Tools or other items of equipment not meeting firefighting standards, whether found to be in such condition during the course of a routine equipment check or determined by any other means, shall be either, cleaned, lubricated, or repaired as necessary. If conditions warrant they shall be tagged and sent to Tools and Equipment for repair or replacement.
- 608.22 All gasoline powered tools and equipment shall be started and run outdoors weekly until the individual piece of equipment reaches its operating temperature. This should normally be accomplished within ten to twenty minutes. Equipment such as generators, saws, exhaust fans, electrical cords, etc., shall be maintained according to the specific requirements of each piece of equipment. *(Revised 12/31/15)*
- 608.24 Nozzles should be checked frequently and should be handled carefully. Nozzles are precision instruments and should not be dropped, dragged, or otherwise mishandled. *(Revised 12/31/15)*
- 608.26 Ladders shall be inspected regularly and after each use.
- 608.28 Ropes shall be protected from moisture and shall not be stored with sharp tools or objects. Ropes shall be checked after each use, and a thorough inspection of all ropes shall be performed every six months, as is further explained in Section 618.00 of this manual.

- 608.30 In general, maintenance rules for all Division tools and equipment are as follows:
1. Maintain vehicle or individual brass tag number and readily visible company identification numbers on each tool or item of equipment.
 2. Keep all unpainted surfaces free of rust.
 3. Keep all moving parts lightly oiled.
 4. Clean and repaint appropriate tools when necessary.
 5. Keep chromed tools free of dirt and grease.
 6. Attempt to use the proper tool or item of equipment for the task to be performed.

POWER TOOLS AND EQUIPMENT - MAINTENANCE AND PROCEDURES

- 610.00 The power tools and equipment used in the Division of Fire today are complicated, expensive, and easily damaged. Constant care and maintenance is required to keep these tools ready for effective use.
- 610.02 Proper storage of power tools on the apparatus is of prime importance. Company officers and other Division members assigned to be in charge of Division apparatus shall ensure that all power tools are stored securely in their proper compartments.
- 610.04 All members shall be familiar with the use and operation of all power tools carried on the apparatus assigned to their station including rescue companies. Many specialized tools require more knowledge and skill to operate than do most standard tools carried on engine and ladder companies.
- 610.06 Power tools requiring weekly scheduled tests and preventive maintenance operations which are performed at the station level shall normally be scheduled for such tests and operations on Monday.

BOATS, BOAT MOTORS AND EQUIPMENT MAINTENANCE AND PROCEDURES

- 612.00 The following procedure has been established to ensure that all boats, motors, and items of water rescue equipment are maintained in a state of readiness.
- 612.02 The responsibility for maintaining the boats and equipment will be that of the station to which they are assigned.
- 612.04 Each boat will be assigned a log book which will consist of an equipment list, tool and equipment status (RL-135), weekly check forms, and a record of maintenance.
- 612.06 All equipment checks and motor run tests will be performed on Wednesday of each week by the personnel assigned at the responsible station. Personnel shall check the condition of the trailer, the trailer tires, and proper inflation of the inflatable boats.
- 612.10 When boat, trailer, or equipment is found to be in need of repair, Tools and Equipment shall be notified. If repairs are to be made to the motor, Tools and Equipment will make the necessary arrangements to have the motor repaired.
(Revised 12/31/15)
- 612.12 If any equipment is missing or damaged, the appropriate entries shall be made on the Boat Log and an ET-68 completed if necessary.
- 612.14 The Station Captain shall periodically review the boat log to ensure that the weekly checks are being conducted and the appropriate log entries are being made.

BOAT MOTOR RUN TEST

- 612.16 Each boat will be assigned a motor flusher as part of its normal equipment. When conducting the Motor Run Test, the flusher MUST BE USED.
- 612.18 Thoroughly wet the lower unit of the motor and the rubber cups on the flusher. Slide the flusher in place over the water intake openings. Fasten a garden hose to the flusher connector and turn water on far enough to assure proper cooling.

- 612.20 Place the motor in neutral and start. Run the motor at SHIFT SPEED for five (5) minutes.
- 612.22 DO NOT LEAVE THE MOTOR UNATTENDED WHILE RUNNING. Continuously monitor the discharge and stop engine immediately if little or no water is being emitted.
- 612.24 Inspect hose for kinking or misalignment of the flusher. Restart motor and continue test. If problem still exists, stop the engine and notify the Tools and Equipment immediately. If it is felt that the boat cannot be used in an emergency situation, the Fire Alarm Office shall also be notified that the boat is out of service.

BOAT MOTOR FUEL PROCEDURES AND PREVENTIVE MAINTENANCE

- 612.26 All 2-cycle motors must be run on a gasoline/oil mixture. The oil (lubricant) may be obtained from Tool and Equipment. *(Revised 12/31/15)*
- 612.28 Use the proper outboard oil/gasoline mixture as marked on the specific motor. Make certain to follow the directions on the can when mixing. In addition to the oil (lubricant), a gasoline stabilizer shall also be added.
- 612.30 At no time will gas and oil be mixed in less than 6 gallon quantities. Whenever the tank falls below 1/2 full, the fuel shall be removed and put in an approved container and a new 6 gallons mixed. The fuel that has been removed should be disposed of by putting it in the fuel tank of any vehicle that uses gasoline.
- 612.32 If the fuel is over 1 year old, it is to be replaced even if the tank is more than half full. Information on fuel changes can be obtained from the boat log weekly check form.
- 612.34 The lower end of the motor contains grease that must be changed annually. The change, along with a preventive maintenance check, will be performed in April of each year and scheduled by the Maintenance Shop.

FIRE HOSE - GENERAL

- 614.00 Fire hose shall not be allowed to remain on the apparatus when in a muddy or otherwise soiled condition. *(Revised 12/31/15)*
- 614.02 *(Deleted 12/31/15)*
- 614.04 Hose having jackets constructed of synthetic fibers may pick up contaminants, glass, or other debris at fire or other emergency scenes which may prove to be harmful to apparatus, personnel, or public property if not removed from the hose. *(Revised 12/31/15)*
- 614.06 Hose shall be either cleaned or replaced with a clean, dry supply as conditions warrant. All mud and debris shall be removed by washing or brushing and, when necessary, hose shall be dried in accordance with the requirements established for the particular type of hose.
- 614.08 Under normal conditions hose used at fires, during training evolutions, or for any other purpose will be changed or cleaned as necessary. This shall be done either by members assigned to the work shift that used such hose, or by members working other shifts. In the latter case, it is preferable that the work is accomplished during the morning hours on the shift or unit following that on which the hose was used.
- 614.10 Whenever hose is changed, this fact and any related information shall be recorded in the Company Journal, both on the finished log and in the Company Record on Form EL-51 (Hose Load Record). The Hose Load Card (EI-52) carried on the apparatus shall also be properly revised each time the hose is changed.
- 614.12 When the amount of hose to be changed exceeds one half (1/2) of the normal complement of a particular size hose (excluding 2" or smaller), the Fire Alarm Office must be contacted and permission obtained to call the apparatus out of service in order to make the change. If changing less than one half (1/2) of the hose load, companies need not call out of service.

- 614.14 In most instances, when it becomes necessary to change hose the Company Commander shall first cause the proper amount of replacement hose to be laid out on the apparatus floor or other convenient location, with the hose coupled together so as to expedite this task. In any event, when changing hose the used load shall be removed from the apparatus and the fresh supply put in its place as quickly as possible.
- 614.16 All gaskets in hose connections shall be inspected before hose sections are coupled together and any missing or damaged gaskets shall be replaced before the hose is loaded on the apparatus.
- 614.18 *(Deleted 12/31/15)*
- 614.20 Extreme cold causes deterioration of rubber. However, fire hose may be stored in cold storage areas if the hose is first thoroughly drained and dried.
- 614.22 Fire hose is liable to crack if it is bent while in a frozen condition. Care shall be taken to avoid bending frozen fire hose.
- 614.24 The folds of all hose loaded on Division apparatus shall be changed at least monthly to reduce damage from kinks, mildew, and other harmful actions. The folds of synthetic rubber ribbed hose shall be changed three (3) times per year, in January, May, and September, once by each unit. During the change the hose shall be inspected for damage and the couplings lubricated.
- 614.26 All hose stored in fire stations shall be removed from its place of storage, unrolled, inverted, and re-rolled at least quarterly. *(Revised 12/31/15)*
- 614.30 Under no circumstances shall fire hose be allowed to go longer than one (1) year without having water passed through it. This applies to all hose assigned to and stored in the various stations and bureaus, including both auxiliary or reserve supplies and that hose normally assigned to or loaded on the apparatus. Normally the annual hose test will accomplish this requirement.

- 614.32 All hose stored in the various fire stations shall, whenever possible, be stored so as to permit the free circulation of air and shall be inspected at least monthly for signs of mildew and other indications of deterioration.
- 614.34 When storing fire hose, care should be taken to see that it is not exposed to sunlight, or to very hot, dry air.
- 614.36 When fire hose is being used, care shall be taken to see that the section nearest the engine or hydrant is not being chafed by vibration at the point of contact with the ground.
- 614.38 Acids, oils, rust, gasoline, chemicals, and fumes arising from various processes are injurious to some types of fire hose. Contact with such substances shall be avoided if at all possible.

HOSE INVENTORY

- 614.40 A complete and accurate hose inventory shall be kept in the Company Record on Form EL-66 and the instructions on the back of that form shall be strictly followed.
- 614.42 At the time of the Annual Hose Test, a duplicate hose inventory, listed on Form EL-66, shall be compiled and forwarded to the Bureau of Support Services.
- 614.44 Company Officers are responsible for ensuring that hose inventory forms are promptly revised as needed to accurately reflect current hose supplies.

HOSE REPAIR AND REPLACEMENT

614.46 When hose is sent to the Hose Repair to be repaired, it shall be prepared as follows:

- (1) Clean and dry each section
 - (2) Attach repair tag stating the date, section number, officer's name, station, unit, brief description of damage, location of damage, and whether the hose does or does not leak.
 - (3) Circle any leaks or other defects with a permanent black marker.
 - (4) List damaged hose number of Form EL-66 in the company log.
- (Revised 12/31/15)*

614.48 Companies in need of replacement hose shall submit a written request through the Chain of Command to Support-7. *(Revised 12/31/15)*

614.50 Upon receiving the replacement hose, the company officer shall assure that all appropriate information is listed on Form EL-66 in the company log; hose is marked according to Sections 602.16 through 602.22; hose is tested as stated in Section 614.58 through 614.84.

614.54 Hose will be repaired, if possible and returned to the station from which it came.

614.56 If the hose is damaged beyond repair, Hose Repair will make out an RT-154 (official Intra-Divisional Communication), stating that the hose is either "Unfit for Service" or "Condemned" and forward it to the station from which it came. Station personnel shall make appropriate log entries upon receipt of the RT-154. *(Revised 12/31/15)*

HOSE TEST PROCEDURES

614.58 Each year during the month of May, all fire hose shall be tested by subjecting it to predetermined maximum test pressures. These tests will be conducted by company officers under the general supervision of the Emergency Services Bureau and the results recorded on the hose inventory/test record (EL-66) by the company officers involved. *(Revised 12/31/15)*

614.64 Prior to the annual hose test, station captains shall be responsible for preparing an accurate, up-to-date list of all fire hose assigned to their stations including hose depot supplies where appropriate, as listed in Section 614.40. Hose shall be listed alphabetically and numerically for each size.

Hose found to be defective or unserviceable during the test will be taken back to the fire station and properly prepared for repair or exchange as listed in Section 614.46.

614.66 Test pressure for all hose will be 250 psi with the exception of soft suctions and 5" hose which will be tested at 150 PSI.

NOTE: It is established Division policy that pump pressure in excess of 250 PSI shall not be allowed unless specifically authorized by the officer in charge of the fire, or by prior authorization based on particular capacities or requirements of specialized equipment.

614.68 All hose testing shall be based upon procedures contained in NFPA 1962, "SERVICE TESTING OF FIRE HOSE", current edition of NFPA Handbook (with same name), and Division SOP #06-04-03 "Hose Testing Procedures." *(Revised 12/31/15)*

614.70 - 614.80 *(Deleted 12/31/15)*

614.82 The company officer shall complete the hose records to indicate the condition of each length of hose tested. He/she shall correct the hose load cards and hose records in the Log as necessary to reflect test results.

614.84 Station captains shall be responsible for ensuring that all fire hose assigned to their station is properly tested prior to its being placed in service as a part of the stations regular hose inventory.

HIGH PRESSURE HOSE

- 614.90 All high pressure hose used by the Division shall be tested annually by the Hose Repair Technician. These tests shall be coordinated by the Company Officer in-charge of the Division's Logistics Center and shall conform to the guidelines and applicable sections of NFPA 1962: Standard for the Inspection, Care, & Use of Fire Hose Couplings, Nozzles; and the Service Testing of Fire Hose. *(Added 12/31/15)*
- 614.92 The Hose Repair Technician or designee will contact each fire station, verifying the amount of High Pressure Hose assigned. The Technician will then coordinate switching out assigned HP hose for loaner HP hose, one Battalion at a time. Each station will assist the Hose Technician in gathering and rolling up these two 100 ft. sections of 2.5" HP Hose. The turnaround time to test each Battalions HP Hose will be approximately four days. *(Added 12/31/15)*
- 614.94 All HP Hose will be properly tested using the Division's High Pressure Hose Tester. All HP Hose passing the HP Test will be returned to the appropriate stations and switched out with the loaner HP Hose. Any hose not passing the HP Test will be condemned by the Hose Technician and a loaner section of HP hose will be reassigned to replace the condemned hose. *(Added 12/31/15)*
- 614.92 These tests will be supervised by the Company Officer in-charge of the Logistics Center under the general supervision of the Support Services Bureau and the results recorded on the Hose Test Record (EL-50). Copies of these records will be submitted to each Company Officer to record these results in their Inventory/Test Records (EL-66/EL/50). *(Added 12/31/15)*

SALVAGE COVERS

- 616.00 Salvage covers may be canvas, vinyl, or disposable plastic sheeting, utilized to reduce damage from fire, smoke, water, heat, cold, or weather during and after a fire. *(Added 12/31/15)*
- 616.02 Disposable plastic sheeting is obtained from the Supply Section. *(Added 12/31/15)*
- 616.06 - 616.08 *(Deleted 12/31/15)*

ROPES - MAINTENANCE AND PROCEDURES

- 618.00 Ropes used by the Division of Fire are constructed of either natural fibers or synthetic materials. All ropes shall be cared for and inspected in accordance with the provisions of this section. *(Revised 12/31/15)*
- 618.02 Ropes made of natural fibers, such as manila, hemp, should be cleaned by brushing, flaking, or peeling - never by washing or rinsing with water. Ropes constructed of synthetic materials, such as polypropylene may be cleaned by using water and, if necessary, a mild detergent.
- 618.04 Inspection of all ropes shall be completed during the months of May and November. Station Captains shall see that the Rope Inspection Form is properly completed at the time of these inspections, and that it is then forwarded through channels to Tools and Equipment. *(Revised 12/31/15)*
- 618.06 The Tool and Equipment Section shall use the information received on the Rope Inspection Form to schedule any necessary replacements.
- 618.08 Ropes should not be carried in compartments or other areas where they may become damaged through contact with sharp edged tools or similar surfaces.

RADIATION INSTRUMENTS - MAINTENANCE AND PROCEDURES

- 622.00 Radiological Instruments have been assigned to all fire stations and to various vehicles of the Division. These instruments are provided and maintained by the Emergency Management Agency for use in the event of a national emergency, and are also available for Division use in local emergencies or other situations involving radioactive materials. *(Revised 12/31/15)*
- 622.02 *(Deleted 12/31/15)*
- 622.04 *(Deleted 12/31/15)*
- 622.06 In order to be certain that this equipment is adequately maintained and will operate properly when needed, all radiation instruments assigned to the Division shall be check and tested by the personnel assigned to the stations or bureaus where such instruments are located. *(Revised 12/31/15)*
- 622.08 Radiation instruments that are defective or in need of repair shall be sent to Office Research and Innovation. When sending in these instruments, be sure to include the entire kit and attach a repair tag stating the date, station number, unit, officers name, and instruments that are defective. The Office of Research and Innovation will then forward the kits to the Emergency Management Agency for exchange. *(Revised 12/31/15)*
- 622.10 *(Deleted 12/31/15)*

FIRE HYDRANT INSPECTIONS AND PROCEDURES *(inserted from 540.00 – 12/31/15)*

640.00 Fire Hydrant Use and Operation: On all occasions where fire hydrants are to be used, precautions shall be taken when opening and closing the hydrant valves to see that they are operated slowly. This procedure is necessary in order to prevent a water hammer which could cause damage to water mains and residential service lines. *(Revised from 540.00 – 12/31/15)*

640.02 Whenever a hydrant is used for any purpose between the dates of October 15 and April 15 of each year, the hydrant shall be pumped dry and this information reported on Water-Web immediately upon returning to quarters. It is also required that this information be listed in the Company Journal. *(Revised from 540.02 – 12/31/15)*

640.04 When a hydrant is being used and water is leaking or spraying from around the top of stem, it is recommended that the hydrant operating stem be closed approximately one-half of a turn after the hydrant has been fully opened. This procedure may stop the leak. If the leak does not stop, report it on Water-Web upon returning to quarters. *(Revised from 540.04 – 12/31/15)*

640.06 Illegal Use of Hydrants: No person other than employees of the Division of Fire and/or the Division of Water, operating within the parameters of their respective duties, shall connect any hose to or draw any water from any city fire hydrant without a valid permit approved by the Fire Chief and the Administrator of the Division of Water, or their designees. Any hydrant usage without such permit is a violation of Columbus City Code 2517.04. Hydrant permits may be obtained from the Division of Water Sales Office located at 910 Dublin Road. *(Revised from 540.06 – 12/31/15)*

640.08 Persons authorized to use fire hydrants shall not violate any conditions of the permit or any of the rules and regulations concerning such permit. Any violation of the conditions or rules and regulations pertaining to a hydrant permit is in direct opposition to Columbus City Code 2577.04. *(Revised from 540.08 – 12/31/15)*

640.10 All members of the Division of Fire shall report to the Fire Alarm Office any obvious or suspected illegal use of a fire hydrant that they have observed or been notified of. The Fire Alarm Office shall dispatch a fire company to the scene in order to obtain all pertinent information surrounding the incident. This should include, but not necessarily be limited to the following items:

1. Location of involved fire hydrant, date and time of incident. The Engine Company shall attempt to shut down the hydrant in question if it is found to be illegally flowing.
2. Name of individual(s) using the fire hydrant, together with their address, date of birth, social security number and driver's license number, and also, the name and address of individual's employer. If met with resistance that may cause injury to personnel or damage to City property, the officer in charge shall withdraw all Division members to the apparatus.
3. Description of any involved vehicle at the scene and license number of same.
4. Description of any equipment and/or tools used to obtain water from the fire hydrant.
5. Purpose for which the water was obtained, fire hydrant permit number if applicable. Name, badge number, and cruiser number of any police personnel at the scene.
- 6.) If there is immediate danger to personnel the officer shall call for the police on an emergency, request a Battalion Chief to be dispatched to a rendezvous point and be guided by his/her decision.

The company officer shall submit, through channels, all of the information obtained to the Division's Hydrant Coordinator at the Fire Prevention Bureau. This bureau shall file the appropriate charges if such action is indicated. These procedures shall also be followed whenever the Division of Police or other concerned persons advise the Fire Alarm Office of any suspected illegal hydrant usage. *(Revised from 540.10 – 12/31/15)*

- 640.12 A map (Station and Battalion Water Atlas) showing the locations of all hydrants within assigned districts shall be prepared and maintained by each Company Commander, who shall also ensure that such map is kept updated, both for company schooling purposes and for the possible use by the Battalion Chief. *(Revised from 540.12 – 12/31/15)*
- 640.14 When a hydrant district has been inspected and no defects have been found, no written hydrant inspection report will be required. However, if any defective hydrants are encountered, the inspector shall document that information on Water-Web upon return to quarters. *(Revised from 540.14 – 12/31/15)*
- 640.16 Whenever a hydrant is reported to have been used for any purpose whatsoever by any municipal department other than the Fire Division between the dates of October 15 and April 15, the Fire Alarm Office shall be notified. The Fire Alarm Office shall enter this information in Water-Web. *(Revised from 540.16 – 12/31/15)*
- 640.18 Each year from October 15 to April 15, whenever fire hydrants have been used for any purpose, it shall be the responsibility of the fire company using the hydrant to record such usage on Water-Web. These hydrants shall be inspected daily, until each hydrant has been found to be without water on three (3) consecutive days. Any hydrant that continues to leak after the third consecutive daily check shall be reported on Water-Web. *(Revised from 540.18 – 12/31/15)*
- 640.20 Whenever a hydrant is found to be leaking between the dates of October 15 and April 15, and leakage cannot be stopped by employing recommended procedures, the hydrant inspector shall record the hydrant on Water-Web. In addition, all hydrants used at any fire scene, emergency incident, or for any other purpose shall be reported on Water-Web for inclusion on the special hydrant list. *(Revised from 540.20 – 12/31/15)*
- 640.22 Each shall maintain a current “hydrant-out” list by checking Water-Web daily. *(Revised from 540.22 – 12/31/15)*

640.24 Company Commanders are responsible for seeing that the pages of each Water Atlas assigned to their station are maintained accurately and kept up to date. This includes any Water Atlas assigned to any vehicle or apparatus quartered therein. *(Revised from 540.24 – 12/31/15)*

Fire Hydrant Inspections

640.26 Inspection of fire hydrants by Division personnel shall be carried out in a systematic manner, with the goal of insuring that all hydrants are accessible, readily visible, and completely operational when it becomes necessary to use them. An additional purpose of these inspections is to familiarize Division personnel with the location of all fire hydrants within the corporate limits of the City of Columbus, including not only municipal hydrants, but private hydrants and various government owned hydrants as well.

Company Commanders shall insure that an updated map of the assigned hydrant district is provided to the hydrant inspector. *(Revised from 540.26 – 12/31/15)*

640.28 When inspecting hydrants, Division members shall pay particular attention to the following listed items: (Any defects found shall be noted on Water-Web).

- 1.) Missing hydrant caps; outlet threads or caps showing indications of having been damaged or rusted away.
- 2.) Badly worn hydrant operating nuts, or any indication that the hydrant may have been operated by using a pipe wrench.
- 3.) Any condition noted which might cause a hydrant to be obscured from view or installed in such a way as to render it difficult to put into service.
- 4.) Hydrant outlets which are less than 12 inches above the surrounding ground level, or outlets or domes which extend beyond the curb line.
- 5.) Any condition surrounding or in the vicinity of a hydrant which is liable to cause injury, accident, or property damage. Special attention shall be given to those areas where construction work of some type has recently been performed, and where concrete sidewalks or ramp areas have been damaged or are missing.

- 6.) Water in the hydrant barrel. (If water is found between the dates of October 15th and April 15th, pump the hydrant and report it on Water-Web.) *(Revised from 540.28 – 12/31/15)*

640.30 Any time an employee of the Division of Fire notes a defect which would render a hydrant unserviceable - such as water frozen in the hydrant, hydrant knocked off or damaged by collision, broken valve stem, damaged outlet threads, damaged operating nut, or any other defect - the hydrant shall immediately reported on Water-Web. *(Revised from 540.30 – 12/31/15)*

640.32 *(Deleted 12/31/15)*

640.34 Each Monday, the Division Hydrant Coordinator shall prepare and distribute a "Hydrant Out of Service" report from Water-Web to the Emergency Services Deputy Chiefs, all Battalion Chiefs, the Water Maintenance Engineer and the Water Distribution Manager. This report will show all known public hydrants within the City of Columbus that are currently out of service. *(Revised from 540.34 – 12/31/15)*

640.36 *(Deleted 12/31/15)*

640.38 Company Commanders shall be responsible for ensuring that the "Hydrant Out-of-Service List" is kept up to date on a daily basis. *(Revised from 540.38 – 12/31/15)*

640.40 Company Commanders shall be responsible for ensuring that missing fire hydrant caps within their respective hydrant inspection districts are replaced as necessary. In addition, whenever hydrant caps are found to be missing from hydrants in a given company's first-in response area, they should be replaced as needed. Replacement hydrant caps may be obtained from Supply, using regular requisition procedures. If replacement caps are unavailable at any given time, a record shall be kept of hydrants needing replacement caps, and replacements made when caps are obtained. The Supply Office shall notify the Division Hydrant Coordinator whenever replacement caps need to be restocked. *(Revised from 540.40 – 12/31/15)*

- 640.42 Whenever a missing hydrant cap is replaced, the Division member replacing the cap shall first flush the hydrant. This procedure is necessary to check if foreign objects or materials are within the hydrant barrel. As always, whenever a hydrant is flushed between the dates of October 15 and April 15, the hydrant shall then be pumped and reported on Water-Web for the special hydrant three-day check. *(Revised from 540.42 – 12/31/15)*
- 640.44 Whenever hydrant caps are placed on hydrants they are to be made snug by using a hydrant wrench, to minimize unauthorized removal of caps by hand. *(Revised from 540.44 – 12/31/15)*
- 640.46 Company Commanders shall be responsible for the care and inspection of the fire hydrant closest to their respective stations, as this hydrant is normally used for training purposes. *(Revised from 540.46 – 12/31/15)*
- 640.48 Division members must be aware that some privately owned fire hydrants and certain hydrants belonging to other municipalities have 5-sided (pentagonal shaped) operating nuts which require tools other than the Division's standard hydrant wrench to operate. *(Revised from 540.48 – 12/31/15)*
- 640.50 Members must realize that certain hydrants installed by federal, state, and county governments - as well as some privately owned hydrants - open in a counter-clockwise direction. This, of course, is the direct opposite of the fire hydrants belonging to the City of Columbus, which are opened in a clockwise direction. Members shall always exercise due caution when operating unfamiliar hydrants. *(Revised from 540.50 – 12/31/15)*
- 640.52 Members must know that some privately owned hydrants are supplied by fire pumps, and can develop working pressures of 150 psi. or greater. Extreme caution shall be exercised when attempting to operate these hydrants. The water supply to these hydrants may come from public mains, storage tanks, or ponds. *(Revised from 540.52 – 12/31/15)*

640.54 Members must know that certain hydrants within the corporate limits and surrounding areas of the city have 4 1/2 - inch steamer outlets, requiring utilization of a 4 1/2 to 4-inch reducer before they can be used by the Columbus Division of Fire. *(Revised from 540.54 – 12/31/15)*

Summer Hydrant Inspections

640.56 From April 15 to October 15 of each year, Company Commanders shall require ~~that~~ regular inspections of all city fire hydrants in their assigned districts be conducted. These summer hydrant inspections shall be made on the specific day assigned for this purpose, but may be conducted more frequently if deemed to be necessary. Before engaging in any hydrant inspection activities on days other than those regularly assigned, the appropriate Battalion Chief shall be consulted. *(Revised from 540.56 – 12/31/15)*

640.58 In addition to inspecting for the items listed in Section 540.28, members conducting summer hydrant inspections shall make certain that all hydrants are readily visible from all directions at all times. They shall cut weeds surrounding any hydrant. If necessary the company officer may contact property owners to trim bushes and/or other vegetation which may be obstructing the hydrant's visibility or accessibility. *(Revised from 540.58 – 12/31/15)*

Winter Hydrant Inspections

640.60 It shall be the duty of the Emergency Services Deputy Chiefs to cause all hydrants within the corporate limits of the City of Columbus to be pumped free of water each fall, prior to the 15th of October, or earlier if weather conditions warrant.

Between the dates of October 15 and April 15 of each year, Company Commanders and Acting Officer shall require that all hydrants in their respective assigned districts are inspected on the day designated. If sufficient staffing is not available, the entire company must go on the inspection. If for any reason a hydrant district is not inspected or completed on the assigned day the Company Commander shall log this fact and the hydrant district shall be inspected or completed on the next duty day.

These winter inspections shall be made in order to determine the condition of each hydrant, and to be certain that all hydrants are pumped free of water above the valve so as to guard against freezing. In the event of heavy snow or unusual icing conditions, additional inspections may be required in order to ensure hydrant operation and visibility. *(Revised from 540.60 – 12/31/15)*

640.62 When pumping hydrants free of water in preparation for the winter season, the valve stems of hydrants that are not leaking shall not be disturbed; if the hydrant stem is tightened down, the valve seat may be changed and in many cases this action will cause hydrants to start leaking. *(Revised from 540.62 – 12/31/15)*

640.64 Company Commanders will be responsible for seeing that all known leaking hydrants in their respective hydrant districts are checked each duty day if necessary during freezing weather. *(Revised from 540.64 – 12/31/15)*

Fire Hydrant Flushing Procedures

- 640.66 Flushing of all city fire hydrants will be accomplished according to the provisions of this section. Division Bulletins containing supplemental information will be published as necessary prior to the time that hydrants are to be flushed. In addition, hydrant flushing activities will be publicized via the news media, stating times, dates, and specific areas of the city that will be involved. *(Revised from 540.66 – 12/31/15)*
- 640.68 Hydrant flushing will begin as near to April 15 of each year as possible, and all city hydrants shall be flushed and pumped by October 15 of each year. Whenever possible flush two or three hydrants at one time, so as to avoid a possible water hammer when closing the hydrants. At no time shall more than three hydrants in any given area be flushed at once. *(Revised from 540.68 – 12/31/15)*
- 640.70 The flushing of fire hydrants accomplishes several things: it is a positive check, establishing that the hydrant has been turned on at the watch valve; it confirms that the hydrant has worked at least once; it removes foreign objects from the hydrant barrel - such as those placed there by children or vandals; and, it also ejects gravel and similar materials which from time to time are accidentally introduced into the water mains. *(Revised from 540.70 – 12/31/15)*
- 640.72 Division members flushing hydrants are cautioned to give due consideration to possible detrimental effects which may result from such procedures. Care should be taken to ensure that vehicle and/or pedestrian traffic is not unnecessarily affected, and that road way shoulders, berms, lawns and other property items are not damaged as a result of the hydrant flushing procedures. *(Revised from 540.72 – 12/31/15)*
- 640.74 The soft flush method shall be strictly observed, Company Commanders shall be responsible for insuring that proper hydrant flushing procedures are followed by all members of their respective companies. *(Revised from 540.74 – 12/31/15)*

- 640.76 Prior to conducting hydrant flushing operations, Company Commanders shall advise their Battalion Chief of the number of double-handled hydrant wrenches that they will need. This information shall be relayed through proper channels to the Maintenance Section. *(Revised from 540.76 – 12/31/15)*
- 640.78 Ordinarily, hydrant flushing operations will be conducted seven (7) days per week between the hours of 0800 and 1700. Each day that hydrant flushing activities are to be conducted, the involved Company Commanders shall notify the appropriate personnel as listed in current Division Bulletins. *(Revised from 540.78 – 12/31/15)*
- 640.80 Whenever possible hydrant flushing operations will be conducted in two non-adjointing areas of the city simultaneously, and shall not be conducted in other areas until both have been completed. *(Revised from 540.80 – 12/31/15)*
- 640.82 Hydrants which are found to be out of service during the course of flushing operations are to be reported on Water-Web upon returning to quarters. Broken hydrants that are flowing or causing hazardous conditions are to be reported to the Fire Alarm Office as soon as possible, utilizing radio communication. The Fire Alarm Office will then relay all pertinent information regarding such hydrants to the Water Shop. Hydrants that are found to be in need of repair shall also be reported on Water-Web. *(Revised from 540.82 – 12/31/15)*
- 640.84 Each day at the completion of hydrant flushing operations, the hydrant maintenance log shall be updated to accurately describe the area that was flushed that day, and the numerical designation of the hydrant district. *(Revised from 540.84 – 12/31/15)*

Hydrant Flushing - Soft Method

- 640.86 First, remove the four inch (4") hydrant cap. Place a double-handled hydrant wrench on the valve stem. Next, turn the hydrant on slowly using both hands - one hand on each side of the wrench. The hydrant is to be opened until the flow of water from the outlet is no more than two (2) to three (3) feet in front of the hydrant.

(Note: If one person is unable to turn the hydrant on by following these procedures, the hydrant shall be called out of service on Water-Web.)
(Revised from 540.86 – 12/31/15)

640.88 After the hydrant has been flushed sufficiently (the water flowing from the outlet will be clear or almost clear), begin reducing the flow by SLOWLY shutting the hydrant off, again using both hands. Continue closing the hydrant valve slowly until only residual water in the barrel of the hydrant is coming from the outlet. When water ceases to flow from the outlet, splash some of the residual water from the hydrant barrel. If water still continues to flow - however slightly - from the outlet, attempt to stop the flow by slowly and carefully continuing to close the hydrant valve. Do not over tighten the valve stem, as this may damage the valve seat or stem coupling. Hydrants that cannot be completely shut off are to be reported on Water-Web. Finally, replace the hydrant cap and slightly tighten same with the hydrant wrench to prevent unauthorized removal by hand. *(Revised from 540.88 – 12/31/15)*

640.90 If the water being flushed from a hydrant does not clear up after having flowed for approximately ten (10) minutes, allow the hydrant to continue flowing. During the course of the day, return and check the hydrant from time to time. If the water has cleared up, close the hydrant. If the water has not cleared up by the conclusion of flushing activities for the day, close the hydrant and notify the Fire Alarm Office of the situation. The FAO will then notify the Water Shop. Complaints of rusty or discolored water are to be referred to the Water Quality Assurance Laboratory.
(Revised from 540.90 – 12/31/15)

640.92 If any hydrant should have the valve stem slam shut, or if any hydrant should fail to flow after having been opened six (6) turns, call the hydrant out of service after returning to quarters on Water-Web. If it is believed that an underground leak has been caused by a valve slamming shut, notify to the Fire Alarm Office immediately. They will notify the Water Shop of the leak. If any foreign substance is thought to be in a hydrant barrel and not dislodged by a soft flush, report this fact on the Water-Web. The Water Shop will remove the object. *(Revised from 540.92 – 12/31/15)*

Assignment of Hydrant Districts

640.94 Hydrant districts will be assigned to the various Companies. Districts will be rotated or reassigned as necessary on or about April 15 of each year.

Each company's assigned hydrant district will be rotated 1 Unit to 2 Unit, 2 Unit to 3 Unit, and 3 Unit to 1 Unit. The Station Captain will ensure that the hydrant districts are rotated accurately. *(Revised from 540.94 – 12/31/15)*

640.96 A master hydrant map will be maintained in each Fire Station; if any boundary of an assigned company district is not understood, the Company Commander responsible for such district shall contact the Division Hydrant Coordinator for clarification. *(Revised from 540.96 – 12/31/15)*

640.98 All future annexed territories shall be included in and made a part of the existing hydrant districts that they adjoin. All new city hydrant installations shall also be included within the existing districts, but if such installations are not within existing hydrant districts, they too shall be made a part of the hydrant districts that they adjoin. *(Revised from 540.98 – 12/31/15)*

640.100 *(Deleted 12/31/15)*

640.102 *(Deleted 12/31/15)*

Private Hydrant Procedures

640.106 Government institutions, private plants, apartment complexes and all other occupancies having their own private fire hydrant system are responsible for maintaining, servicing, pumping, and inspecting such hydrants on a regular basis. *(Revised from 540.106 – 12/31/15)*

640.108 Battalion Chiefs shall be aware of the following procedures concerning all government or private hydrants within the boundaries of the city hydrant districts assigned to the companies under their supervision. *(Revised from 540.108 – 12/31/15)*

640.110 Prior to October 1 of each year, the Division Hydrant Coordinator shall notify the person(s) responsible for maintaining their respective privately owned hydrants of the Columbus City Code which requires all private hydrants to be pumped free of water by October 15 of each year, and shall also advise them to conduct regular winter hydrant inspections. Information explaining proper hydrant maintenance and inspection procedures shall be included with each notification.
(Revised from 540.110 – 12/31/15)

640.112 Between October 15 and November 15 of each year, Battalion Chiefs shall have all of the private hydrants within the hydrant districts assigned to their companies spot-checked in order to ascertain degree of compliance with the city code. Recognizing that some locations having private hydrants will conduct reliable weekly inspection programs while others may not, each Battalion shall exercise proper judgment in determining the frequency of private hydrant spot checks during the winter season.
(Revised from 540.112 – 12/31/15)

640.114 In instances where private hydrants are out of service or have not been pumped dry after October 15, the Battalion Chief shall determine the Building Inspection District in which the hydrants are located and cause orders for correction to be issued by the appropriate company inspector, per the applicable city code.
(Revised from 540.114 – 12/31/15)

640.116 Company Officers in charge of individual hydrant districts shall maintain an awareness of such districts, and shall report to their Battalion Chief any conditions which might make the use of private hydrants unreliable.
(Revised from 540.116 – 12/31/15)

640.118 *(Deleted 12/31/15)*

640.120 The individual hydrant districts shall be numbered according to the following code:

1. First digit shall represent the unit number (1, 2, or 3)
2. Second digit shall represent the Battalion number.
3. Third digit shall represent the company to which the district is assigned followed by the letter E, L, or R.

Examples: Unit 1, Battalion 2, Engine 1 1-2-1E
 Unit 2, Battalion 3, Ladder 13 2-3-13L
 Unit 3, Battalion 1, Rescue 2 3-1-2R
(Revised from 540.120 – 12/31/15)

Chapter VII
Division Personnel
Procedures

DIVISION VACATION PROCEDURES

702.00 See the current agreement between the City of Columbus and Local #67 IAFF for the
Vacation Policy and Procedure.

DIVISION PAY PROCEDURES

704.00 All employees of the Division of Fire shall be paid on a bi-weekly basis. Payday will
be the Thursday immediately following the completion of each designated pay period.

704.02 - 704.14 *(Deleted 12/31/15)*

CALL-IN AND OVERTIME PROCEDURES

706.00 The call-in and overtime procedures of the Division of Fire shall conform to the
provisions of this section and to applicable sections of the current master
salary ordinance.

CALL-IN

706.02 When authorized by the proper authority, and notified by the Chief or designated
alternate, the Fire Alarm Office will initiate the call-in of off-duty personnel. The
call-in procedures is divided into three classes: Class I or "special" call-in, Class II or
"regular" call-in, and Class III or "general" call-in.

706.04 The proper authority for initiating a call-in of off-duty personnel is as
follows:

Class I ("special" call-in) – Fire Chief

Class II ("regular" call-in) – Director of Public Safety

Class III ("general" call-in) – Mayor

706.06 CLASS I OR "SPECIAL" CALL-IN: Selected officers and members are called in
according to need. This could be based on a predetermined plan where individual
expertise and/or special skills are required (i.e., tank specialists, bomb squad, etc.).

706.08 CLASS II OR "REGULAR" CALL-IN: The work shift that is next due on duty is
called in. Members will be instructed to report to special designated areas, or to
their normal duty stations.

Chapter VII
**Division Personnel
Procedures**

- 706.10 CLASS III OR "GENERAL" CALL-IN: All off-duty personnel are called in. Members will be instructed to report to special designated areas, or to their normal duty stations.
- 706.12 Whenever any of the previously listed call-in procedures are implemented all bureau heads shall be notified.
- 706.14 In the event of a Class II or a Class III call-in, all Fire Prevention Bureau personnel, Training Section personnel and Maintenance Section personnel shall be included in the call-in, unless orders to the contrary are received. Administration Bureau personnel shall be called in as determined by the manager of that bureau.
- 706.16 After being authorized by the Chief or designated alternate, the Fire Alarm Office will initiate the appropriate call-in procedure by notifying all off-duty Bureau Chiefs and Battalion Chiefs, according to need as determined by the class of call-in instituted. These chief officers will then contact their company officers or other subordinates who, in turn, will notify the members under their command. All Bureau and Division Officers and their alternates shall maintain an updated call-in list for this purpose.
- 706.18 All uniformed members that are called in and may be assigned duties requiring protective clothing shall report with their full complement of fire clothing.
- 706.20 It shall be the policy of the city to avoid overtime work except on the advanced authorization of the Safety Director or in an emergency situation.
- 706.22 All Division members up to and including the rank of Battalion Chief are eligible to receive overtime pay at the rate of time and one-half the hourly rate.
- 706.24 Members assigned to 40-hour positions, including those having work schedules of five eight-hour days or four ten-hour days, shall receive overtime pay for all time that they are required to work in excess of that stipulated as their regular daily shift -- or in excess of 40 hours in any week.

Chapter VII
Division Personnel
Procedures

- 706.26 Form PT-14 (Report of Overtime Worked) shall be completed and forwarded to the Chief whenever overtime is worked.

TRADING OF TIME POLICY

- 708.00 The trading of time between Division members working different duty shifts may be permitted in keeping with the provisions of this section.
- 708.02 While it is the policy of the Division to encourage a positive attitude toward approving trades, it must be understood that the trading of time is a privilege - not a right - and may be granted at the discretion of the respective Battalion Chiefs.
- 708.03 Trading of time by definition does not include payment, either in cash or bartered services, for work. Paying division members to work a partial shift, full shift or multiple shifts for another member is expressly prohibited.
- 708.04 Recommendations regarding approval or disapproval of trade requests involving their subordinates may be expressed by company commanders or other immediate supervisors. Battalion Chiefs shall carefully weigh the recommendations of a member's immediate supervisor in determining the advisability of granting trade requests.
- | 708.06 *(Deleted 12/31/15)*
- 708.08 Members requesting trades shall insure the appropriate entries are performed in TeleStaff using the most current approved procedure. Failure to follow the designated procedure may result in denial of the trade request. The Battalion Chief of the person requesting the trade is responsible to insure proper TeleStaff procedures are followed.
- 708.10 Any disapproval of a trade request will be promptly acknowledged, and accompanied by a written explanation to the employee requesting the trade, detailing the reason for such disapproval. In addition, a memo will be sent to the Fire Chief, explaining the actions taken.

Chapter VII
**Division Personnel
Procedures**

- 708.12 Trades shall ordinarily be between Division members of equal rank, and whenever possible, similar skill levels. However, trades between company commanders, whether Captains or Lieutenants, will usually be permitted during daylight hours. No trades will be permitted that would result in a member of a lower rank working for a higher ranking member between the hours of 2000 to 0800.
- 708.16 Receiving trades or working trades for more than ten (10) complete tours of duty, or the total hourly equivalent of same in any calendar year, shall not be allowed except by permission of the Chief of the Division. TeleStaff will record all trade dates and times.
- 708.18 Trades involving a period of time in excess of three (3) consecutive 24-hour shifts shall not be authorized except by permission of the Chief of the Division.
- 708.20 Members owing time to other Division members as a result of trades must expect to repay this obligation within a reasonable time. Therefore, it is the policy of the Division that, if 180 days have passed since a trade was taken and no request for repayment of the time owed has been tendered, the obligation of the member owing the time shall automatically cease.
- 708.22 Members working and/or repaying trades shall be limited to not more than 48-consecutive hours-on-duty, including their own regularly scheduled work shift and/or any overtime work shifts.
- 708.24 Division members requesting time off by the process of arranging trades shall be held responsible for the period of time in question. For this reason, whenever a Division member fails to report for duty after having agreed to work for another member as per time trade arrangements detailed in this section -- whether for reasons of sickness, emergency, or any other situation -- the Division member originally scheduled to work (the person requesting the trade) shall be obligated to repay the time involved in a manner determined by the Fire Chief. The Division member originally scheduled to work the time will be charged with vacation to the extent he/she has a sufficient

Chapter VII
Division Personnel
Procedures

balance. The vacation balance available will be utilized and the remainder of time will be charged as leave without pay (LWOP).

- 708.26 Employees who have agreed to work a trade with another employee shall not be eligible for vacation on the date of the trade.
- 708.28 Employees who have been scheduled to attend a Division training session shall not be eligible for a trade on the date of the scheduled training, unless the trade had been scheduled before the date on which the training schedule was published.
- 708.30 Division members who agree to work a trade of twenty-four (24) hours and fail to report for duty for the entire twenty-four (24) hours shall, in addition to the disciplinary hearing before the Fire Chief, will be barred from obtaining a trade for one (1) year.
- 708.32 Division members who agree to a trade of time and are late in reporting to duty shall be barred from any time trades in the following increments:
- First Late: 60 days
Second Late: 180 days
Third Late: 1 year
- 708.34 Members may work a trade on their Kelly Day.

LATE FOR DUTY

- 710.00 Company Officers and/or other Division supervisors who are responsible for verifying that all Division members under their command are on time when reporting for duty, shall be held strictly accountable for the fair and consistent application of the late policies contained in this section, and shall make no exceptions when recognizing and reporting any deviations from these policies.

Chapter VII
**Division Personnel
Procedures**

- 710.02 Division members who are not physically present at their permanently assigned duty station or properly sanctioned temporary work location and in compliance with the Division grooming code shall be marked as reporting late for duty.
- 710.04 Members working the three platoon system who are required to stand a formal roll call shall be in formation at 0800 hours and in compliance with 710.02 or be considered late for duty.
- Members working the three platoon system who are not required to stand a formal roll call with a reporting time of 0700 are required to be in compliance with 710.02 or be considered late for duty.
- Members working a forty (40) hour work week are required to report to duty at their specified time and be in compliance with 710.02 or be considered late for duty.
- 710.06 When a member is late in reporting for duty, the Company Commander or other immediate supervisor shall make a verbal report to the appropriate Battalion Chief as soon as reasonably possible, and shall require the member who is late to complete a Late For Duty Report, Form PT-20, including an explanation of why the late occurred. This procedure shall be mandatory.
- 710.08 Whenever possible, the immediate supervisor shall conduct an investigation of the member's excuse for being late. Comments pertaining to the results of this investigation, together with any other information that the supervisor wishes to present, shall be listed on Form PT-20.
- 710.10 The Late for Duty Report (Form PT-20) shall be forwarded through proper channels to the Administrative Officer on the same day that the late occurs. *(Revised 12/31/15)*
- 710.12 Company Commanders and/or other immediate supervisor shall make the appropriate entries concerning members reporting late for duty on the daily Personnel Status Report (OF-237), the daily log, and in the company journal (Form PL-7). All entries in the company journal less than one (1) year old shall be preserved.

Chapter VII
Division Personnel
Procedures

710.14 The Battalion Chief or office supervisor receiving the Late For Duty Report through channels shall make any necessary recommendations and reasons for same in the space provided, sign the report, and forward it to the Deputy Chief or appropriate bureau head.

710.16 The Deputy Chief or bureau head receiving the Late For Duty Report will add any necessary recommendations - and the reasons for same - in the space provided, sign the report, and forward the report through channels to the Administrative Officer.
(Revised 12/31/15)

710.18 The Administrative Officer, with the Fire Chief's approval, will make the final determination concerning the late, based on the consistently applied criteria listed in Sections 710.20 and 710.22. Only in highly unusual and exceptional situations will a late be excused. *(Revised 12/31/15)*

PENALTIES

710.20 Personnel who are late in reporting for duty will be charged one-tenth (1/10) of an hours pay at their current pay rate for each six (6) minutes that they are late. Members who are less than six minutes late, will not be docked any wages, but will still be counted as reporting late for duty.

For example:

Up to 5 min., 59 sec. late:	no loss of pay
6 min. through 11 min., 59 sec. late:	loss of 1/10 of an hour pay loss
12 min. through 17 min., 59 sec. late:	of 2/10 of an hour pay, etc.

710.22 The following general policy regarding penalties for lates has been established, and shall be strictly, fairly, and consistently applied to all ranks of the Division of Fire members:

One late per 12 month period - Verbal counseling by immediate supervisor, and Form PI-17, Memorandum of Counseling, will be completed. For this purpose, the year will start on the date of the first late.

Chapter VII
Division Personnel
Procedures

Second late in the same 12 month period – The immediate supervisor will complete form PI-13, Personnel Warning Report, and forward it through channels. If the Administrative Officer approves discipline, the member's immediate supervisor will issue a verbal warning. *(Revised 12/31/15)*

Third late in the same 12 month period – The immediate supervisor will complete form PI-13, Personnel Warning Report, and forward it through channels. If the Administrative Officer approves discipline, the member's Bureau Head will issue a written reprimand. *(Revised 12/31/15)*

Fourth and any subsequent lates in the same 12 month period - mandatory disciplinary hearing before the Chief of the Division.

SICK AND INJURY LEAVE PROCEDURES

- 712.00 The sick and injury leave policy and procedures of the Division of Fire shall conform to the provisions of this section, in keeping with the dictates of the current Master Salary Ordinance.
- 712.02 Division members shall be entitled to receive pay while off duty due to sickness or injury unless it is established that such sickness or injury was incurred in the performance of employment other than with the City.
- 712.04 Members absent from duty, whether due to sickness, injury, or for any other reasons, who neglect to properly report the cause for such absence, may be required to forfeit pay for that period of time during which the absence had not been officially reported and investigated.

OFF-DUTY ILLNESS OR INJURY

- 712.06 Members who become ill or injured or otherwise incapacitated while off duty, and are unable to report for their normal tour of duty, shall contact the Division Fire Alarm Office or utilize TeleStaff to "certify off duty" at least 45 minutes prior to the time that they are required to report for duty. Members failing to notify the Fire Alarm Office or

Chapter VII
Division Personnel
Procedures

utilize TeleStaff to “certify off duty”, shall be carried on the OF-237 as AWOL. *(Revised 12/31/15)*

712.08 Members failing to certify off duty at least 45 minutes before roll call may be charged with a “late”, as will be determined by the Administrative Officer, depending upon the circumstances surrounding the incident. *(Revised 12/31/15)*

712.09 The procedure for Certifying Off-Duty will be as follows:

- 1) Via the FAO
 - a. Call (614) 221-2345
 - b. Notify Operator that you need to COD
 - c. Give Name, ID number and assignment
 - i. If someone else is calling for you, they must give their name and relationship.
 - d. Identify reason for COD from list below:
 - i. ILL
 - ii. INJURED
 - iii. FMLA
 - iv. DIF (Death in Family)
 - (1) Must give relationship
 - v. SLOTS (Sick Leave Other Than Self)
 - vi. LWOP (Leave-Without-Pay Request)
 - e. If not calling from home, give a contact number to the Operator
 - f. If Division help or assistance is needed, ask the Operator to notify the appropriate personnel or office.
2. VIA TeleStaff
 - a. Login to TeleStaff via Mobile App, Telephone, or Computer
 - b. Select the Day needed to COD from Calendar
 - c. Select one of the options *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

- 712.10 Whenever it is necessary that a member be hospitalized, such member shall be responsible for notifying the Fire Alarm Office and providing information concerning the situation. If the involved member is unable to relay this information, someone in the immediate family should assume this responsibility. The information relayed should include the following:
1. The name of the hospital and room number
 2. Reason for member being hospitalized
 3. Visitor Status
 4. Information concerning time or date of release from hospital (when available)
 5. Any other pertinent information that may be useful to the Fire Alarm Office
- 712.12 Upon receipt of information that a Division member is certified off duty, the Fire Alarm Office shall relay this information to the station or bureau of which the member is assigned. This shall be done as far in advance of the time that such member is normally required to report for duty as is practical. *(Revised 12/31/15)*
- 712.14 Information received at a member's assigned station or bureau pertaining to such member being certified off duty will be entered in the Company Journal and otherwise officially recorded as conditions may warrant. The involved member's immediate supervisor, or if necessary, other personnel assigned to the station or bureau, shall see that the Battalion Chief -- or other appropriate supervisory Division member -- is notified of the member's absence as soon as practical, and information regarding the members involved shall be reported to the Payroll and Personnel Office.
- 712.15 When a member CODs with a LWOP request, they must submit an RT-154 to the Fire Chief as soon as possible, preferably within 48 hours of the incident, identifying the specifics requiring the COD. LWOP is not automatically approved. The member will be on unpaid leave for the hours requested pending approval of the Fire Chief. The member must request LWOP (or the use of some other earned time, i.e. Vacation, Sick Leave, etc.) from the Fire Chief. The Fire Chief may grant this request or decide to charge AWOL and discipline accordingly. *(Added 05/01/16)*

Chapter VII
**Division Personnel
Procedures**

- 712.16 When the Battalion Chief or office supervisor is informed that a member assigned to this battalion or office has been certified off duty, he/she shall use his/her judgment in determining the validity of the illness or injury and in deciding the need for verifying the circumstances surrounding the member's absence.

ON-DUTY ILLNESS OR INJURY

- 712.18 Members who become ill or are injured while on duty shall be taken or sent to an appropriate hospital, their personal healthcare provider, or their home - depending upon the seriousness of the member's condition.
- 712.20 When a member becomes ill or is injured while on duty, the immediate supervisor of such member shall be notified as soon as possible. This notification shall be made by the injured member or by other Division members who may have knowledge of the situation.
- 712.22 The immediate supervisor of the ill or injured member is responsible for notifying the Fire Alarm Office, as well as his/her own immediate superior, and shall also make the necessary entries in the Company Journal or the official bureau or office journal.
- 712.24 In addition to the preceding requirements, the member's immediate supervisor shall be required to notify the Emergency Services Deputy Chief, through channels, as soon as possible after the illness or injury occurs.
- 712.26 When a member is relieved from duty because of illness or injury, the fact shall be reported to the Payroll and Personnel Office. Information relayed shall include the name of the involved member, time and date relieved from duty, and nature of illness or injury.
- 712.28 It is the responsibility of the Battalion Chief or office supervisor to personally initiate an investigation into the circumstances surrounding the illness or injury, to check on the member's condition, and to then inform the appropriate bureau head. When necessary, the bureau head shall notify the member's family.

Chapter VII
**Division Personnel
Procedures**

- 712.30 The immediate supervisor of the ill or injured member shall be responsible for the proper disposition of the member's car, firefighting gear, personal property, etc., in the event that a member is unable to return to duty.
- 712.32 On duty members who are to be certified off duty shall report this fact to their immediate supervisor - or shall see that such person is notified - and the supervisor, in turn, shall enter this information into TeleStaff. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

REQUESTING INJURY LEAVE PROCEDURE

- 712.34 All requests for injury leave shall be submitted to the Administrative Officer AND and Local 67 within seven (7) days of the injury. Requests for injury leave must include the following two (2) items; *(Revised 12/31/15)*
1. A completed Division of Fire Form PR-5
 2. A completed Medical Information Sheet or a doctor's statement which must include: date patient was first seen, description of current disability, dates of any prior treatment for same condition, and actual or expected length of current disability. In addition, the applicable Workman's Compensation forms as provided in the Injury Leave Claims packet will be properly completed and forwarded as per instructions.
- 712.36 If a request for injury leave is submitted which does not include all of the required items as listed above, the request will not be considered.
- 712.38 After a determination has been made as to the approval or denial of injury leave, a copy of such decision will be forwarded to the involved employee. If the injury leave is denied, the employee may appeal the decision in writing within 10 days of receipt of the employee's copy of the decision. This appeal shall be submitted through proper channels to the Director of Finance.

GENERAL PROVISIONS - SICK AND INJURY LEAVE PROCEDURES

- 712.42 In the event a member becomes incapacitated and, as a result, is unable to perform the duties required of his position, such member's immediate supervisor shall complete and submit a report of the conditions and circumstances involved. This report shall be forwarded through channels to the Bureau head. After the degree and extent of any disability has been determined by the member's personal physician, the involved member may be placed in a position compatible with the limits of his physical condition. (See "Light Duty Procedures" Section)
- 712.44 *(Deleted 12/31/15)*

Chapter VII
Division Personnel
Procedures

- 712.46 In the event that any member of the Division reports a sickness or disability that is feigned or pretended; or if any member shall fraudulently - by concealment, false statement, or otherwise - seek to deceive or mislead Division officials with respect to the particulars or circumstances involved; or if member does not remain at home so as to be visited at the option of a superior officer of the Division, except as provided elsewhere in the Division Rules and Regulations; or if a member refuses or neglects to conform to the instructions governing the actions of all Division members; such member shall be subject to suspension at the discretion of the Chief.
- 712.48 In all cases where sickness or injury causes a member to be absent from all or any portion of a regularly scheduled tour of duty, Form PR-5 must be completed and submitted through proper channels not later than the second duty day after a member's illness or injury - for those members working the three platoon system - and no later than the third duty day for those members assigned to the 40-hour work week.
- 712.50 If a member has not returned to duty in time to comply with the provisions of the preceding paragraph, the immediate supervisor of such member shall complete and forward Form PR-5, noting the date and time that "certification off duty" began, the nature of the illness or injury, whether the member is at home or in the hospital, and the anticipated number of days that the member will be absent. If the projected number of days absent is indefinite, this fact shall be stated when filling out Form PR-5.
- 712.52 Beginning with the seventh (7th) time and each time thereafter, a member is granted sick leave with pay in any calendar year, the first two (2) days of each such leave shall be without pay except as follows:
1. Such absence may, with the approval of the appointing authority, be changed to compensatory time credit or to vacation time.
 2. Intermittent periods of sick leave for the same illness or injury, certified by the Director of Public Safety as necessary, shall be counted as one absence if they occur during a period not to exceed thirty (30) calendar days from the date the employee returns to work from the original illness or injury.
 3. Death in the immediate family.

Chapter VII
Division Personnel
Procedures

712.54

In order for an occurrence of intermittent illness or injury to be counted as one incident as described in 712.52.b, the following procedures shall be followed:

1. Division of Fire Form PR-5 must be completed and submitted through proper channels. The member must identify the previous date on which sick leave with pay was granted and must request that the present illness be counted as one incident.
2. The member must attach a doctor's statement to the Form PR-5 which states the later illness or injury is a result of the same circumstances that caused the earlier illness or injury for which sick leave with pay was granted.

SICK LEAVE CERTIFICATION

712.55

The Personnel Office will issue a Certified Letter to any member who is on sick leave after six (6) consecutive duty days, and/or after the sixth and each succeeding sick leave incident in a payroll calendar year. The letter will request that the member provide a doctor's excuse explaining the reason for the member's absence and a projected return to work date. The member will have ten (10) calendar days to submit this information to the Personnel Office. If a response from the member has not been received within ten (10) calendar days, he/she may be charged "Absent without Leave" (AWOL). *(Revised 12/31/15)*

If the member's response is that he/she will be on sick/injury leave for an extended period, a "Medical Appraisal/Return to Duty" letter, to be completed by the physician, will be sent to the member. This letter requests the physician to evaluate the member's ability to return to duty or light duty, if applicable. If the "Medical Appraisal/Return to Duty" letter is not received in the Personnel Office within fifteen (15) calendar days of its receipt by the member, the Division will solicit assistance from the City's Risk Management Office to obtain medical information, and may schedule the member for an independent medical examination with a City physician. Failure to provide medical documentation and/or recertification may result in the denial of sick leave.

The completed "Medical Appraisal/Return to Duty" letter from the physician will determine if a letter will be sent to the member ordering him/her to report for full duty

Chapter VII
Division Personnel
Procedures

or light duty. If the member requests a light duty assignment, a physician's excuse with an approximate return to full duty date must be submitted. *(Revised 12/31/15)*

- 712.55.1 Human Resources will send an FMLA packet to any member who is on sick leave after three (3) consecutive duty days. The member will have fifteen (15) calendar days to contact Human Resources and submit the completed FMLA form or other medical documentation. If a response from the member has not been received within fifteen (15) calendar days, his or her sick leave may be disapproved and the Fire Chief may require evidence as to the adequacy of the reason for the employees absence during the time for which sick leave is requested. *(Revised 12/31/15)*
- 712.55.2 Any member who is on sick leave after six (6) consecutive duty days, will be contacted by Human Resources and required to provide a doctor's excuse explaining the reason for the member's absence and a projected return to work date. *(Revised 12/31/15)*
- 712.55.3 If the member's response is that he/she will be on sick/injury leave for an extended period, a "Medical Appraisal/Return to Duty" letter, to be completed by the physician, will be sent to the member. This letter requests the physician to evaluate the member's ability to return to duty or light duty, if applicable. If the "Medical Appraisal/Return to Duty" letter is not received by Human Resources within fifteen (15) calendar days of its receipt by the member, the Division will solicit assistance from the City's Risk Management Office to obtain medical information, and may schedule the member for an independent medical examination with a City physician. Failure to provide medical documentation and/or recertification may result in the denial of sick leave. *(Revised 12/31/15)*
- 712.55.4 The completed "Medical Appraisal/Return to Duty" letter from the physician will determine if a letter will be sent to the member ordering him/her to report for full duty or light duty. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

LIGHT DUTY PROCEDURES

712.56 Light duty assignments are specifically created temporary job assignments for members injured or otherwise incapacitated. Such light duty assignments are temporary assignments only, are not vacant or permanent positions within the Division's workforce, and are not available to employees on a permanent basis under any circumstances. *(Revised 12/31/15)*

1. Light duty is not automatically granted to Division members. Assignments are based on the needs of the Division of Fire. The Administrative Bureau Chief is responsible for authorizing light duty assignments. Members will be notified if or when their request has been approved. *(Revised 12/31/15)*

2. To request to have a light duty assignment made within a Bureau, the Bureau Head must notify the Administrative Office of the need to have work completed and provide a description of that work. *(Revised 12/31/15)*

3. Job assignments for light duty members will be determined by the skills of the member and/or the needs of the Division. If the member's restrictions cannot be accommodated by the Division, the member must use their available existing leave balances or they may be carried on injury leave, if applicable. *(Revised 12/31/15)*

4. Members who are incapable of performing their regular duties due to a work related injury or illness, but capable of performing duties in a limited capacity, shall request a light duty assignment. *(Revised 12/31/15)*

5. It is the policy of the Division of Fire that pregnant members may continue to participate in the work force during pregnancy. For purposes of this policy, a pregnancy related disability is treated as a non-work related injury or illness. Pregnant members who are able to work are that a corrective performance counseling session is necessary. Therefore, supervisors permitted to do so under the same conditions as other employees if they are able to fully perform their regularly assigned job duties. The pregnant member is responsible, with the advice of their physician, to determine how long they will continue working in their assigned position. A pregnant member is not required to

Chapter VII
Division Personnel
Procedures

request or accept a light duty assignment. However, they are encouraged to consider a light duty assignment because of the unpredictable nature of emergency responses. The pregnant member may request light duty at any time during their pregnancy by following the light duty procedures.
(Revised 12/31/15)

- 712.58 To work a light duty assignment, a member must adhere to the following requirements:
1. Light duty requests should be submitted directly to the Administrative Office no less than one week before the anticipated start date and must include the following: *(Revised 12/31/15)*
 - a. A completed RT-154, Intra-Divisional Communication, requesting a light duty assignment. The RT-154 needs to be typed, include the start date being requested, the reason for requesting and whether or not the light duty is for a work related injury. (For members who have a platoon assignment, the start date will always be on the Sunday of the Kelly Day cycle they will start). *(Revised 12/31/15)*
 - b. A completed doctor's statement, Medco-14 or similar form, which must include the date the member is eligible to work with restrictions, the details of all restrictions placed upon the member, whether the restrictions are temporary or permanent, as well as the date when the member is expected to return to regular duty. (Should a member not want to submit their medical documentation to the Administrative Office, they may instead submit it directly to the Division of Fire Human Resource Office) *(Revised 12/31/15)*
 2. Members must have a doctor's statement on file with the Administrative Office or the Division of Fire Human Resource Office for the duration of their light duty assignment. Failure to provide an appropriate doctor's statement will result in denial of the member's light duty assignment. The Division reserves the right to request additional medical documentation at any time during a member's light duty assignment. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

3. Light duty assignments for members permanently assigned to a platoon assignment will begin and end on the Sunday of the Kelly Day cycle. This requirement will not apply to members permanently assigned to a 40 hour assignment. *(Revised 12/31/15)*
4. Members on light duty will generally be assigned to a 40 hour workweek. The work schedule will consist of an eight hour day, Monday thru Friday. The work hours will be between 0700 and 1600, as determined by the Bureau Head. *(Revised 12/31/15)*
5. The 40 hour, 8% stipend, will not be paid to members on a light duty assignment. Exceptions will be to those individuals who were being paid the 8% stipend prior to approval for Light Duty. Members on light duty are not eligible for shift differential, OOC, Special Duty or Special Events. *(Revised 12/31/15)*
6. Additionally, members on light duty may not accept a turn of overtime. The member's vacation hours will be converted to a 40 hour equivalent balance and vacation will be accrued and charged at the 40 hour rate. *(Revised 12/31/15)*
7. Members on light duty may be offered position specific training to accommodate Division's needs. *(Revised 12/31/15)*
8. Vacation may be taken in one hour increments. Prior approval is required. *(Revised 12/31/15)*
9. Sick or injury leave may be taken in one hour increments. When a member is absent for all or any portion of a regularly scheduled tour of duty due to a sickness or an injury leave related matter the member must submit a PR-5. This includes but is not limited to: doctor visits, physical therapy, and Industrial Commission hearings that occur during normal duty hours. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

10. Light duty members that need to COD (certify off duty) are to follow the normal call off procedures as detailed in the Systems Manual.
(Revised 12/31/15)
11. Members on light-duty shall not use division fitness equipment without a medical release and signed authorization from the Administrative Bureau Chief or designee. When so authorized, the following procedure shall apply:
 - a. Submit a completed medical release form from your attending physician. The medical release form is provided by the Division and must indicate the type of exercise and/or physical equipment as recommended for physical therapy. Details should include weight restrictions and exercise duration as applicable. *(Revised 12/31/15)*
 - b. Submit a typed RT-154, Intra-Divisional Communication, to the Administrative Bureau Chief requesting to participate in a physical fitness program. Attach the medical release form from the attending physician to the RT-154. *(Revised 12/31/15)*
 - c. When using the division's fitness center members on a light duty assignment are required to document their time by signing in and out.
(Revised 12/31/15)
12. The Bureau where the member works a light duty assignment will record his/her daily activity on their OF-237, in the "Other" column, with a note in the remarks section. When the member returns to regular duty, the Bureau that provided the light duty assignment will report this fact in the remarks section of the OF-237. The place of permanent assignment shall continue to report the member on light duty, on their OF-237, each duty day until the members return to regular duty. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

- 712.60 To return to regular duty, a member must adhere to the following:
1. Requests to return to regular duty need to be made in advance to the Administrative Office and must include the following:
 - a. A completed RT-154, Intra-Divisional Communication, requesting to be released from the light duty assignment. The RT-154 needs to be typed and include the date that the member will be returning to regular duty. (For members who have a platoon assignment, the return to work date needs to be on or before the Sunday of the Kelly Day cycle they will be released) *(Revised 12/31/15)*
 - b. A completed doctor's statement, Medco-14 or similar form, which must include the date the member is released to return to regular duty and state that the member is capable of returning to regular duty. *(Revised 12/31/15)*
 2. The Administrative Office will notify the appropriate Bureau Head when the request to return to regular duty is approved. (Added 12/31/15)
- 712.62 The Fire Chief or designee shall review the status of members who are unable to consistently perform their regularly assigned duties for a 1 year period. The Fire Chief may cause an investigation to determine fitness for duty. To determine fitness for duty Division members shall be required to participate in an interactive process and produce medical documentation from the member's physician or appropriate attending medical professional and/or undergo examination by an appropriate medical professional designated by the city. (Added 12/31/15)

RETURNING TO REGULAR DUTY FROM ILLNESS OR INJURY PROCEDURE

- 714.00 Division members returning to their regular duty assignments after having been off duty for reasons of injury or illness shall comply with the provisions of this section, and with the applicable portions of the current Master Salary Ordinance.
- 714.02 Division personnel working the forty-hour week who are absent from work due to illness for more than two (2) consecutive working days must present a written

Chapter VII
Division Personnel
Procedures

statement from their personal physician, to their immediate supervisor, affirming that they are able to return to duty. Members who have been absent due to illness for two (2) days or less may return to duty without a statement from their physician.

- 714.04 Division personnel working the platoon system who have been absent due to illness for more than one (1) tour of duty must present a written statement from their personal physician, to their immediate supervisor, in order to return to duty. A member absent due to illness for one (1) complete tour of duty or less, may be allowed to return to duty if, in the opinion of such member's immediate supervisor or bureau head, the member in question is able to properly discharge his assigned duties.
- 714.06 Division members who have been absent from their regularly assigned duties because of an on-duty injury - including those members who have been temporarily assigned to "light duty" positions - must obtain the written approval of a physician and present this statement to their immediate supervisor upon returning to regular duty.
- 714.08 If in the opinion of their immediate supervisor, members desiring to return to regular duty are not able to perform the duties required of his or her job assignment, such supervisor shall immediately notify the Administrative Officer (through channels) of this fact. The Administrative Officer will then schedule an appointment at an appropriate facility for the purpose of examining the involved member. Grant Hospital personnel will make the final determination as to whether the member may return to regular duty. If necessary, the on-duty Deputy Chief will make any immediate interim decisions regarding the status of such employees. *(Revised 12/31/15)*
- 714.10 All physicians' statements or other related documents shall be attached to a completed PR-5 and submitted through channels.

SICK LEAVE OTHER THAN SELF PROCEDURE

- 714.12 Sick Leave Other Than Self (SL/OTS) is defined as leave utilized because of the illness or medically related dependency of a member of the employee's immediate family, living in the employee's household. "Immediate Family" is defined in the current Master Salary Ordinance.

Chapter VII
**Division Personnel
Procedures**

- 714.14 Uniformed members returning to work after having been off duty for reasons of utilizing "Sick Leave Other Than Self" (regardless of the time period involved) shall be required to submit a certified statement from the attending physician, to the Chief, stating that their presence was required at home.
- 714.16 Non-uniformed members returning to work after having been off duty for reasons of utilizing "Sick Leave Other Than Self" may be required to submit a certificate from a licensed physician, or a satisfactory written statement signed by the involved member, to the Chief, stating the nature of the illness.

PHYSICAL EXAMINATION PROCEDURES

- 716.00 The Physical Examination Procedures of the Division of Fire shall conform to the provisions of this section, and applicable sections of the current Collective Bargaining Agreement between the City of Columbus and Local #67 IAFF.
- 716.02 Physical examinations may be requested by individual Bureau Heads, when a special need is indicated, subject to the approval of the Chief.

Chapter VII
Division Personnel
Procedures

EMPLOYEE COUNSELING PROCEDURES

720.00 Counseling is one of the key elements of leadership. It is the art of communicating advice, instruction, or judgment, with the intent of influencing a person's attitude or behavior. Counseling is a responsibility of immediate supervisors and should be conducted periodically.

GOOD PERFORMANCE COUNSELING

720.02 One important aspect of counseling is that it should not be used solely to point out and attempt to improve job performance or conduct. If employees are to maintain a high level of motivation and performance it is important to satisfy the need for self-esteem. Through counseling for good performance the immediate supervisor can at least partially satisfy this need.

720.04 In counseling for good performance, try to be specific in order to emphasize and reinforce that which is particularly noteworthy. In this way the employee will be rewarded for good performance and will, because of the personal satisfaction gained, want to repeat this performance.

720.06 Good performance counseling may range from a "pat on the back" for doing a good job to the more formal actions of (1) writing a letter of commendation to be placed in the employee's official file, or (2) recommending the employee for an award pursuant to Chapter III, Sections 330.00-330.82 of this manual. NO special documentation is required or necessary for good performance counseling.

CORRECTIVE PERFORMANCE COUNSELING

720.08 At times, an immediate supervisor may be faced with an employee whose job performance or conduct is below standard. If this occurs the supervisor must not allow these problems to slide. Inaction is not the answer because it may turn small difficulties into major disruptions. When the immediate supervisor first becomes aware that a job performance or conduct problem exists, the supervisor should conduct corrective counseling.

Chapter VII
**Division Personnel
Procedures**

- 720.10 The goal of corrective performance counseling is to improve the job performance or conduct of the employee. It is a process for assisting the employee in taking the steps necessary to correct job performance or correct deficiencies.
- 720.12 Corrective performance counseling can range from the informal discussion to the formal session which is documented with a Memorandum of Counseling. Whichever type counseling is used it is important that the session be conducted in private, both to prevent distractions and to maintain a confidential atmosphere.
- 720.14 It would be impossible to list all of the reasons which might indicate to the supervisor that a corrective performance counseling session is necessary. Therefore, supervisors must know their employees well enough to recognize when they need to be counseled. Some indications that supervisors must learn to recognize are:
1. When a probationary employee or apprentice firefighter is having difficulty learning or performing necessary elements of the job.
 2. When a previously good performer begins to perform below par consistently.
 3. When a normally attentive employee suddenly displays a lack of attentiveness or concentration which adversely affects job performance.
 4. When an employee is involved in deliberate acts of misconduct or refuses to follow orders or instructions.
 5. When an employee abuses or exhibits a disregard for the rules, regulations, policies or procedures of the Division of Fire, or the City of Columbus, or the Civil Service Commission.
- 720.16 The decision of whether to conduct informal or formal corrective performance counseling is left to the discretion of the immediate supervisor. Normally a formal counseling session will be held only after one or more informal sessions covering the specific problem have failed to correct or improve performance or conduct. However, if the job performance or conduct is substantially below acceptable standards, or in the case of a probationary employee or apprentice firefighter, the supervisor may elect to use the formal counseling session when the problem is first discovered.

Chapter VII
Division Personnel
Procedures

CONDUCTING THE FORMAL COUNSELING SESSION

- 720.18 During the formal counseling session, the supervisor should structure the discussion using the Memorandum of Counseling as a guide. Without being too forceful the supervisor can invite the employee back from detours, escapes, fruitless conversation, etc., by the use of brief questions. It is important to remember that the goal of the counseling session is to correct shortcomings in job performance or conduct, not to cause embarrassment. Under no circumstances should the supervisor allow himself to be trapped into an argument with the person being counseled.
- 720.20 After each paragraph of the Memorandum of Counseling has been thoroughly explained and discussed, and it is apparent that the purpose of the counseling session has been accomplished, steps should be taken to close the conversation in a friendly manner. The session should be closed when all points have been covered and when the employee has had ample time and opportunity to understand the steps he or she must take in order to correct the job performance or conduct deficiency.
- 720.22 After the counseling session is over the supervisor must continue to evaluate job performance or conduct. The supervisor must check to ensure that satisfactory progress is being made to correct the shortcomings discussed during the counseling session. If satisfactory progress is not being made, further formal counseling or other steps may become necessary.

EMPLOYEE ASSISTANCE PROGRAM

- 720.24 During the counseling discussion the employee may tell the supervisor of a personal situation which is affecting job performance or conduct. Or, short of an admission, the conversation may lead the supervisor to suspect this as the reason for a performance or conduct deficiency. If this situation occurs, the supervisor should refer the employee to the City's Employee Assistance Program.
- 720.26 If the employee refuses to participate in the Employee Assistance Program, or agrees to participate and then does not keep appointments, or the rehabilitative efforts do not result in improved performance or conduct to an acceptable level, then the supervisor must consider initiating other appropriate personnel action.

Chapter VII
**Division Personnel
Procedures**

DOCUMENTATION

- 720.28 Documentation of corrective performance counseling is the key to developing an adequate record of what occurred at the immediate supervisory level. This will be accomplished through the use of the Memorandum of Counseling.
- 720.30 Whenever corrective performance counseling fails to correct or improve job performance or conduct the situation may eventually require initiation of formal disciplinary action. If this occurs the employee may raise the defense that he or she was never informed of a job performance or conduct problem, and/or was never informed of the steps to take in order to correct the problem. Proper documentation can be used to counter that defense. There is no excuse for waiting until disciplinary action is formally proposed to try to develop documentation that should have been developed at an earlier stage.
- 720.32 The Memorandum of Counseling is one source of documentation of the efforts the immediate supervisor made to assist the employee. It is the first step in establishing that the job performance or conduct deficiencies were communicated to the employee, that the steps necessary to correct the deficiencies were communicated to the employee, and that the employee was afforded a reasonable time to demonstrate acceptable performance or conduct.
- 720.34 It will not be required or necessary for the immediate supervisor to document good performance counseling or informal corrective performance counseling. To require this would create an unreasonable administrative burden and generate unnecessary paperwork.
- 720.36 For a formal corrective performance counseling session the immediate supervisor will be required to properly complete and distribute the Memorandum of Counseling.

Chapter VII
Division Personnel
Procedures

MEMORANDUM OF COUNSELING

- 720.38 Only one specific performance or conduct problem will be listed on a memorandum. Normally the corrective performance counseling session will cover only one or two such problems. Most problems of this nature can be corrected through the use of informal counseling sessions. Furthermore, the supervisor should not allow several serious deficiencies to accumulate and then issue several memoranda at one counseling session.
- 720.40 The supervisor should complete the heading and paragraphs 1 and 2 of the Memorandum of Counseling prior to holding the counseling session. If additional space is needed, one or more sheets of paper can be attached to this memorandum. The supervisor must initial and date each attached sheet.
- 720.42 After thoroughly discussing paragraphs 1, 2, and 3 with the employee, the supervisor must decide whether or not to refer the employee to the City Employee Assistance Program. This election is indicated by the supervisor in paragraph 4. The supervisor will sign and date the memorandum.
- 720.46 The supervisor should then (1) explain the acknowledgment paragraph to the employee, (2) explain that the employee has a right to have a copy of the memorandum forwarded to the Union and that this right can be exercised only if the employee checks the appropriate box on the memorandum, and (3) request the employee to sign and date the memorandum. If the employee refuses to sign the supervisor will check the appropriate box and sign and date in the space provided.
- 720.48 The supervisor shall be responsible for providing the employee with a copy of the completed memorandum. If the employee elects to have the Union receive a copy, the supervisor shall provide the appropriate Union Steward with a copy. The supervisor shall keep the original until the performance or conduct problem is satisfactory resolved.

Chapter VII
Division Personnel
Procedures

FUNERAL PROCEDURES

- 726.00 When death occurs to an on-duty firefighter, the on-duty Deputy Chief (ES 2) is responsible for ensuring that personal notification is made to the deceased's family. This personal notification may be made by the on-duty Deputy Chief (ES 2), a designated Battalion Chief or a close family friend and, if possible, with the aid of one or both Division of Fire Chaplains.
- 726.02 The procedure set forth in 726.00 will be followed if the Division of Fire is informed of the death of an off-duty firefighter before the family is aware of the situation.
- 726.04 In either of the above situations, the Fire Chief and the Administrative Officer will be notified immediately. *(Revised 12/31/15)*
- 726.06 The on-duty Deputy Chief (ES-2) IS responsible for obtaining the information necessary to complete the "Funeral Notice" Form PI-15 and ensuring that this information is transmitted to the Fire Alarm Office for Public Address Transmission to all stations. This procedure will also be followed when the Division of Fire is informed of the death of a retired firefighter. *(Revised 12/31/15)*
- 726.08 The Deputy Chief (ES-2) will see that an offer of transportation is made to the family of a firefighter who was on current paid status to assist in making any necessary funeral arrangements and to transport the next-of-kin to the Bureau of Administration to take care of insurance, severance pay, pension, etc.
- 726.10 The Deputy Chief (ES-2) on-duty the first viewing day will order flowers to be sent to the funeral home from the Division of Fire.
- 726.12 The Deputy Chief (ES 2) on-duty each viewing day will arrange for an Honor Guard at the funeral home if the member was on current paid status and the family so requests. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

- 726.12.1 The Emergency Services Deputy Chiefs (ES 2) should maintain a roster of Honor Guard members in accordance with Section 334.08 of the Systems Manual.
(Revised 12/31/15)
- 726.14 *(Deleted 12/31/15)*
- 726.16 Military Honors and uniform turnouts are not offered for retired personnel as a general rule, but under special circumstances may be authorized by the Fire Chief.
(Revised 12/31/15)

MILITARY LEAVE PROCEDURES

- 728.00 The military leave policy and procedures of the Division of Fire shall conform to the provisions of the current Labor Agreement between the City of Columbus and Local #67 IAFF.
- 728.06 Any member of the Division of Fire who is applying for military leave shall complete Form PR-2 and forward it through proper channels to the Chief accompanied with a copy of their military orders.
- 728.08 Application should be submitted at least three (3) working days prior to the effective date of military leave. *(Revised 12/31/15)*
- 728.10 A military pay voucher shall be submitted to the Division of Fire Payroll Office no later than the first regularly scheduled workday after returning from military leave. This voucher must show the total days of military leave and the total base pay received. The amount of the base pay will be deducted from the next regular Division of Fire check on the pay following the members return to duty. *(Revised 12/31/15)*

Chapter VII
Division Personnel
Procedures

SUBPOENA PROCEDURES

730.00 *(Moved to Section 230.00, 12/31/15)*

730.10 *(Moved to Section 230.10, 12/31/15)*

730.20 *(Deleted 12/31/15)*

730.30 *(Deleted 12/31/15)*

TUITION REIMBURSEMENT

732.00 See current Labor Agreement between the City of Columbus and Local #67
IAFF.

SPECIAL LEAVE

734.00 Special Leave procedures of the Division of Fire shall conform to the provisions of
this section and the current Labor Agreement between the City of Columbus and
Local #67, IAFF.

734.02 All requests for Special Leave shall be submitted on Form PR-9 at least 2
working days in advance.

734.04 Jury Duty Leave: Division employees shall be permitted time off while serving upon
a jury in any court of record in Franklin County or adjoining counties.

734.05 Any employee serving jury duty shall obtain a City of Columbus, Jury Duty Report
Form from the Division Administrative Officer before the starting date of jury
duty.
The form shall be completed daily during the course of jury duty and submitted to the
Administrative Officer immediately upon completion of jury duty. *(Revised
12/31/15)*

734.06 Uniformed members will be paid their regular salary less whatever amount
such member may receive as compensation for his services.

Chapter VII
Division Personnel
Procedures

- 734.08 Non-uniformed members will be paid their regular salary for the period of time served as a juror. They will also be paid by the court for their services. All payments received for duty service during regular working hours shall be submitted to the Bureau of Administration as soon as possible.
- 734.10 Examination Leave: Division employees shall be permitted time off with pay for participation in Civil Service tests for taking required examinations pertinent to their employment with the City of Columbus.
- 734.12 Court Leave: Division employees shall be permitted time off with pay when required to attend court as a witness for the City of Columbus.
- 734.14 Employees appearing in court, EXCEPT FRANKLIN COUNTY MUNICIPAL COURT, as a witness for the City, will receive payment from the court for their service. This payment will be made in the form of a certificate of fees, which shall not be cashed, but endorsed and forwarded through channels to the Bureau of Administration as soon as possible. Any travel or other daily costs awarded by the court shall also be submitted to the Bureau of Administration.
- 734.16 Any questions concerning the collection of any witness fees, or fees issued for other services rendered, shall be directed to the Administrative Office. *(Revised 12/31/15)*
- 734.18 Miscellaneous Leave: Time off with pay may also be granted for reasons such as attending classes at approved educational institutions, certain Union business, benevolent duties or other such activities approved by the Chief. *(Revised 12/31/15)*
- 734.20 Time off involving non-fire Division activities such as those mentioned above, will not be granted if such time off would result in an engine or ladder company running with less than four (4) people after 2000 hours.
- 734.22 FMLA *(Added 12/31/15)*

Chapter VII
Division Personnel
Procedures

PUBLIC RECORDS – ACCESS, RELEASE and RETENTION

PUBLIC RECORDS

- 736.00 Any record held by the Division of Fire is a public record.
- 736.02 “Public record” means a record kept by a public office. “Record” means: (1) any document, device, or item, regardless of physical form or characteristic, including an electronic record; (2) created or received by, or coming under the jurisdiction of any public office of a political subdivision; (3) which serves to document the organization, functions, policies, decisions, procedures, operations, or other activities of the office. *(Revised 12/31/15)*
- 736.04 Prior to releasing Division records, Division members shall review the provisions for accessing or releasing public records as provided in this section.
- 736.06 The Fire Division Forms List, published in section 738.00, identifies the Official Division Record Keeper and a Secondary Record Keeper.
- Only the Official Division Record Keeper, identified in the Fire Division Forms List, or his/her designee, may provide copies of, or access to, a Division record.
- 736.08 The Secondary Record Keeper is any Division member who maintains a copy of Division record. Although the Fire Division Forms List identifies only one Secondary Record Keeper, others may exist.
- The Secondary Record Keeper will direct persons requesting a copy of a report or form to the Official Division Record Keeper.
- 736.10 The Secondary Record Keeper shall provide replacement copies, if available, to the Official Division Record Keeper upon request.

Chapter VII
**Division Personnel
Procedures**

736.12 The applicable Official Division Record Keeper, or designee, shall consult section 736.28 for the proper access method prior to providing access to files, forms or records.

RETENTION

736.14 Division records and forms are legally defined as Public Records. As such, certain records and forms are permanent documents that must be retained indefinitely. Others may be disposed of, after they have served their intended purpose.

736.16 The Fire Division Forms List, published in section 738.00, identifies all the Division's forms and the retention period for each.

Before disposing of any Division records, the Fire Division Forms List will be consulted to determine the applicable retention period.

736.18 Disposal of records shall be done in accordance with existing procedures established by the Fire Division and the City of Columbus.

DIVISION OF FIRE RECORDS RETENTION SCHEDULE

Schedule Number	Record Title & Description	Retention Period	Media Type
PSF-01	Annual Report Includes Division Annual Reports and other published periodic reports on Division activities. Monthly reports may be destroyed after year-end report is published.	Permanent	Paper
PSF-02	Correspondence: Executive Correspondence by the Fire Chief (or office) and Bureau Heads dealing with all aspects of their programs. Correspondence includes information concerning policies, procedures, program, fiscal and personnel matters.	4 Years, then destroy.	Paper
PSF-03	Correspondence: General Includes internal correspondence (letters, memos) correspondence to and from various individuals, companies and organizations.	2 Years, then destroy.	Paper
PSF-04	Correspondence: Routine standard form letters	1 Year, then destroy.	Paper
PSF-05	Division Policies and Procedures: Bulletins Includes policies, procedures, directives or information published by the Division detailing operation, regulations, and/or procedures.	Until no longer of administrative value or superseded.	Paper
PSF-06	Division Policies and Procedures: Systems Manual Includes policies and procedures published by the Division detailing standard operating procedures.	Until no longer of administrative value or superseded.	Paper
PSF-07	Division Policies and Procedures: Training Manuals and/or Materials Includes policies and procedures published by the Division detailing fire operations.	Until no longer of administrative value or superseded.	Paper
PSF-08	Organizational Charts	Until superseded or obsolete.	Paper
PSF-09	Executive Orders, Proclamations, and Legislative Advisories	Until superseded or obsolete.	Paper
PSF-10	Leases & Contracts	Retain 5 Years after expiration then destroy.	Paper
PSF-11	Lists/Directories	Until superseded or obsolete.	Paper
PSF-12	Minutes of Meetings Minutes and supporting records documenting internal procedure/policy decisions.	Until no longer of administrative value.	Paper

PSF-72	Public Speaker Requests/Program Requests: Community Relations Form OF-270	1 Year, then destroy.	Paper
PSF-73	Photo/Slide Files Includes negatives, prints slides, transparencies and related items.	Until no longer of administrative value.	Paper/Transparency/Negatives
PSF-74	Records Retention Schedule A listing/form used to identify the length of time records must be maintained before final disposition.	Until superseded	Paper
PSF-75	Records Destruction Documentation Includes listing of specific records (with identifying information) that are destroyed. Information to be included is data and method of destruction, specific records destroyed and who witnessed destruction.	Permanent	Paper
PSF-76	Records Inventory and Analysis Worksheets/Documents Used for conducting an inventory of the Division's program record series. Includes vital information to be used in determining the retention period and disposition of a record.	Until superseded.	Paper
PSF-77	ES/Medical Records Cover Sheet sent with materials requested	1 Year, then destroy.	Paper
PSF-78	Requests for Medical Records Subpoenas & all other requests for medical records.	1 Year, then destroy.	Paper
PSF-79	Medical Release Roster Log book signed by parties when picking up medical records.	1 Year, then destroy.	Paper
PSF-80	Medical Information Release Authorizations Authorization for the release of medical information. Includes patient name, name of individual receiving information, name individual releasing information and notary information, if applicable.	1 Year, then destroy.	Paper
PSF-81	Form ER-64 Monthly Supply Requisition Forms.	4 Years, then destroy.	Paper
PSF-82	Lost Equipment Reports Reports of equipment lost, stolen, missing, destroyed or damaged beyond repair.	4 Years, then destroy.	Paper

Chapter VII
Division Personnel Procedures

Schedule Number	Record Title & Description	Retention Period	Media Type
PSF-83	US DEA Form-222 U.S. Drug Enforcement Agency Form Schedules 1 & 2.	4 Years, then destroy.	Paper
PSF-84	Drug Accountability Forms Controlled substance accountability forms.	4 Years, then destroy.	Paper
PSF-85	Form ES-205 Emergency Medical Supply requisition form.	4 Years, then destroy.	Paper
PSF-86	Form ES-205 pharm EMS Pharmaceutical requisition form.	4 Years, then destroy.	Paper
PSF-87	Emergency Service Check Sheets Daily Drug/Defibrillator Check Sheets	4 Years, then destroy.	Paper
PSF-88	Controlled Substance Log Emergency Medical Service Controlled Substance Record of Administration log.	4 Years, then destroy.	Paper
PSF-89	Controlled Substance Transfer Log Emergency Medical Service Supervisor Controlled Substance Transfer log.	4 Years, then destroy.	Paper
PSF-90	Hose Repair Log Fire hose repair log.	4 Years, then destroy.	Paper
PSF-91	Form EL-50 Record of Fire Hose Testing	4 Years, then destroy.	Paper
PSF-92	Form EL-66 Inventory Record of Station Fire Hoses.	4 Years, then destroy.	Paper
PSF-93	Form RT-154 – Fire Hoses Station Captain verification of hose testing, hose replacement or condemned hoses.	4 Years, then destroy.	Paper
PSF-94	Upholstery Work Order Form Upholstery work orders for repairs to turnout gear, hose or seat covers etc.	4 Years, then destroy.	Paper
PSF-95	Fire/EMS Training Records -Records from Recruit Training, including attendance and performance evaluations and mandatory certifications completed and date received.	3 Years after employment is terminated.	Paper
PSF-96	GPS-Telematics Records	1 Year	Multi
PSF-97	FP-356 – Notice of Dangerous Condition Carbon Monoxide Leak	2 Years	Paper

Audited means: the years encompassed by the records have been audited by the Auditor of the State and the audit report has been released pursuant to Section 11.726 of the Ohio Revised Code.

Chapter VII
Division Personnel
Procedures

ADMINISTRATIVE ACCESS

- 736.20 The public records access procedure is not meant to restrict access by Division personnel in the course of legitimate Division business.
- 736.22 *(Deleted 12/31/15)*
- 736.24 Division members, acting on behalf of the individuals listed above, must present written authorization from that individual on an RT-154 to obtain the specific record requested.
- 736.26 Division members, using their official position to obtain records for reasons outside their official capacity, will be subject to discipline.

ACCESS TO DIVISION RECORDS

- 736.28 Division members and members of the public requesting access to or copies of, Division records will be asked to complete the appropriate Division form:
1. Request for Public Record/Report (form RR-164) *(Added 12/31/15)*
 2. Photo Request (form RI-163)
- 736.30 Access to public records may be restricted due to nature of the information. The Division has specific access methods for the following record types:
- “A” Typical Public Records
 - “B” Medical Records
 - “C” Confidential Law Enforcement Investigatory Records
- 736.32 Access methods, for all Division forms are listed in the Fire Division Forms List published in section 738.00.
- Some Division records have multiple sections, and each section may fall under a different access method.
- 736.34 Some sections of a record may need to be redacted (black out non-public information) before the record can be released.

Chapter VII
Division Personnel
Procedures

RECORD KEEPER

736.36 An Official Division Record Keeper has been designated for each Bureau and some specific offices. The Official Division Record Keeper is responsible for all aspects of records retention and disposition within that Bureau or Office. All record requests should go through an Official Division Record Keeper or designee.

Any Secondary Record Keeper shall direct requests for access to records to the Official Division Record Keeper.

<u>BUREAU OR OFFICE</u>	<u>OFFICIAL DIVISION RECORD KEEPER</u>
Office of the Chief	Administrative Officer
Administration	Administrative Analyst
Emergency Services	Bureau Head
Support Services	Maintenance Officer
Fire Prevention	Records Officer (Prevention 10) Personnel
Personnel	Manager
Training	Bureau Head

736.38 (Deleted 12/31/15)

ACCOUNTABILITY

736.40 The Official Division Record Keeper is responsible for maintaining a record of all Requests for Public Record/Report (RR-164) and Photo Request (RI-163) for five years, or the life of the record, whichever is greater. If, due to the nature of the record, a copy of the RR-164 or RI-163 cannot be kept with the record, an office ledger or folder containing the request forms shall be maintained by the Official Division Record Keeper.

736.42 Any records known to be associated with an ongoing investigation may not be viewed or copied without the express permission of the Fire Chief.

736.44 - 736.52 (Deleted 12/31/15)

Chapter VII
Division Personnel
Procedures

ACCESS METHOD “C” -- CONFIDENTIAL LAW ENFORCEMENT / INVESTIGATORY RECORDS

736.54 The Ohio Revised Code Section 149.43 Paragraph 2, Sections a, b, c, and d states:
Records that pertain to a law enforcement matter of a criminal, quasi-criminal, civil, or administrative nature and that, if released, would create a high probability of disclosing the identity of an uncharged suspect, the identity of a confidential source, information that would endanger the life or physical safety of law enforcement personnel, a crime victim, a witness, or a confidential information source, specific confidential investigatory techniques or procedures, or specific investigatory work product, are exempt from disclosure as confidential law enforcement investigatory records.

736.56 A request for the records of an ongoing or pending criminal, quasi-criminal, civil, or administrative nature shall be made in written form.

The Investigator handling the case will be contacted. That Investigator and his/her chain of command will make the decision, whether the case is exempt from release per O.R.C. 149.43 or other applicable State or Federal Law.

If the chain of command determines the information being requested is exempt from public disclosure, the records and the RR-164 and /or RI-163 will be presented to the Fire Chief for a final determination.

FIRE DIVISION FORMS LIST

738.00 The current Fire Division Forms List will be inserted as the next section of this manual.

***American College of Emergency Physicians

UNPAID LEAVES OF ABSENCE

- 742.00 An unpaid leave of absence occurs when a member is AWOL, on LWOP, or serving a Suspension.
- 742.02 AWOL (absent without leave)
1. Unapproved absence from duty.
 2. Unpaid status.
 3. Subject to disciplinary action.
- 742.04 LWOP (leave without pay)
1. Pre-approved absence from duty in accordance with the provisions of Article 29 of the current contract.
Any other absence will be considered AWOL.
 2. Must be approved by the Chief.
 3. Unpaid status.
- 742.06 Suspension
1. Absent as a result of disciplinary action.
 2. Unpaid status.
- 742.08 Members shall monitor their sick leave and vacation balances to ensure they have sufficient time to cover their absences. Members who have exhausted their vacation and sick leave cannot arbitrarily opt to “go off the payroll” without prior approval of the Chief. Personnel not reporting for duty in this situation will be considered AWOL.
- 742.12 Members must ask for and receive approval for FMLA leave prior to taking time off, except in emergency situations.

SUBPOENA/SUMMONS PROCEDURES

- 750.00 Fire Division personnel are subject to being subpoenaed or summoned to provide testimony in a variety of civil and criminal court actions. This section contains information and guidelines designated to assist Division members who are called upon to participate in these proceedings. *(from 560.00 - Revised 12/31/15)*
- 750.02 Any Division member receiving a summons or subpoena is legally responsible for acknowledging and answering such citation. Failure to react to same could result in a penalty. Members should be certain to report to the designated courtroom or other specified location on time, as being late could result in a contempt charge or cause the case to be dismissed. *(from 560.02 - Revised 12/31/15)*
- 750.04 Normally, subpoenas and summonses are initially received at Fire Division Headquarters and forwarded through regular Division channels to the involved personnel. Members receiving these documents shall notify their immediate supervisors as soon as possible, relaying the particulars of the subpoena/summons and noting any possible scheduling conflicts that may be involved. *(from 560.04 - Revised 12/31/15)*
- 750.06 Each subpoena or summons will list the appearance date and time, the court address and courtroom number, the defendant's name, the plaintiff's name, and the name of the prosecutor or attorney who issued the notification. In addition, the complaint or charges will usually be listed. *(from 560.06 - Revised 12/31/15)*
- 750.08 Division members receiving summonses or subpoenas shall be required to promptly determine the circumstances of the incident involved. If the subject matter is not known or cannot be readily recalled, the person issuing the document should be contacted. Members shall ascertain the date and address of the incident, names of all parties involved, nature of the incident, and the subject matter that they may be required to address. *(from 560.08 - Revised 12/31/15)*

Chapter VII
**Division Personnel
Procedures**

750.12 Civil cases might involve such things as fire incidents, medical incidents, accidents involving fire apparatus, or suits of just about any nature. The Division bureau involved should be contacted in order to ascertain the present status of the particular case and the official position of that bureau. In any case where the situation is questionable and/or may possibly be detrimental to either the City, Division of Fire, any fire personnel, the general public, or to the holding of an open criminal investigation, the concerned Bureau Head will discuss the matter with a representative of the City Attorney's Office. Members should not discuss details of any case in which they are involved with anyone other than those Division members and designated legal representatives who are directly involved with the case.

(from 560.12 - Revised 12/31/15)

COURTROOM APPEARANCE PROCEDURES

750.14 Members called upon to appear in court for any purpose associated with their employment with the Division of Fire shall wear the appropriate dress uniform as indicated by their current duty assignment. Any deviation from this requirement will take place only with the expressed permission of the involved member's bureau head.

(from 560.14 - Revised 05/01/16)

750.18 Juvenile Court: Members should report to the front desk, identify themselves, and ask for the number of the courtroom in which the case in question is scheduled to be heard. Then report to the prosecutor or bailiff at that courtroom.

(from 560.18 - Revised 12/31/15)

POLICY STATEMENT/PROGRAM OVERVIEW

- 800.00 It is the policy of the City of Columbus that the public has the right to expect persons employed by the City in its Fire Division will be free from the effects of drugs and alcohol. The City, as the employer, has the right to expect its members to report for work fit and able for duty and to set a positive example for the community. The purposes of this policy shall be achieved in such manner as not to violate any established constitutional rights of the members of the Fire Division.
- 800.02 The Columbus Fire Division (CFD) has as its primary objective to provide the safest and most efficient public services possible for Central Ohio residents. Among the multitude of factors influencing its ability to accomplish this, no variable has a more significant impact than maintaining members who are physically fit, mentally healthy and alert on-the-job. Naturally, being free from the effects of drugs or alcohol is a requisite for achieving this, and as such, is a condition of employment with CFD. The CFD strives for a drug-free work environment to ensure a safe workplace for all members and to minimize job performance problems throughout its workforce.
- 800.04 To accomplish these objectives, all members will be subject to drug testing under the circumstances set forth in the Collective Bargaining Agreement between the IAFF and the City of Columbus. A member's refusal to submit to such testing upon request will be considered a positive test. A member who submits an altered test sample will be considered to have tested positive. A member who tested positive for the presence of drugs or alcohol will not be permitted to return to work until after he/she has passed a return-to-duty drug/alcohol test. The collective bargaining agreement has established a disciplinary policy that clearly defines prohibited conduct and the consequences of its violation. The CFD has contained the disciplinary policy in Section 846.00-846.10 of this Manual.
- 800.06 Specifically, possessing, using, selling, purchasing, manufacturing, dispensing of any illegal drug by CFD members is strictly prohibited. Violations of the above regulations create serious safety risk to the public, co-workers, and the member and therefore are

Chapter VIII
Substance Abuse Policy and Procedures

grounds for action. In addition, reporting to work or working under the influence of alcohol as defined by the collective bargaining agreement is strictly prohibited.

- 800.08 Due to many factors, including the lingering effects of alcohol, it is difficult for any individual to be certain of his/her own blood alcohol content (BAC) following alcohol consumption. Therefore, for a member to ensure that, while working, he/she is within the numerical BAC limit established in this policy, CFD requires that members not use alcoholic beverages during breaks, lunch period, or four (4) hours prior to reporting for duty.
- 800.10 Off-duty use of illegal substances can have a profound impact upon a member's productivity, and other aspects of job performance. These factors have the potential to adversely affect the CFD both on an immediate and long-term basis. For these reasons, it is prohibited for members to have illegal drugs in their systems as detected by urine tests above the positive level as set forth in the collective bargaining agreement.
- 800.12 A member who is using therapeutic (i.e. prescription) or over-the-counter medications must report the required use of such medications to his/her supervisor prior to the beginning of the member's shift if the substance could impair coordination, cause drowsiness, or could otherwise interfere with the safe performance of duties..
- 800.14 A third party vendor shall administer all drug and alcohol testing. The City and Local IAFF 67 shall mutually agree upon the vendor. The drug and alcohol testing is designed to treat all members subject to such testing in a fair and impartial manner, according to the terms and conditions set forth in the collective bargaining agreement.

APPLICABILITY

- 802.00 All uniformed employees in the bargaining unit whose terms and conditions of employment are governed by the current Collective Bargaining Agreement shall be subject to drug and alcohol testing. Members are responsible for adhering to this policy without exception. Officers will be held strictly accountable for fair and consistent enforcement of the Drug and Alcohol Testing Policy. The policy shall be applied in an impartial and non- discriminatory manner. Any officer who knowingly fails to enforce

Chapter VIII
Substance Abuse Policy and Procedures

the requirement of this policy or intentionally misuses the policy in regard to subordinates will be subject to disciplinary action.

MEDICAL REVIEW PHYSICIAN (MRP)

- 804.00 The Medical Review Physician will be a licensed physician who is familiar with the characteristics of the tests used, and will be the sole person responsible for the initial receipt, evaluation, and interpretation of the test results. The City and Local IAFF 67 mutually agree upon the Medical Review Physician. If the test results are initially determined to be positive, the MRP shall examine alternate medical explanations for any positive test results. This may include conduction of a medical interview with the affected employee, review of the employee's medical history, review of any current prescribed medication, review of the chain of custody and review any other relevant biomedical factors. The MRP will review all medical records made available by the tested employee. An employee shall be expected to cooperate promptly with the MRP.
- 804.02 The MRP may verify a test as positive without interviewing the effected employee if more than 5 days elapse after the MRP first attempts to contact the employee. Once the MRP determines that the test is an actual positive then he/she will contact the Fire Chief or designee to notify of the positive test result.
- 804.04 The Human Resources Department has hired a Drug and Alcohol Coordinator (DAC) to perform the coordinating of testing duties associated with the citywide drug and alcohol testing. This includes the CFD drug and alcohol program.
- 804.06 The DAC shall coordinate aspects of the CFD drug and alcohol program, i.e., receiving test results, keeping records, and providing technical assistance to CFD.

EDUCATION AND TRAINING

- 806.00 To increase member awareness of the potential dangers and consequences of substance abuse in the workplace, the members will be provided with education and training. All CFD members will be given training regarding the Substance Abuse Policy.

Chapter VIII
Substance Abuse Policy and Procedures

806.02 Officers and firefighters who routinely work out of classification as supervisors, who are responsible for making reasonable suspicion testing referrals, will be provided with additional training on a yearly basis. This training will focus upon the physical and behavioral indicators of possible substance abuse, which could lead to reasonable suspicion testing. The failure of an officer or firefighter to participate in this training shall not render the results of a reasonable suspicion test invalid or inadmissible in any disciplinary action under this policy.

PROHIBITED CONDUCT

808.00 The use, possession, delivering, dispensing, manufacturing, selling or purchase of alcohol or illegal drugs as set forth in the current Collective Bargaining Agreement by members of the Fire Division is strictly prohibited.. Members may not work with positive levels of illegal drugs or alcohol as set forth the collective bargaining agreement, even if those drugs or alcohol were ingested during their off-duty hours and off City property.

808.02 All uniformed members in the Fire Division are prohibited from engaging in the following specific conduct as set forth in the current Collective Bargaining Agreement:

- Reporting to work or working under the influence of alcohol and/or drugs;
- Consuming alcohol at any time during the work day or the four (4) hours prior to the beginning of the work day, except that if an employee refuses overtime because he has consumed alcohol four (4) hours prior to beginning of the overtime shift that refusal will not affect the employee's place on the call-in list, nor will it be grounds for disciplinary action;
- Consuming or possessing alcohol anywhere on any city premises or job sites, including City buildings, properties, vehicles and the employee's personal vehicle while engaged in city business;
- Possessing, using, selling, purchasing, manufacturing, dispensing any illegal drug at any time and at any place;

Chapter VIII
Substance Abuse Policy and Procedures

- Abusing any prescription drug, whether prescribed for the employee or another person.
- Failing to confer with their physicians when prescribed any medications and immediately reporting to their supervisor any restrictions imposed by their physicians.

USE OF PRESCRIPTION DRUGS

- 810.00 A member who is using therapeutic (i.e., prescription) drugs or over-the-counter medications must report the use of such medications to his/her supervisor prior to the beginning of the employee's shift if the substance could impair coordination, cause drowsiness, or could otherwise interfere in the safe performance of duties. If a member is unable to perform his duties safely because of his prescription medication, he may be required to take sick leave rather than remain on duty.
- 810.02 If the member is unsure as to whether a particular medication has the potential to impair job performance and thus warrants reporting, he/she must consult a physician, a pharmacist, or the product package label. In the case of prescribed substances, their use must be medically indicated and explained as such in writing by the member's prescribing physician. The member must submit written verification of such (i.e. physician's letter or prescription) to his/her supervisor for maintenance in Division records for as long as the member is required to take the medication.
- 810.04 When the above described medical verification is provided, a member may be permitted to continue working as long as the Division's Medical Review Physician determines that such use does not pose a threat to the safety of co-workers, the public and/or the member. Furthermore, that its use will have no adverse influence upon the member's ability to competently perform his/her job. If these safeguards cannot be ensured, however, the member may be required to take sick leave, a leave of absence, or comply with other appropriate requests made by the Fire Chief until such time as the course of medical treatment is discontinued.

VOLUNTARY REQUEST FOR ASSISTANCE

812.00 Members are encouraged to seek professional help, whether through the Employee Assistance Program (EAP) or from a private substance abuse professional, with any substance abuse problem. Any member who voluntarily seeks help shall not be disciplined; but, in accordance with the current Collective Bargaining Agreement, must do the following:

- (a) Agree to cooperate in and successfully complete appropriate treatment as determined by the substance abuse professional(s) or physician(s) involved;
- (b) Discontinue use of illegal drugs or misuse of alcohol,
- (c) Agree to authorize persons involved in counseling, diagnosing and treating the member to disclose to the Fire Chief, the Public Safety Director, the City's attorneys, and the EAP Administrator, the member's progress, cooperation, drug and alcohol use, completion or non-completion of counseling and treatment and any threat to property or safety perceived in connection with the member's continued performance of his or her job duties;
- (d) Complete any course of counseling or treatment prescribed, including any " after-care" group for a period of up to twelve (12) months, and
- (e) Agree to submit to random follow-up testing up to eight (8) times per twelve- (12) month period for the following thirty-six (36) months (i.e. the 36 months following entry into treatment).

812.02 Members who do not agree to act or who do not act in accordance with Section 812.00 of this manual shall be subject to discipline, up to and including discharge.

812.04 The member cannot return to active duty until it is determined that the member's current use of alcohol or drugs does not inhibit the individual from safely performing his/her duties or constitute a direct threat to property or safety.

Chapter VIII
Substance Abuse Policy and Procedures

- 812.06 Treatment and rehabilitation costs arising out of a member's Voluntary Request for Assistance services shall be paid for by the member's insurance program, subject to any deductible, co-payment and policy limits under the member's insurance program.
- 812.08 Members will be allowed to use their accrued and earned leave (vacation, sick leave, or comp time) or to take an unpaid leave of absence for the necessary time off involved in a Voluntary Request for Assistance rehabilitation program.

EMPLOYEE ASSISTANCE PROGRAM

- 814.00 The City maintains an Employee Assistance Program (EAP), which provides help to members and their family members who have alcohol, drug abuse or other personal or emotional problems. Professional counseling services are provided by a group of mental health providers. The initial services are free, and members may contact the EAP on their own without CFD permission. The Employee Assistance Program shall hold voluntary requests for assistance with drug and/or alcohol problems strictly confidential to the extent required by law and the terms of the current Collective Bargaining Agreement. Only upon written authorization by the employee may the EAP inform the Fire Chief, the Public Safety Director, and the City's attorneys, of any such request or any treatment that may be given and those city employees shall hold such information strictly confidential. All such information shall also be available to the Union Officer(s) to whom disclosure is specifically authorized if the member authorizes such disclosure in writing.
- 814.02 For substance abuse problems each member should voluntarily seek rehabilitative assistance through EAP, by a self-referral, before alcohol and/or drug problems negatively impact job performance or lead to a violation of the substance abuse policy.
- 814.04 Once Reasonable Suspicion or Random Testing has been conducted, subsequently requesting assistance through EAP on a voluntary basis cannot be used as a defense to the imposition of disciplinary action and will have no influence on the determination of the type/severity of discipline. Since referrals to EAP will not be permitted in lieu of disciplinary action, a member should understand that the member cannot avoid discipline by opting for EAP assistance once a policy infraction occurs.

Chapter VIII
Substance Abuse Policy and Procedures

- 814.06 Correspondingly, a member can be assured that his/her decision to seek voluntary assistance through EAP prior to testing positive will not result in disciplinary action, in and of itself, provided that he/she successfully completes treatment and maintains a commitment to oneself and the CFD to remain alcohol and/or drug-free. Part of such an agreement must include periodic, follow-up drug/alcohol testing for a specified period of time, and evidence of passing the tests to ensure continued commitment (as set forth in the current Collective Bargaining Agreement).
- 814.08 Although the CFD strongly supports the rehabilitation of members from substance dependencies in order to return them to productive service, it contends that the strict approach described above is essential in an industry where public safety is so at issue. To adopt a more lenient approach (one whereby members can circumvent or lessen discipline following a policy violation by voluntarily entering rehabilitation) may diminish a member's incentive for making a voluntary, up-front, self-referral. For instance, a member may risk being caught under the influence of a substance if he/she reasons that employment will not be in jeopardy contingent upon willingly entering the EAP. Member perceptions of this sort are dangerous. Such a system, as appropriate and feasible as it may be in some industries, would probably be counterproductive in public safety; it may well impede safety rather than promote it. CFD philosophy should help to encourage self-referrals before alcohol and/or drug problems create hazardous conditions or events, consequently threatening an individual's employment.

TYPES OF TESTS

- 816.00 In accordance with the collective bargaining agreement between the City and the Union (IAFF Local 67) and pursuant to this policy, members of the Columbus Fire Division are subject to the following types of tests:
- Reasonable Suspicion
 - Random
 - Return to Duty
 - Follow-up Testing

TESTING STANDARDS

- 818.00 Laboratory Certification: An outside contractor to provide collection services, laboratory testing and medical review of test results shall be selected by joint agreement of the City and the Union. The laboratory performing any drug test analyses shall be certified under The Health and Human Services (HHS) federal standards.
- 818.02 Licenses and Certifications: Any facilities and personnel administering breathalyzer tests shall hold all necessary licenses and certificates required by law and shall be approved by the Union. If these facilities are subcontractors of the outside contractor assisting in the administration of the drug and alcohol-testing program, the Union approval of the contractor is also approval of its subcontractors.

SPECIMEN COLLECTION / TESTING FOR DRUGS

- 820.00 Breathalyzer tests and urine specimen collections will be collected, stored and transported in a manner consistent with HHS guidelines. Records establishing the chain of custody of all specimens shall be made and maintained by the outside contractor. If the chain of custody for any sample is broken in any way, any positive test shall be invalid and may not be used for any purpose (unless the City demonstrates that the break did not affect the reliability or accuracy of the results.) Any such test shall not be counted against the number of tests to be performed annually.
- 820.02 Collection of urine samples shall be conducted in a manner that is consistent with HHS guidelines. Urine specimens shall be collected in private, except in the circumstances described in 49 C.F.R. section 40.25(e)(2) of the HHS guidelines. A split urine sample shall be collected in all cases of drug testing for an independent analysis in the event of a positive test result. All urine samples must be stored and preserved in a manner that conforms to HHS guidelines.

Chapter VIII
Substance Abuse Policy and Procedures

820.04 On the screening test, urine specimens will be analyzed for the following drugs in the stated concentrations:

Marijuana metabolites	50 ng/ml
Cocaine metabolites	300 ng/ml
Opiate metabolites	300 ng/ml
Phencyclidine	25 ng/ml
Amphetamine	1000 ng/ml
Methaqualone	200 ng/ml
Benzodiazepine's	300 ng/ml
Barbiturates	200 ng/ml
OxyContin	100 ng/ml
Ecstasy	500 ng/ml
Synthetic Marijuana (K2/Spice)	20-5.0ng/ml
Synthetic Cathinone's (Bath Salts)	20 ng/ml

820.06 If the screening test is positive for one or more of the drugs listed above, a confirmation test shall be conducted, using gas chromatography/mass spectrometry (GC/MS) analysis. The level of illegal substances must meet or exceed the following guidelines for confirmation tests:

Marijuana metabolites*	15 ng/ml
Cocaine metabolites**	150 ng/ml
Opiates:	
Morphine	300 ng/ml
Codeine	300 ng/ml
Phencyclidine	25ng/ml
Amphetamines:	
Amphetamine	500 ng/ml
Methamphetamine	500 ng/ml
Methaqualone	200 ng/ml
Benzodiazepines	300 ng/ml
Barbiturates	200 ng/ml
OxyContin	50 ng/ml
Ecstasy	300 ng/ml
Synthetic Marijuana (K2/Spice)	20-5.0 ng/ml
Synthetic Cathinone's (Bath Salts)	20 ng/ml
* Delta 9 tetrahydrocannabinol 9 carboxylic acid	
**Benzoyl ecgonine	

820.08 These concentration levels may be revised by the City to remain consistent with any changes in the HHS guidelines. All urine specimens shall be tested for adulterants.

BREATHALYZER TESTING

- 822.00 Alcohol tests performed under this policy shall be done with an evidential breath testing device (EBT), otherwise referred to as a Breathalyzer, which device has been approved by the National Highway Traffic Safety Administration (NHTSA). The EBT must print out the results, the date and time of the test, a test number, and the name and serial number of the EBT. It shall also include the identification of the breath alcohol technician (BAT) conducting the test.
- 822.02 A breath test shall be required to determine if a person has an alcohol concentration in excess of 0.04 grams per 210 liters of breath. Any results less than 0.04 concentration shall be considered a negative test; any test at or over 0.04 concentration shall be considered a positive result requiring confirmation. Any EBT test result indicating an alcohol concentration of more than 0.04 shall be confirmed by laboratory analysis of a blood sample. The confirmation level of the blood test shall be an alcohol concentration of 0.04 grams per 100 ml. of blood. In the case of a member who refuses to submit to a blood test, the positive Breathalyzer test will stand and will be considered as a positive result.

RANDOM TESTING

- 824.00 All uniformed employees covered by the Collective Bargaining Agreement in the Fire Division shall be subject to drug and alcohol testing at random during their workdays. Annually, there will be a number of drug and alcohol tests equal to twenty-five percent (25%) of the total number of employees. Drug and alcohol tests will be conducted reasonably throughout the year.
- 824.02 Members will be selected for drug and alcohol testing by the outside contractor from a list of employees provided to the vendor by the City. That list shall be updated monthly or as necessary, to include new hires and to delete those persons who have resigned, retired or otherwise been terminated from City service. Members will be selected by a City identification number, and the contractor shall not use any other identifying

information in making the selections. The contractor shall select employees for random testing using scientifically valid method.

824.04 Random drug and alcohol testing shall be coordinated by the DAC in the Human Resources Department, who shall ask the outside contractor to generate a random list and coordinate the scheduling and testing with a Division representative. All testing will occur during a regularly scheduled workday for members. If member is off on sick leave, vacation leave or other leave, he/she will be excused from testing, but remain subject to random testing in the future.

824.06 Members shall be notified that they are to be tested and taken to the testing site as soon as possible thereafter. The member will be transported to and from the testing site by a supervisor, who will remain with the member until he/she is tested. After being notified of testing, members may drink water in reasonable quantities, but may not consume any substance intended to adulterate urine specimens.

824.08 In the case of random testing, transportation will be performed by SO4.

REASONABLE SUSPICION TESTING

826.00 When the City has reasonable suspicion that an employee:

- (a) is under the influence of alcohol or is consuming or possessing alcohol in violation of the contract and this policy; or
- (b) is abusing prescription drugs; or
- (c) is possessing or using illegal drugs, or
- (d) a member has five (5) or more lates or absences in a calendar year, the City may require the employee to submit to drug and/or alcohol testing. Except for those instances where the reasonable suspicion is based on the possession of alcohol or illegal drugs in violation of the collective bargaining agreement, or based on five (5) or more absences, the member must exhibit physical signs. Examples of these signs are set forth in Section 826.02 below.

826.02 If a supervisor has reason to believe that a member is under the influence of drugs or alcohol on the job, the supervisor may initiate reasonable suspicion testing. At least two supervisors or acting supervisors must personally observe the member and agree that the member exhibits physical signs of being under the influence of drugs and/or alcohol. These physical signs may include, but are not limited to the following:

- Poor physical coordination unsteady walking
- Hand tremors
- Slow reactions and clumsy movements
- Slurred speech
- Odor of marijuana or alcohol about the employee's Person
- Dilated or constricted pupils
- Glassy or bloodshot eyes
- Disorientation
- Difficulty concentrating
- Restlessness or nervousness
- Sleepiness
- Unusual aggressiveness or combativeness
- Raised voice or unusual talkativeness
- Possession of suspected illegal drugs
- Consumption of drugs or alcohol
- Runny nose
- Deterioration of personal hygiene

826.04 Supervisors may utilize form PI-11, Reasonable Suspicion Incident Flow Sheet during the decision making process. The supervisors should document their observations using Form PI-18, Reasonable Suspicion Incident Checklist and write statements documenting their observations. The supervisors should immediately contact the Drug and Alcohol Coordinator (DAC), or designee, in the Human Resources Department, through the on-duty Deputy Chief or their Bureau Head. Relate this information to the DAC, who will act as a consultant to the officers. The DAC can be contacted at any time, day or night. The written statements or forms should be submitted to the DAC through the chain of command as soon as possible.

Chapter VIII
Substance Abuse Policy and Procedures

- 826.06 If a supervisor has reasonable suspicion that a member has been abusing or misusing prescription drugs which do not fall in the listed categories in this policy, the DAC can consult with the testing facility to request a test for such prescription drugs, using the levels for screening and confirmation established by the testing laboratory in accordance with HHS guidelines.
- 826.08 When a member is to be tested, the requirements of Section 828.00 shall be followed

REASONABLE SUSPICION INCIDENT PROCEDURE

- 828.00 The following personnel will be permitted to request a reasonable suspicion alcohol or drug test:
1. Any officer in the Division of Fire or
 2. Any firefighter who is working in an out-of-class position.
- 828.02 As one of the personnel mentioned in Section 828.00, if you have a firefighter or officer under your command that you believe to be under the influence of alcohol or drugs, a second officer will be called in to confirm a reasonable suspicion. As stated in Section 826.00, a member to be tested must exhibit physical signs, or be in possession of alcohol or illegal drugs, or have five (5) or more lates or absences in a calendar year.
- 828.04 A second officer will be called in to confirm a reasonable suspicion. If the suspicion is confirmed, then proceed to Section 828.06. If the second officer does not believe there is reasonable cause, then the first officer may:
1. Reevaluate your suspicion and agree with the second officer. At this time, the process will be terminated. Document incident and place in file
 2. You may call in a third officer (next higher officer in your chain of command). When the third officer arrives, the three officers will go over all information with regard to this incident. If two of the officers agree there is reasonable cause, then proceed to 828.06. If two of the officers

Chapter VIII
Substance Abuse Policy and Procedures

do not agree there is reasonable cause, then the process will be terminated. Document incident and place in file.

All information will be documented on a Reasonable Suspicion Incident Checklist (Division form PI-18), with the signatures of all officers involved.

828.06 If the decision is made to proceed with the reasonable suspicion test, then the Drug and Alcohol Coordinator (DAC) will be contacted through the on-duty Deputy Chief or Bureau Head. The DAC may offer technical assistance but the decision to test rests with the observing officers. If the member is to be tested the DAC will make arrangements for testing with the outside contractor and notify the Deputy Chief or Bureau Head of the location for testing. The DAC will notify the testing site of the specific test(s) to be performed.

828.08 The observing officers shall have the authority to order a reasonable suspicion test based on observable behavior. In such cases, the firefighter will be informed of his/her right to IAFF Local 67 representation. It is the decision of the affected firefighter whether or not to have Union representation.

If he/she wishes, the member may have a Union representative with him/her throughout this process. However, the testing process will not be delayed if a Union representative is not immediately available. Unreasonable delay means twenty minutes for alcohol or two hours for drugs.

The observing offices shall see that the necessary written notice setting forth the facts and inferences from such facts, which form the basis of the order to test is filled out for presentation to the member per Section 842.04.

If the person under suspicion refuses to be tested or refuses to sign the Member Consent to Testing form (Division form PI-33), document this and inform them that refusal of either is considered a positive test. The person will be relieved of Duty and will be subject to disciplinary action as set forth in Sections 846.00 - 846.10 of this manual.

828.10 If the person under suspicion agrees to be tested then the Deputy Chief or Bureau Head will contact the Alarm Office and request transportation for a drug test (see section

Chapter VIII
Substance Abuse Policy and Procedures

832.00). The observing officers will remain with the member until the transportation officer has arrived. One will remain with the suspected firefighter or officer at all times.

828.12 The suspected firefighter or officer will not be permitted to leave the room, nor will they be allowed to eat or smoke. If they request something to drink, then they will be allowed no more than 12 oz. of water.

828.14 The firefighter or officer will be transported to a collection site in accordance with Section 832.00 - 832.16.

828.16 If the person being tested is transported back to their assigned station or office, the officer in charge of that firefighter or officer will request that they call someone to pick them up and drive them home. If the firefighter or officer tells the supervisor that the firefighter or officer does not have someone to pick them up and drive them home, then the officer in charge will arrange to have the firefighter or officer transported to their home. If the firefighter or officer insists on driving himself or herself home, then the officer in charge will advise them that the Columbus Police will be contacted and given the description and license number of their vehicle.

828.18 If at any time during this process, the piece of equipment that the person making the reasonable suspicion or the one suspected is assigned to, is dispatched on a run, and that vehicle cannot meet the minimum staffing requirement without them, then that piece of equipment will be called out of service. Any officer called in to confirm a suspicion will call out of service at the time they are notified of the suspicion and remain out until the suspected person has refused or has been transported to a collection site.

828.20 Any firefighter, who believes that another firefighter or officer is under the influence of alcohol or drugs, may report this to the immediate supervisor of that person. That officer will investigate and:

1. If he or she believes there is reasonable cause, then they will go back to section 828.00 and proceed from there.
2. If he or she does not believe there is a reasonable cause, they will discuss this with the firefighter that brought it to their attention. If the

firefighter agrees with them, then the incident will be documented and no further action taken.

3. If he or she does not believe there is a reasonable cause, but the firefighter that brought it to their attention still believes there is a problem, then the officer will document his or her feelings and call a second officer.
4. If the second officer does not believe there is a reasonable cause, then this will be explained to the firefighter who initiated the complaint. The incident will be documented and no further action taken. If the second officer believes there is reasonable cause and the first officer does not, then refer back to Section 828.04 for a third officer's opinion and proceed from there.

TIME OFF PENDING RECEIPT OF REASONABLE SUSPICION TEST RESULTS

830.00 Except in instances of periodic follow-up, a member will not be permitted to work pending receipt of the test results. He/she will be paid any available sick time for the time off from work while "fitness for duty" is being determined. If the member passes the test, he/she will be credited back the sick days that he/she was charged while test results were pending. If the employee passes the test, has no sick time available, he/she will then be paid at his/her normal hourly rate for all hours lost.

TRANSPORTATION FOR TEST

832.00 In the case of reasonable suspension testing, transportation will be performed by EMS-11. Transportation for reasonable suspicion testing will follow the next steps. When there is a reason to have a firefighter or officer tested, the Deputy Chief or Bureau Head for 40-hour personnel will contact the Fire Alarm Office (FAO) and request transportation for an alcohol and drug test. The FAO will be given the location for the transportation officer to report to. At no time will the FAO be given the name of the person to be transported.

Chapter VIII
Substance Abuse Policy and Procedures

- 832.02 The FAO will notify EMS-11 via telephone and give them the location to which to report. At no time will this information be given out over the radio.
- 832.04 If EMS-11 is on a run, he/she will be taken off that run and report, without delay, on a Signal X to the location that they are given. If EMS-11 feels that an EMS officer is needed on the run that he/she was taken off of, he/she will notify the FAO to replace him/her on that run with another EMS officer.
- 832.06 If EMS-11 is out of service, transporting someone to a collection site, and transportation is needed from another location, then the FAO will contact EMS-12, EMS-13, EMS-14, EMS-15, EMS-16, or EMS-17, whichever is closest to the station or office requesting the transportation. This will be an officer that is permanently assigned to one of these vehicles. At no time will a firefighter working out-of-class be permitted to transport someone to a collection site for reasonable suspicion testing. If none of the EMS officers are available, then a battalion chief will be used for transportation.
- 832.08 The transporting officer will give the FAO his/her ETA. The FAO will contact the Deputy Chief or Bureau Head, via telephone, and confirm that transportation has been arranged and give them the ETA.
- 832.10 The officer responsible for transporting someone to a collection site for reasonable suspicion testing will at no time be permitted to transport that person by him/herself.
- If staffing permits, a firefighter from the station involved in the incident will accompany the officer to the collection site. If staffing does not permit, a medic will be called out of service. If a medic is not available, or the location of the closest one might unreasonably delay the transportation, then the Engine Company at the involved station will be called out of service. If the officers initiating the reasonable suspicion test requests to go along, and staffing permits, he/she may do so and a firefighter will not be needed.
- 832.12 During the transportation, the officer in charge will not let the firefighter or officer out of their sight at any time until testing is completed.
- 832.14 When the test is completed, the supervisor shall transport the member to his home if the member is unable to make other transportation arrangements. The member should

not be permitted to drive himself, and if he does, the supervisor shall notify the Columbus Police Division, giving the license plate number and a description of the vehicle.

- 832.16 The member shall be relieved of duty and remain off duty until the test results have been received by the Drug and Alcohol Coordinator. If the test results are negative, the member may return to work on the next regularly scheduled day, and shall be paid for any work time missed while relieved of duty. If the test results are positive, the member shall be required to agree to act in accordance with the requirements of the current Collective Bargaining Agreement. The member will remain off duty and may not return to duty until he/she has been evaluated by a substance abuse professional as defined in the HHS guidelines. The member may use vacation leave or compensatory time to cover this absence. A member may use sick leave in conformity with the current Collective Bargaining Agreement, and any applicable policies or work rules.

POSITIVE DRUG OR ALCOHOL TEST

- 834.00 The following will be considered to be positive tests:
- (a) Drug tests which meet or exceed the standards set forth in the Contract;
 - (b) Drug tests which indicate abuse of prescription drugs;
 - (c) Alcohol tests which meet or exceed the standards set forth in the Contract;
 - (d) Refusal to submit to a drug or alcohol test when so ordered by the proper authority;
 - (e) Refusal to sign the "Employee Consent to Testing" form (PI-33);
 - (f) Submitting an altered urine specimen for drug testing.

PROCEDURES AFTER POSITIVE TESTS

- 836.00 The DAC will not notify members if the tests, i.e., reasonable suspicion, random, and follow-up, are negative. When he/she receives notice from the outside contractor that a member has a confirmed positive test, the DAC will notify the Fire Chief or his/her

Chapter VIII
Substance Abuse Policy and Procedures

designee. The Fire Chief or designee will then notify the member and relieve him/her of duty. The Fire Chief or designee will make sure the member agrees to act in accordance with the requirements of the current Collective Bargaining Agreement. The DAC or Fire Chief or designee will advise the member that he/she must cooperate in an evaluation for chemical dependence and refer him/her to the Employee Assistance Program (EAP). If a member consults an outside substance abuse professional for an evaluation, he/she shall provide the DAC with a copy of the evaluation.

The EAP will monitor the member's progress in treatment and confirm that the member is complying with all program requirements. The member will remain off duty until the EAP confirms he/she is ready to return and tests negative on a return to duty test.

The return to duty test will also be scheduled by the DAC and all results reported to the DAC. The member will be returned to duty on his/her next regularly scheduled shift after being notified by the DAC of the test results. If the result is positive, the member will remain off duty, the DAC will notify the Fire Chief or designee, and disciplinary action will be initiated.

836.02 A member who disputes a positive result of a drug analysis may request that an analysis of the split specimen be conducted by notifying the DAC within seventy- two (72) hours of receiving a positive test result. The member may have the test performed at the laboratory of his/her choice, providing said laboratory meets HHS guidelines. The member will pay the cost of such testing prior to the actual testing.

836.04 Any refusal to submit to a drug or alcohol test will be construed as a positive test result. The member will be required to comply with all requirements (i.e., relief from duty, evaluation and treatment, return-to-duty test, follow-up tests, etc.) if this is a first positive. If the refusal is a second positive, the member shall be subject to disciplinary action, up to and including termination.

RE-ENTRY CONTRACT

838.00 A member who has tested positive during a drug or alcohol test, or who has voluntarily entered rehabilitation without a drug or alcohol test, must enter into a Re-Entry

Chapter VIII
Substance Abuse Policy and Procedures

Contract with the City and the Division of Fire before being permitted to return to work. Form PI-36, Substance Abuse Policy Conditional Employment Contract, is the Division of Fire's Re-Entry Contract which the member must sign and agree to act in accordance with.

- 838.02 The Re-Entry Contract must include an agreement to comply with all the terms required by of the current Collective Bargaining Agreement.
- 838.04 Members who do not agree to act or who do not act in accordance with the current Collective Bargaining Agreement, whichever section applies, shall be subject to discipline, up to and including discharge.
- 838.06 Members who refuse to enter into a Re-Entry Contract shall not be permitted to return to work and shall be subject to discipline, up to and including discharge.

FOLLOW-UP TESTS

- 840.00 Members who are permitted to return to work must submit to follow-up testing, per the current Collective Bargaining Agreement.
- 840.02 The DAC and the outside contractor will determine the times and places for the follow-up testing.

RECORDS AND DIVISION FORMS

- 842.00 The DAC will handle all matters related to drug and alcohol testing in the strictest confidence. The DAC will maintain all records relating to drug and alcohol testing. These records will be kept confidential and will only be released to member or a person designated by written authorization. No records of drug or alcohol testing will be maintained in the member's personnel file.
- 842.02 Written statements and/or forms submitted to the DAC through the chain of command shall be placed in a sealed envelope and sent to the Fire Chief.
- 842.04 A written notice shall be filled out for presentation to the member within twenty-four

Chapter VIII
Substance Abuse Policy and Procedures

(24) hours of the time the employee is ordered to submit to reasonable suspicion testing. The written notice shall include Division form PI-18, Reasonable Suspicion Incident Checklist

- 842.06 Division form PI-11, Reasonable Suspicion Incident Flow Sheet, is to be utilized by an officer that has a reasonable suspicion that a uniform employee under his/her command is under the influence of alcohol or drugs.
- 842.08 Division form PI-18, Reasonable Suspicion Incident Checklist, is to be utilized when an incident has occurred which provides reasonable suspicion that a uniform employee is under the influence of drugs or alcohol.
- 842.10 Division form PI-33, Employee Consent to Testing, is to be utilized when a uniformed employee who is suspected of being under the influence of drugs or alcohol has been ordered to be tested for alcohol or drugs.
- 842.12 Division form PI-36, Substance Abuse Policy Conditional Employment Contract, is utilized by an employee who wishes to avoid immediate termination for a first time violation of the substance abuse policy.

MONITORING OF MEMBER'S COMPLIANCE

- 844.00 For purposes of monitoring a member's compliance, the member will be required to sign a release of information form. This form will allow the DAC to communicate with the EAP. The EAP will refer the member to a substance abuse professional, who will establish a regimen of treatment for the member to follow while relieved of duty. Once the EAP is satisfied that the member is in full compliance with their recommendations, the EAP will contact the DAC and notify of the member's compliance and request a return-to-duty test.
- 844.02 If the member is required by the EAP to continue treatment after returning to work, the EAP will notify the DAC if the member fails to comply with the EAP's requirements. Failure to comply with treatment recommendations shall result in disciplinary action, up to and including termination.

DISCIPLINARY ACTION

- 846.00 The City will not discharge a member who tests positive a first time (whether reasonable suspicion, random, refusal to test), but may suspend such member. The length of such suspension shall be determined on a case by case basis, but shall not ordinarily exceed ten (10) calendar days unless, as set forth in the current Collective Bargaining Agreement, the employee has failed before the end of that 10 day period to provide the City with the results of an evaluation. This limitation on discipline shall not limit the City in imposing discipline up to and including termination, for gross misconduct, which may be coincident with a member's improper drug or alcohol use. If member tampers with a specimen, that test will be considered positive. Members will be terminated after a second positive drug or alcohol test, or any other drug related offenses.
- 846.02 In order to avoid the penalty of termination, and be subject to only a ten (10) calendar day suspension, a member who tests positive for the first time must comply with all the terms and conditions of the current Collective Bargaining Agreement.
- 846.04 Members who voluntarily request assistance shall not be disciplined on the first occasion if said member complies with all the terms and conditions of the current Collective Bargaining Agreement. Members who do not comply with the terms and conditions of the current Collective Bargaining Agreement, or who voluntarily request assistance a second time may be disciplined up to and including termination.
- 846.06 The following chart illustrates the disciplinary action that shall be imposed for violations of the Substance Abuse Policy and/or positive test results.

Violation	Disciplinary Action 1st Offense	Disciplinary Action 2nd Offense (see 846.08)
Refusal to test	Considered a positive test. Up to 10 calendar day suspension.	Termination

Chapter VIII
Substance Abuse Policy and Procedures

Reasonable cause.	Up to 10-calendar day suspension.	Termination
Sample alteration.	Considered a positive test. Up to 10 calendar day suspension.	Termination
Voluntary request for assistance.	No disciplinary action. Subject to current Collective Bargaining Agreement.	Termination
Possession of illegal drugs.	Subject to testing and criminal investigation by the proper authorities and disciplinary action including termination.	Termination
Possession of alcohol while on duty.	Subject to testing and disciplinary action, including termination.	Termination
Refusal to sign consent to test.	Considered a positive test. Up to 10 calendar day suspension.	Termination
Refusal to agree to comply with all terms and conditions of current Collective Bargaining Agreement	Termination	Termination
Failure to comply with all terms and conditions of current Collective Bargaining Agreement	Termination	Termination
Refusal to agree to comply with all terms and conditions of current Collective Bargaining Agreement	Termination	Termination

Chapter VIII
Substance Abuse Policy and Procedures

Failure to comply with all terms and conditions of current Collective Bargaining Agreement	Termination	Termination
Gross misconduct coincident with improper drug or alcohol use.	Based on Central Work Rules Violations	Termination

846.08 In construing the meaning of the chart in Section 846.06, the term 2nd offense means the 2nd time a violation of any part of the substance abuse policy occurs. The term 2nd offense does not mean that the violation must be the 2nd time a specific part of the substance abuse policy occurs.

846.10 The chart set forth in Section 846.06 is not intended to be all-inclusive or to set forth all possible violations and penalties.

INDEX
